

may be submitted to the Assistant Secretary for Import Administration no later than seven days after the publication date of this notice. Rebuttal briefs, limited to issues raised in case briefs, are due no later than five days after the deadline for submitting case briefs.⁴⁰ A list of authorities used and an executive summary of issues should accompany any briefs submitted to the Department. This summary should be limited to five pages total, including footnotes. All submissions to the Department, including case briefs and rebuttal briefs, must be filed electronically using Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"). An electronically filed document must be received successfully in its entirety by the Department's electronic records system, IA ACCESS, by 5 p.m. Eastern Standard Time, on the date of the established deadline, if applicable. Finally, this notice is a public document and is on file electronically via IA ACCESS. IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, room 7046 of the main Department of Commerce building.

This determination is published pursuant to sections 733(f) and 777(i) of the Act and 19 CFR 351.206(c)(2)(ii).

Dated: August 20, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket Number 120706223-2223-01]

Alternative Personnel Management System (APMS) at the National Institute of Standards and Technology

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice.

SUMMARY: This notice announces changes to existing provisions of the National Institute of Standards and Technology's (NIST) Alternative Personnel Management System (APMS). NIST will pilot direct-hire authority for a period of one year from the publication date of this notice, for all

positions in the General Engineering, 801 series and General Physical Science, 1301 series.

DATES: The direct-hire authority pilot program will begin on August 24, 2012, until August 24, 2013.

FOR FURTHER INFORMATION CONTACT: Susanne Porch at the National Institute of Standards and Technology, (301) 975-3000; or Valerie Smith at the U.S. Department of Commerce, (202) 482-0272.

SUPPLEMENTARY INFORMATION:

Background

In accordance with Public Law 99-574, the National Bureau of Standards Authorization Act for Fiscal Year 1987, the Office of Personnel Management (OPM) approved a demonstration project plan, "Alternative Personnel Management System (APMS) at the National Institute of Standards and Technology (NIST)," and published the plan in the *Federal Register* on October 2, 1987 (52 FR 37082). The project plan has been modified twice, on May 17, 1989 (54 FR 21331) and Sept. 25, 1990 (55 FR 39220), to clarify certain NIST authorities. The project plan and subsequent amendments were consolidated in the final APMS plan, which became permanent on October 21, 1997 (62 FR 54604). NIST first amended the plan on May 6, 2005 (70 FR 23996), to strengthen the link between pay and performance, to simplify the pay-for-performance system, and to broaden the link between performance and retention service credit for reduction in force, which became effective upon the date of publication. NIST amended the plan again on July 15, 2008 (73 FR 40500), to improve flexibility in rewarding new and mid-level employees and to broaden the ability to make performance distinctions, and that amendment became permanent on October 1, 2008.

On December 3, 2010, the Department of Commerce approved NIST's request to pilot direct-hire under 5 U.S.C. 3304(a)(3) for a period of one year for all positions within the Scientific and Engineering (ZP) career path at the Pay Band III and above, for Nuclear Reactor Operator positions in the Scientific and Engineering Technician (ZT) career path at Pay Band III and above, and for all occupations for which there is a special rate under the General Schedule (GS) pay system. On January 5, 2011, NIST published a *Federal Register* notice (76 FR 539) announcing that the agency would be implementing the direct-hire pilot for a period of one year. During the pilot, information was gathered on the impact of direct-hire authority on

preference eligibles, as well as information supporting the finding of a severe shortage of candidates for the positions covered under the direct-hire authority.

On December 20, 2011, NIST published a *Federal Register* notice (76 FR 78889) extending the direct-hire pilot for an additional six (6) months. During this extended pilot period, NIST submitted a request to the Department of Commerce to implement direct-hire authority under 5 U.S.C. 3304(a)(3) on a permanent basis for Nuclear Reactor Operator positions in NIST's Scientific and Engineering Technician (ZT) career path at the Pay Band III and above, and for all positions in NIST's Scientific and Engineering (ZP) career path at the Pay Band III and above except for the Information Technology Management, 2210 series; the General Engineering, 801 series; and the General Physical Science, 1301 series. The request included a statistical analysis determining the impact of direct-hire authority on preference eligibles as well as a justification supporting the finding of a severe shortage of candidates in the covered positions.

On April 20, 2012, the Department of Commerce, in consultation with the Office of Personnel Management, approved NIST's request to implement direct-hire authority on a permanent basis for the above occupations. The Department of Commerce also granted NIST approval to pilot direct-hire authority under 5 U.S.C. 3304(a)(3) for all positions in the General Engineering, 801 series and the General Physical Science, 1301 series.

The APMS plan provides for modifications to be made as experience is gained, results are analyzed, and conclusions are reached on how the system is working. This notice formally announces the modification to the APMS plan to implement direct-hire procedures under 5 U.S.C. 3304(a)(3) on a pilot basis for twelve (12) months. During this pilot period, NIST will gather data on the impact of direct-hire authority on preference eligibles. NIST will also include data from the previous pilot's expiration date of June 5, 2012. If additional time is required to complete review of the data, the pilot may be extended for an additional six (6) months.

Dated: August 2, 2012.

David Robinson,

Associate Director for Management Resources.

Table of Contents

- I. Executive Summary
- II. Basis for APMS Plan Modification

⁴⁰ See 19 CFR 351.309(c)(1)(i), (d)(1).

III. Changes to the APMS Plan

I. Executive Summary

The National Institute of Standards and Technology's (NIST) Alternative Personnel Management System (APMS) is designed to (1) improve hiring and allow NIST to compete more effectively for high-quality researchers through direct hiring, selective use of higher entry salaries, and selective use of recruiting allowances; (2) motivate and retain staff through higher pay potential, pay-for-performance, more responsive personnel systems, and selective use of retention allowances; (3) strengthen the manager's role in personnel management through delegation of personnel authorities; and (4) increase the efficiency of personnel systems through installation of a simpler and more flexible classification system based on pay banding through reduction of guidelines, steps, and paperwork in classification, hiring, and other personnel systems, and through automation.

Since implementing the APMS in 1987, according to findings in the Office of Personnel Management's "Summative Evaluation Report National Institute of Standards and Technology Demonstration Project: 1988–1995," NIST has accomplished the following: NIST is more competitive for talent; NIST retained more top performers than a comparison group; and NIST managers reported significantly more authority to make decisions concerning employee pay. This modification builds on this success by piloting direct-hire authority for the General Engineering, 801 series and General Physical Science, 1301 series under 5 U.S.C. 3304(a)(3) for a period of twelve (12) months.

This amendment modifies the October 21, 1997 **Federal Register** notice. Specifically, it enables NIST to hire, after public notice is given, any qualified applicant without regard to 5 U.S.C. 3309–3318, 5 CFR part 211, or 5 CFR part 337, subpart A for a period of twelve (12) months. During this pilot period, NIST will gather data on the impact of direct-hire authority on preference eligibles. NIST will also include data from the previous pilot's expiration date of June 5, 2012. If additional time is required to complete a review of the data, the pilot may be extended for an additional six (6) months.

NIST will continually monitor the effectiveness of this amendment.

II. Basis for APMS Plan Modification

Section 3304(a)(3) of title 5, United States Code, provides agencies with the authority to appoint candidates directly

to jobs for which OPM determines that there is a severe shortage of candidates or a critical hiring need.

OPM's direct-hire authority enables agencies to hire, after public notice is given, any qualified application without regard to 5 U.S.C. 3309–3318, 5 CFR part 211, or 5 CFR part 337, subpart A. NIST's APMS allows the NIST Director to modify procedures if no new waiver from law or regulation is added. Given this modification is in accordance with existing law and regulation, the NIST Director is authorized to make the changes described in this notice. The modification to our final **Federal Register** notice, dated October 21, 1997, with respect to our Staffing authorities is provided below.

In 1987, with the approval of the NIST APMS (52 FR 37082), and in 1997, when the APMS plan was modified (62 FR 54604), OPM concurred that all occupations in the ZP career path at the Pay Band III and above constitute a shortage category; Nuclear Reactor Operator positions in the ZT Career Path at the Pay Band III and above constitute a shortage category; and all occupations for which there is a special rate under the General Schedule pay system constitute a shortage category.

III. Changes in the APMS Plan

The APMS at NIST, published in the **Federal Register** on October 21, 1997 (62 FR 54604) is amended as follows.

1. The information under the subsection titled: "Direct Hire: Critical Shortage Occupations" is replaced with:

NIST uses direct-hire procedures for categories of occupations which require skills that are in short supply. All Nuclear Reactor Operator positions at the Pay Band III and above in the ZT Career Path constitute a shortage category, and all occupations at the Pay Band III and above in the ZP Career Path constitute a shortage category except for the Information Technology Management, 2210 series; the General Engineering, 801 series; and the General Physical Science, 1301 series. NIST will pilot direct-hire procedures for the General Engineering, 801 series and the General Physical Science, 1301 series for a period of twelve (12) months. Any positions in these categories may be filled through direct-hire procedures in accordance with 5 U.S.C. 3304(a)(3). NIST advertises the availability of job opportunities in direct-hire occupations by posting on the OPM USAJOBS Web site. NIST will follow internal direct-hire procedures for accepting applications.

NIST intends to publish a consolidated plan that reflects all amendments to the APMS in FY13.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XC184

Marine Mammals; File No. 17403

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Robert Pilley, Leighside, Bridge Road, Leighwoods, Bristol, BS8 3PB, United Kingdom, has applied in due form for a permit to conduct commercial/educational photography on bottlenose dolphins (*Tursiops truncatus*).

DATES: Written, telefaxed, or email comments must be received on or before September 24, 2012.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376; and Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, FL 33701; phone (727) 824–5312; fax (727) 824–5309.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to [NMFS](mailto:Pr1Comments@noaa.gov). *Pr1Comments@noaa.gov*. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Colette Cairns or Carrie Hubbard, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216). Section 104(c)(6) provides for photography for educational or commercial purposes involving non-endangered and non-threatened marine mammals in the wild.
