b. Focus Group.

c. New and Emerging Burial Practices Study: Structured Interview Guide.

OMB Control Number: 2900-NEW (NCA Emerging Burial Survey Needs).

Type of Review: New collection.

Abstract: NCA has over the past several years made significant efforts to evaluate its burial program. In 2008, NCA completed the first comprehensive evaluation of its burial benefits program, which included a nation-wide survey of Veterans that, among other things, assessed the reasons that Veterans choose—or do not choose—burial in a national cemetery. Although the survey assessed what types of interment practices were currently available through NCA and evaluated Veterans' preferences for existing interment practices, it did not determine Veterans' preferences for interment options that were beyond what was currently offered by VA at that time. NCA now seeks to both update their understanding of the Veterans' satisfaction with NCA's current services, and to understand what additional interment options might be of interest to our Veterans and how they would view the inclusion of these options at the national cemeteries or other venues. The survey and focus groups will form the basis for review of various policies and the performance of follow-on research into specific emerging interment options.

Affected Public: Individuals or households.
