

The Designated List of Archaeological Material from Mali covered by these import restrictions is set forth in CBP Dec. 07–77, see 72 FR 53414 dated September 19, 2007. More information on import restrictions can be obtained from the Mali country section of the International Cultural Property Protection Web site (<http://exchanges.state.gov/heritage/culprop/mlfact.html>).

The restrictions on the importation of these archaeological materials from Mali are to continue in effect through September 19, 2017. Importation of such materials continues to be restricted unless the conditions set forth in 19 U.S.C. 2606 and 19 CFR 12.104c are met.

Inapplicability of Notice and Delayed Effective Date

This amendment involves a foreign affairs function of the United States and is, therefore, being made without notice or public procedure (5 U.S.C. 553(a)(1)). For the same reasons, pursuant to 5 U.S.C. 553(d)(3), a delayed effective date is not required.

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply.

Executive Order 12866

Because this rule involves a foreign affairs function of the United States, it is not subject to Executive Order 12866.

Signing Authority

This regulation is being issued in accordance with 19 CFR 0.1(a)(1).

BILLING CODE 9111–14–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 520 and 558

[Docket No. FDA–2012–N–0002]

New Animal Drugs for Use in Animal Feeds; Monensin

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to remove a warning for growing cattle on pasture or in dry lot and to codify all monensin free-choice Type C medicated feeds in 21 CFR part 558. This action is being taken to improve the accuracy of the regulations.

DATES: This rule is effective September 19, 2012.

FOR FURTHER INFORMATION CONTACT: Christina C. Edwards, Center for Veterinary Medicine (HFV–126), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 240–276–8228, Email: christina.edwards@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: FDA has noticed that the animal drug regulations for certain monensin free-choice Type C medicated feeds for growing cattle on pasture or in dry lot (slaughter, stocker, and feeder cattle; and dairy and beef replacement heifers) reflect a warning statement regarding the overdosing risk posed by uneaten free-choice feeds

(refusals) that is unnecessary and not required on product labeling.

Refusals of free-choice cattle feeds, including compressed blocks, granules, and liquids, are unlikely in practice to be fed to another group of cattle. These products are used almost exclusively in pasture-based systems where the product is placed in the pasture with the animals and is left until consumed. In addition, it is extremely unlikely that these free-choice cattle feeds would be fed to another production class because these products generally are not appropriate for the nutritional needs of another production class.

For these reasons, FDA is revising the regulations to exclude monensin free-choice Type C medicated feeds for growing cattle on pasture or in dry lot from the requirement to include a warning statement. This action is being taken to improve the accuracy of the regulations.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because it is a rule of “particular applicability.” Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.

DEPARTMENT OF THE INTERIOR**Office of Surface Mining Reclamation and Enforcement****30 CFR Part 926****[SATS No. MT-034-FOR; Docket ID No. OSM-2011-0018]****Montana Regulatory Program****AGENCY:** Office of Surface Mining Reclamation and Enforcement, Interior.**ACTION:** Final rule; approval of amendment.

SUMMARY: We are approving an amendment to the Montana regulatory program (the “Montana program”) under the Surface Mining Control and Reclamation Act of 1977 (“SMCRA” or “the Act”). Montana proposed revisions to and additions of statutory definitions of approximate original contour, in situ coal gasification, and recovery fluid. Montana revised its program to clarify ambiguities and improve operational efficiency. Montana intends to promulgate regulations pertaining to in situ coal gasification within one year. The statutory revisions discussed here will support that future rulemaking effort.

I. Background on the Montana Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Montana program on April 1, 1980. You can find background information on the Montana program, including the Secretary’s findings, the disposition of comments, and conditions of approval in the April 1, 1980, **Federal Register** (45 FR 21560).
