40 CFR Parts 271 and 272

[EPA–R06–RCRA–2012–0473; FRL–9745–1]

Texas: Final Authorization of State-initiated Changes and Incorporation by Reference of State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: During a review of Texas’ regulations, the EPA identified a variety of State-initiated changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). We have determined that these changes are minor and satisfy all requirements needed to qualify for Final authorization and are authorizing the State-initiated changes through this Direct Final action.

The Solid Waste Disposal Act, as amended, commonly referred to as the Resource Conservation and Recovery Act (RCRA), allows the Environmental Protection Agency (EPA) to authorize States to operate their hazardous waste management programs in lieu of the Federal program. The EPA uses the regulations entitled “Approved State Hazardous Waste Management Programs” to provide notice of the authorization status of State programs and to incorporate by reference those provisions of the State statutes and regulations that will be subject to the EPA’s inspection and enforcement. The rule codifies in the regulations the prior approval of Texas’ hazardous waste management program and incorporates

by reference authorized provisions of the State’s statutes and regulations.

DATES: This regulation is effective January 29, 2013, unless the EPA receives adverse written comment on the codification of the Texas authorized RCRA program by the close of business December 31, 2012. If the EPA receives such comments, it will publish a timely withdrawal of this direct final rule in the **Federal Register** informing the public that this rule will not take effect. The incorporation by reference of authorized provisions in the Texas statutes and regulations contained in this rule is approved by the Director of the Federal Register as of January 29, 2013 in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

ADDRESSES: Submit your comments by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. Authorization of State-Initiated Changes

A. Why are revisions to State programs necessary?

States which have received Final authorization from the EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. As the Federal program changes, the States must change their programs and ask the EPA to authorize the changes. Changes to State hazardous waste programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to the EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 268, 270, 273 and 279. States can also initiate their own changes to their hazardous waste program and these changes must then be authorized.

B. What decisions have we made in this rule?

We conclude that Texas' revisions to its authorized program meet all of the statutory and regulatory requirements established by RCRA. We found that the State-initiated changes make Texas' rules more clear or conform more closely to the Federal equivalents and are of such nature that a formal application is unnecessary. Therefore, we grant Texas final authorization to operate its hazardous waste program with the changes described in the table at Section G below. Texas has responsibility for permitting Treatment, Storage, and Disposal Facilities (TSDFs) within its borders (except in Indian Country) and for carrying out all authorized aspects of the RCRA program, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA). New Federal requirements and prohibitions imposed by Federal regulations that EPA promulgates under the authority of HSWA take effect in authorized States before they are authorized for the requirements. Thus, the EPA will implement those requirements and prohibitions in Texas, including issuing permits, until the State is granted authorization to do so.

C. What is the effect of this authorization decision?

The effect of this decision is that a facility in Texas subject to RCRA will

now have to comply with the authorized State requirements instead of the equivalent Federal requirements in order to comply with RCRA. Texas has enforcement responsibilities under its State hazardous waste program for violations of such program, but the EPA retains its authority under RCRA sections 3007, 3008, 3013, and 7003, which include, among others, authority to:

- Do inspections, and require monitoring, tests, analyses, or reports;
- Enforce RCRA requirements and suspend or revoke permits; and
- Take enforcement actions regardless of whether the State has taken its own actions.

This action does not impose additional requirements on the regulated community because the statutes and regulations for which Texas is being authorized by this direct action are already effective and are not changed by this action.

D. Why wasn't there a proposed rule before this rule?

The EPA did not publish a proposal before this rule because we view this as a routine program change and do not expect comments that oppose this approval. We are providing an opportunity for public comment now. In addition to this rule, in the Proposed Rules section of this **Federal Register**, we are publishing a separate document that proposes to authorize the State program changes.

E. What happens if EPA receives comments that oppose this action?

If the EPA receives comments that oppose this authorization or the incorporation-by-reference of the State program, we will withdraw this rule by publishing a timely document in the **Federal Register** before the rule becomes effective. The EPA will base any further decision on the authorization of the State program changes, or the incorporation-by-reference, on the proposal mentioned in the previous paragraph. We will then address all public comments in a later final rule. If you want to comment on this authorization and incorporation-by-reference, you must do so at this time. If we receive comments that oppose only the authorization of a particular change to the State hazardous waste program or the incorporation-by-reference of the State program, we may withdraw only that part of this rule, but the authorization of the program changes or the incorporation-by-reference of the State program that the comments do not oppose will become effective on the date specified above.

The **Federal Register** withdrawal document will specify which part of the authorization or incorporation-by-reference of the State program will become effective and which part is being withdrawn.

F. For what has Texas previously been authorized?

The State of Texas initially received final authorization on December 26, 1984 (49 FR 48300), to implement its Base Hazardous Waste Management Program. This authorization was clarified in a notice published March 26, 1985 (50 FR 11858). Texas received authorization for revisions to its program, effective October 4, 1985 (51 FR 3952), February 17, 1987 (51 FR 45320), March 15, 1990 (55 FR 7318), July 23, 1990 (55 FR 21383), October 21, 1991 (56 FR 41626), December 4, 1992 (57 FR 45719), June 27, 1994 (59 FR 16987), June 27, 1994 (59 FR 17273), November 26, 1997 (62 FR 47947), December 3, 1997 (62 FR 49163), October 18, 1999 (64 FR 44836), November 15, 1999 (64 FR 49673), September 11, 2000 (65 FR 43246), June 14, 2005 (70 FR 34371), December 29, 2008, (73 FR 64252), July 13, 2009 (74 FR 22469), May 6, 2011 (76 FR 12283), and May 7, 2012 (77 FR 13200).

G. What changes are we authorizing with this action?

The State has made amendments to the provisions listed in the table which follows. These amendments clarify the State's regulations and make the State's regulations more internally consistent. The State's laws and regulations, as amended by these provisions, provide authority which remains equivalent to, no less stringent than, and not broader in scope than the Federal laws and regulations. These State-initiated changes satisfy the requirements of 40 CFR 271.21(a). We are granting Texas final authorization to carry out the following provisions of the State's program in lieu of the Federal program. These provisions are analogous to the indicated RCRA statutory provisions or RCRA regulations found at 40 CFR as of July 1, 2008. The Texas provisions are from the Texas Administrative Code (TAC), Title 30, effective December 31, 2009.

B. What is the history of the codification of Texas’ hazardous waste management program?

The EPA incorporated by reference Texas’ then authorized hazardous waste program effective December 3, 1997 (62 FR 49163), November 15, 1999 (64 FR 49673), December 29, 2008 (73 FR 64252), and May 6, 2011 (76 FR 12283). In this action, EPA is revising Subpart SS of 40 CFR part 272 to include the recent authorization revision actions effective May 7, 2012 (77 FR 13200).

C. What codification decisions have we made in this rule?

The purpose of this **Federal Register** document is to codify Texas’ base hazardous waste management program and its revisions to that program. The EPA provided notices and opportunity for comments on the Agency’s decisions to authorize the Texas program, and the EPA is not now reopening the decisions, nor requesting comments, on the Texas authorizations as published in the **Federal Register** notices specified in Section F of this document.

This document incorporates by reference Texas’ hazardous waste statutes and regulations and clarifies which of these provisions are included in the authorized and Federally enforceable program. By codifying Texas’ authorized program and by amending the Code of Federal Regulations, the public will be more easily able to discern the status of Federally approved requirements of the Texas hazardous waste management program.

The EPA is incorporating by reference the Texas authorized hazardous waste program in subpart SS of 40 CFR part 272. Section 272.2201 incorporates by reference Texas’ authorized hazardous waste statutes and regulations. Section 272.2201 also references the statutory provisions (including procedural and enforcement provisions) which provide the legal basis for the State’s implementation of the hazardous waste management program, the Memorandum of Agreement, the Attorney General’s Statements and the Program Description, which are approved as part of the hazardous waste management program under Subtitle C of RCRA.

D. What is the effect of Texas’ codification on enforcement?

The EPA retains its authority under statutory provisions, including but not limited to, RCRA sections 3007, 3008, 3013, and 7003, and other applicable statutory and regulatory provisions to undertake inspections and enforcement

H. Who handles permits after the authorization takes effect?

This authorization does not affect the status of State permits and those permits issued by the EPA because no new substantive requirements are a part of these revisions.

I. How does this action affect Indian Country (18 U.S.C. 1151) in Texas?

Texas is not authorized to carry out its Hazardous Waste Program in Indian Country within the State. This authority remains with EPA. Therefore, this action has no effect in Indian Country.

II. Incorporation-by-Reference

A. What is codification?

Codification is the process of placing a State’s statutes and regulations that comprise the State’s authorized hazardous waste management program into the Code of Federal Regulations (CFR). Section 3006(b) of RCRA, as amended, allows the Environmental Protection Agency (EPA) to authorize State hazardous waste management programs to operate in lieu of the Federal hazardous waste management regulatory program. The EPA codifies its authorization of State programs in 40 CFR part 272 and incorporates by reference State statutes and regulations that the EPA will enforce under sections 3007 and 3008 of RCRA and any other applicable statutory provisions.

The incorporation by reference of State authorized programs in the CFR should substantially enhance the public’s ability to discern the current status of the authorized State program and State requirements that can be Federally enforced. This effort provides clear notice to the public of the scope of the authorized program in each State.

actions and to issue orders in authorized States. With respect to these actions, the EPA will rely on Federal sanctions, Federal inspection authorities, and Federal procedures rather than any authorized State analogues to these provisions. Therefore, the EPA is not incorporating by reference such particular, approved Texas procedural and enforcement authorities. Section 272.2201(c)(2) of 40 CFR lists the statutory and regulatory provisions which provide the legal basis for the State's implementation of the hazardous waste management program, as well as those procedural and enforcement authorities that are part of the State's approved program, but these are not incorporated by reference.

E. What State provisions are not part of the codification?

The public needs to be aware that some provisions of Texas' hazardous waste management program are not part of the Federally authorized State program. These non-authorized provisions include:

(1) Provisions that are not part of the RCRA subtitle C program because they are "broader in scope" than RCRA subtitle C (see 40 CFR 271.1(i));

(2) Federal rules for which Texas is not authorized, but which have been incorporated into the State regulations because of the way the State adopted Federal regulations by reference;

(3) Unauthorized amendments to authorized State provisions; and

(4) New unauthorized State requirements.

State provisions that are "broader in scope" than the Federal program are not part of the RCRA authorized program and the EPA will not enforce them. Therefore, they are not incorporated by reference in 40 CFR part 272. For reference and clarity, 40 CFR 272.2201(c)(3) lists the Texas regulatory provisions which are "broader in scope" than the Federal program and which are not part of the authorized program being incorporated by reference. "Broader in scope" provisions cannot be enforced by the EPA; the State, however, may enforce such provisions under State law.

Texas has adopted but is not authorized for the following Federal rules published in the **Federal Register** on April 12, 1996 (61 FR 16290); December 5, 1997 (62 FR 64504); June 8, 2000 (65 FR 36365); March 4, 2005 (70 FR 10776), as amended June 16, 2005 (70 FR 35034). Therefore, these Federal amendments included in Texas' adoption by reference at 30 Texas Administrative Code (TAC) sections 335.112(a)(1) and (a)(4), 335.152(a)(1)

and (a)(4), and 335.431(c)(1) and (c)(3), are not part of the State's authorized program and are not part of the incorporation by reference addressed by this **Federal Register** document.

Additionally, Texas' hazardous waste regulations include amendments which have not been authorized by the EPA. Since the EPA cannot enforce a State's requirements which have not been reviewed and authorized in accordance with RCRA section 3006 and 40 CFR part 271, it is important to be precise in delineating the scope of a State's authorized hazardous waste program. Regulatory provisions that have not been authorized by the EPA include amendments to previously authorized State regulations as well as new State requirements.

In those instances where Texas has made unauthorized amendments to previously authorized sections of State code, the EPA is identifying in 40 CFR 272.2201(c)(4) any regulations which, while adopted by the State and incorporated by reference, include language not authorized by the EPA. Those unauthorized portions of the State regulations are not Federally enforceable. Thus, notwithstanding the language in Texas hazardous waste regulations incorporated by reference at 40 CFR 272.2201(c)(1), the EPA will only enforce those portions of the State regulations that are actually authorized by the EPA. For the convenience of the regulated community, the actual State regulatory text authorized by the EPA for the citations listed at 40 CFR 272.2201(c)(4) (i.e., without the unauthorized amendments) is compiled as a separate document, *Addendum to the EPA Approved Texas Regulatory Requirements Applicable to the Hazardous Waste Management Program, July 2009*. This document is available from EPA Region 6, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, Phone number: (214) 665-8533.

State regulations that are not incorporated by reference in this rule at 40 CFR 272.2201(c)(1), or that are not listed in 40 CFR 272.2201(c)(3) ("broader in scope") or 40 CFR 272.2201(c)(4) ("unauthorized amendments to authorized State provisions"), are considered new unauthorized State requirements. These requirements are not Federally enforceable.

With respect to any requirement pursuant to the Hazardous and Solid Waste Amendments of 1984 (HSWA) for which the State has not yet been authorized, the EPA will continue to enforce the Federal HSWA standards

until the State is authorized for these provisions.

F. What will be the effect of Federal HSWA requirements on the codification?

The EPA is not amending 40 CFR part 272 to include HSWA requirements and prohibitions that are implemented by EPA. Section 3006(g) of RCRA provides that any HSWA requirement or prohibition (including implementing regulations) takes effect in authorized and not authorized States at the same time. A HSWA requirement or prohibition supersedes any less stringent or inconsistent State provision which may have been previously authorized by the EPA (50 FR 28702, July 15, 1985). The EPA has the authority to implement HSWA requirements in all States, including authorized States, until the States become authorized for such requirement or prohibition. Authorized States are required to revise their programs to adopt the HSWA requirements and prohibitions, and then to seek authorization for those revisions pursuant to 40 CFR part 271.

Instead of amending the 40 CFR part 272 every time a new HSWA provision takes effect under the authority of RCRA section 3006(g), the EPA will wait until the State receives authorization for its analog to the new HSWA provision before amending the State's 40 CFR part 272 incorporation by reference. Until then, persons wanting to know whether a HSWA requirement or prohibition is in effect should refer to 40 CFR 271.1(j), as amended, which lists each such provision.

Some existing State requirements may be similar to the HSWA requirement implemented by the EPA. However, until the EPA authorizes those State requirements, the EPA can only enforce the HSWA requirements and not the State analogs. The EPA will not codify those State requirements until the State receives authorization for those requirements.

Statutory and Executive Order Reviews

The Office of Management and Budget has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993), and therefore, this action is not subject to review by OMB. This rule incorporated by reference Texas' authorized hazardous waste management regulations, and imposes no additional requirements beyond those imposed by State law. This final rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44

U.S.C. 3501 *et seq.*). Incorporation by reference will not impose any new burdens on small entities. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule merely incorporates by reference certain existing State hazardous waste management program requirements which the EPA already approves under 40 CFR part 271, and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely incorporates by reference existing State hazardous waste management program requirements without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also does not have Tribal implications within the meaning of Executive Order 13175 (65 FR 67249, November 6, 2000).

This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This action is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply Distribution or Use” (66 FR 28344, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

Under RCRA 3006(b), the EPA grants a State’s application for incorporation by reference as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for the EPA, when it reviews a State incorporation by reference application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272) do not apply. The final rule does not include environmental justice issues that require consideration under Executive Order 12898 (59 FR 7629,

February 16, 1994). The EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the “Attorney General’s Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings” issued under the executive order. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, the EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This action will be effective January 29, 2013.

(b) The State of Texas has primary responsibility for enforcing its hazardous waste management program. However, EPA retains the authority to exercise its inspection and enforcement authorities in accordance with sections 3007, 3008, 3013, 7003 of RCRA, 42 U.S.C. 6927, 6928, 6934, 6973, and any other applicable statutory and regulatory provisions, regardless of whether the State has taken its own actions, as well as in accordance with other statutory and regulatory provisions.

(c) State Statutes and Regulations.

(1) The Texas statutes and regulations cited in paragraph (c)(1)(i) of this section are incorporated by reference as part of the hazardous waste management program under Subtitle C of RCRA, 42 U.S.C. 6921 *et seq.* This incorporation by reference is approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. (4) *Unauthorized State Amendments and Provisions.* (i) The following authorized provisions of the Texas regulations include amendments published in the Texas Register that are not approved by EPA. Such unauthorized amendments are not part of the State’s authorized program and are, therefore, not Federally enforceable. Thus, notwithstanding the language in the Texas hazardous waste regulations incorporated by reference at paragraph (c)(1)(i) of this section, EPA will enforce the State provisions that are actually authorized by EPA. The effective dates of the State’s authorized provisions are listed in the Table below. The actual State regulatory text authorized by EPA (i.e., without the unauthorized amendments) is available as a separate document, *Addendum to the EPA-Approved Texas Regulatory and Statutory Requirements Applicable to the Hazardous Waste Management Program, May, 2012*. Copies of the document can be obtained from U.S. EPA Region 6, 1445 Ross Avenue, Suite 1200, Dallas, TX 75202.
