

under the terms of the GCA, aliens lawfully present in the United States may not be subject to state residency requirements that are different from those that apply to U.S. citizens. Accordingly, ATF Form 4473 is being revised to distinguish between nonimmigrant aliens admitted to the United States under a nonimmigrant visa and those who were admitted without a visa, and to strike an instruction on the form requiring aliens to establish residence in a State continuously for a period of at least 90 days prior to the date they propose to acquire a firearm from a Federal firearms licensee. Immediate revisions to Form 4473 are necessary to conform with the law. Publication of this notice will acquaint licensees and aliens with the Department's legal positions. Delaying implementation of the new interpretation during a three to six month notice and comment period will generate many questions about which position licensees should follow. Immediate implementation is therefore required.

The proposed changes are required by the GCA. Accordingly, this notice does not seek comments from the public concerning the proposed information collection.

Summary of Collection

(1) *Type of information collection:* Revision of a previously approved collection.

(2) *The title of the form/collection:* Firearms Transaction Record, Part 1, Over-the-Counter.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: ATF F 4473 (5300.9) Part 1, Bureau of Alcohol, Tobacco, Firearms and Explosives.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Other: Business or other for-profit.

Need for Collection

The form is used to determine the eligibility, under the Gun Control Act, of a person to receive a firearm from a Federal firearm licensee and to establish the identity of the transferee. It is also used in law enforcement investigations/inspections to trace firearms and confirm that licensees are complying with their recordkeeping obligations under the GCA.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Based on calendar year 2010 figures, ATF estimates that 14,409,616

respondents will respond to the collection each year and that the total amount of time to read the instructions and complete the form on average is 30 minutes. ATF estimates that the average amount of time it takes to read and complete the form will not be affected by the changes it is proposing here. ATF also notes, however, that previous estimates of number of respondents (112,073) who complete the form each year have been inaccurate.

(6) *An estimate of the total burden (in hours) associated with the collection:* ATF estimates 7,204,808 annual total burden hours associated with this collection. ATF notes that previous estimates of annual burden hours (56,037) have been inaccurate because they underestimated the number of respondents. The burden per respondent has not changed.
