ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the P.J. McArdle Bridge across the Chelsea River, mile 0.3, between Chelsea and East Boston, Massachusetts. This deviation allows

the bridge to remain in the closed position to facilitate the Chelsea River Revel and 5K Road Race. Vessels that can pass under the draw without a bridge opening may do so at all times.

DATES: This deviation is effective from 8 a.m. through 5 p.m. on June 16, 2012.

SUPPLEMENTARY INFORMATION: The owner of the bridge, the City of Boston, requested this temporary deviation. The P.J. McArdle Bridge, across the Chelsea River at mile 0.3, between Chelsea and East Boston, Massachusetts, has a vertical clearance in the closed position of 21 feet at mean high water and 30 feet at mean low water. The bridge opens on signal as required by 33 CFR 117.593. The waterway is transited by commercial users, tankers, tug and barge units.

This temporary deviation allows the P.J. McArdle Bridge to remain in the closed position from 8 a.m. through 5 p.m. on June 16, 2012. Vessels able to pass under the closed draw may do so at any time. Waterway users were advised of the requested bridge closure period and offered no objection.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b) (B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because sufficient information about the event was not received in time to publish a NPRM followed by a final rule before the effective date, thus making the publication of a NPRM impractical. The Coast Guard received the information about the event on May 3, 2012. Any delay encountered in this regulation's effective date by publishing a NPRM would be contrary to public interest, since immediate action is needed to provide for the safety of life and property on navigable waters from the hazards associated with fireworks including unexpected detonation and burning debris.

The event sponsor advised that the event is in correlation with the graduation ceremony of the United
