ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E Airspace in the Goldsboro, NC area, to accommodate new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures at Mount Olive Municipal Airport. The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to amend

Class E airspace extending upward from 700 feet above the surface in the Goldsboro, NC area, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for Mount Olive Municipal Airport. The geographic coordinates of Mount Olive Municipal Airport and the Seymour Johnson TACAN would be adjusted to coincide with the FAA's aeronautical database. Airspace reconfiguration is necessary for the continued safety and management of IFR operations within the Goldsboro, NC airspace area.

Class E airspace designations are published in Paragraph 6005 of FAA order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would amend Class E airspace in the Goldsboro, NC, area.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and

Procedures” prior to any FAA final regulatory action.

[Docket No. FAA–2011–0621; Airspace Docket No. 11–ASO–28]

Proposed Amendment of Class D and E Airspace; Tri-Cities, TN; Revocation of Class E Airspace; Tri-City, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (SNPRM).

SUMMARY: This supplemental notice of proposed rulemaking would rename the city designator listed under the title in the preamble and regulatory text for Tri-Cities Regional Airport, and establish Class E airspace extending upward from 700 feet above the surface at Hawkins County Airport, Rogersville, TN, and Virginia Highlands Airport, Abingdon, VA. The Tri-Cities Class D airspace description would be amended to better describe the controlled airspace area. In an NPRM published in the **Federal Register** on April 10, 2012, the FAA proposed to amend existing controlled airspace extending upward from 700 feet above the surface at Tri-Cities Airport, Blountville, TN, that included the airports mentioned above. The FAA has reassessed the proposal and finds that separation of existing Class E airspace surrounding Virginia Highlands Airport, Abingdon, VA, and Hawkins County Airport, Rogersville, TN, from the Class E airspace area of Tri-Cities Regional Airport, Tri-Cities, TN, is necessary to further the safety and management of Instrument Flight Rules (IFR) operations in the Tri-Cities, TN area.

DATES: Comments must be received on or before November 13, 2012.

ADDRESSES: Send comments on this rule to: U. S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12–140, 1200 New Jersey SE., Washington, DC 20590–0001; Telephone: 1–800–647–5527; Fax: 202–493–2251. SUPPLEMENTARY INFORMATION:

History

On April 28, 2012, the FAA published a NPRM to amend Class D and Class E airspace, Blountville, TN, and revoke Class E airspace at Tri-City, TN, (77 FR, 21505). The comment period closed May 25, 2012. No comments were received. Subsequent to publication, the FAA reassessed the proposal to show the separation of Hawkins County Airport, and Virginia Highlands Airport, from the Tri-Cities Regional Airport, by establishing each airport with their own respective city designator. The Tri-Cities Class D airspace description would be amended to better describe the controlled airspace area. The city designator for Tri-Cities Regional Airport was changed to Blountville, TN, in error, and would be noted correctly as Tri-Cities, TN, in this action. The FAA seeks comments on this SNPRM.
