

Review process and included in the ASC Compliance Review Report to a State. Proposed Policy Statement 8 sets forth procedures in the event the ASC imposes interim sanctions against a State. The proposal includes four appendices. The ASC requested comment on its proposal and set a 60-day comment period, originally scheduled to end on October 29, 2012. The ASC has received a request to extend the comment period. The ASC Board believes a 30-day extension will facilitate the submission of comments without causing undue delay to the implementation of proposed Policy Statements. Accordingly, the comment period is extended and comments must now be received by November 29, 2012.

OS especially requests comments on (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

*Deadline:* Comments on the ICR must be received within 60 days of the issuance of this notice.

*Information Collection Request Title:* Evaluation of the National Partnership for Action to End Health Disparities.

*Abstract:* OMH in the Office of the Assistant Secretary for Health (OASH), Office of the Secretary (OS) is requesting approval from the Office of Management and Budget (OMB) for new data collection activities for the Evaluation of the National Partnership for Action to End Health Disparities (NPA). The NPA was officially launched in April 2011 to mobilize a nationwide, comprehensive, community-driven, and sustained approach to combating health disparities and to move the nation toward achieving health equity. Using an approach that vests those at the front line with the responsibility of identifying and helping to shape core actions, new approaches and new partnerships are being established to

help close the health gap in the United States.

OMH proposes to conduct an evaluation of the NPA. The evaluation's goal is to determine the extent to which the NPA has contributed to the elimination of health disparities and attainment of health equity in our nation. The evaluation will accomplish this goal by (1) Determining the degree to which a structure (e.g., partnerships, programmatic reach, communications, committees) to implement the NPA goals and strategies has been established; (2) The collection, analysis, and summarization of baseline data for core indicators of immediate and intermediate outcomes (e.g., changes in policy, procedures, and practices to diversify workforce, promote cultural competency, affect social determinants, build leadership, and increase public support for ending health disparities and achieving health equity); (3) Developing criteria for promising

practices for ending health disparities and identifying such practices; (4) Beginning to monitor data on social determinants of health and health outcomes using secondary sources.

*Burden Statement:* Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information.
