Agencies must also "conduct an internal review and analysis of the effects of all current and proposed policies, practices, and conditions that directly or indirectly," related to the employment of individuals with disabilities based on their race, national origin, gender and disabilities. Paperwork Reduction Act of 1995. Once cleared for use, the revised form will be used to collect race, national origin, gender, and disability demographic information from applicants registering in the FBI's automated hiring system. All job applicants, whether internal or external, would be asked to complete, on a voluntary basis, an "Applicant Questionnaire: Race, National Origin, Gender, and Disability Demographics." The FBI must collect and evaluate information and data necessary to make an informed assessment the extent to which the Agency is meeting its responsibility to provide employment opportunities for qualified applicants and employees with disabilities, especially those with target disabilities.

(5) *An estimate of the total number of respondents and the amount of time estimated for or an average respondent to respond:* There are approximately 455,937 respondents that submit a one-time completion of questionnaire per respondent for a total of responses with an estimated response time of 5 minutes per response.
