

shipment had entered the country. See Memorandum to the File, "Information Regarding Entries of Subject Merchandise During the Period of Review," March 16, 2012. Entry data requested from U.S. Customs and Border Protection (CBP) does not indicate that this shipment has entered the country. *Id.* Because Puyang Cleanway has not demonstrated that this sale has entered the United States, there is no basis for conducting an NSR since there must be a suspended entry in order for the Department to conduct the review. Therefore, we are rescinding the NSR of Puyang Cleanway.

Assessment Rates

Any entries of exports made by Puyang Cleanway will be subject to the PRC-wide rate. The Department is currently conducting an administrative review for the POR, June 1, 2010, through May 31, 2011, in which the PRC-wide rate is under review. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocations in Part and Deferral of Administrative Reviews*, 76 FR 45227 (July 28, 2011). We will instruct CBP to assess antidumping duties on entries exported by Puyang Cleanway at the appropriate PRC-wide rate determined in the 2010–2011 administrative review. Because there were no suspended entries at the time of initiation, no bonding option instructions were sent to CBP at the initiation of this NSR; therefore the Department does not need to issue instructions to CBP no longer allowing posting a bond in lieu of cash-deposit, as is typically done when an NSR is rescinded.

Notification Regarding Administrative Protective Orders

This notice is the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with

this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are publishing this determination and notice in accordance with sections 751(a)(2)(B) and 777(i) of the Act and 19 CFR 351.214(f)(3).

March 26, 2012.

Gary Taverman,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

FOR FURTHER INFORMATION CONTACT: Carrie Hubard or Laura Morse at (301)427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

Mr. John Calambokidis requests a five-year permit to study cetaceans and pinnipeds in the eastern North Pacific, from Central America to Alaska. The research is a continuation of long-term studies designed to examine marine mammal abundance, distribution, population structure, habitat use, social structure, movement patterns, diving behavior, and diet. The proposed project would also assess the impact of human activities such as ship strikes, noise exposure, contaminants, and fishery interactions on marine mammals. Focal species are blue (*Balaenoptera musculus*), fin (*B. physalus*), humpback (*Megaptera novaeangliae*), eastern gray (*Eschrichtius robustus*), sperm (*Physeter macrocephalus*), and beaked (*Mesoplodon* spp.) whales. An additional 15 cetacean species and five pinniped species would also be studied, including the endangered sei whale (*B. borealis*), endangered Southern Resident stock of killer whales (*Orcinus orca*), and the threatened eastern stock of Steller sea lions (*Eumetopias jubatus*). Aerial surveys would be conducted to study abundance and distribution, and to track tagged animals. Ground surveys would consist of population counts and scat collection to study harbor seals (*Phoca vitulina*) and other pinnipeds at haul-out areas in Puget Sound and throughout Washington. Vessel surveys would include photo-identification, behavioral focal follows, underwater observations and filming, hydroacoustic prey determination, passive acoustic recording, breath sampling, biopsy sampling, collection of sloughed skin, and attachment of suction cup and dart tags. Tags would provide a variety of information such as video images, acoustic recordings, movement data, and physiology information.

A draft environmental assessment (EA) has been prepared in compliance with the National Environmental Policy

Act of 1969 (42 U.S.C. 4321 *et seq.*), to examine whether significant environmental impacts could result from issuance of the proposed scientific research permit. The draft EA is available for review and comment simultaneous with the permit application.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.
