

since most G&T revenues flow from its distribution members, RUS requires, as a condition of a loan or loan guarantee to a G&T that long-term requirements wholesale power contract to purchase their power from the G&T at rates that cover all the G&T's expenses, including debt service and margins. RUS Form 444 is the standard form of the wholesale power contract. Most borrowers adapt this form to meet their specific needs. The contract is prepared and executed by the G&T and each member and by RUS.

Title: Seismic Safety of New Building Construction.

OMB Control Number: 0572-0099.

Type of Request: Revision of a currently approved collection.

Abstract: The Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 *et seq.*) was enacted to reduce risks to life and property through the National Earthquake Hazards Reduction Program (NEHRP). The Federal Emergency Management Agency (FEMA) is designated as the agency with the primary responsibility to plan and coordinate the NEHRP. This program includes the development and implementation of feasible design and construction methods to make structures earthquake resistant.

Executive Order 12699 of January 5, 1990, Seismic Safety of Federal and Federally Assisted or Regulated New

Building Construction, requires that measures to assure seismic safety be imposed on Federally assisted new building construction.

7 CFR part 1792, subpart C, Seismic Safety of Federally Assisted New Building Construction, identifies acceptable seismic standards which must be employed in new building construction funded by loans, grants, or guarantees made by the Rural Utilities Service, hereinafter referred to as agency, through lien accommodations or subordinations approved by the agency. This subpart implements and explains the provisions of the loan contract utilized by the agency for both electric and telecommunications borrowers concerning acceptable seismic standards. The subpart requires RUS borrowers or grant recipients provide a written acknowledgement for each applicable building from the architect or engineer responsible for the design certifying that seismic provisions pursuant to 7 CFR part 1792 subpart C, will be used in the design and construction of the building.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .75 hour per response.

Respondents: Small business or organizations.

Estimated Number of Respondents: 192.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 144.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Northeast Region Logbook Family of Forms.

OMB Control Number: 0648-0212.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 6,378.

Average Hours Per Response:

Logbooks, 5 minutes except for shellfish logbook, 12.5 minutes; interactive voice response (IVR) landings reports, 5 minutes; declaration of days out of gillnet fishery, 3 minutes; departure/landing call-ins for monkfish and limited access occasional sea scallop trips, 2 minutes.

Burden Hours: 15,057.

Needs and Uses: This request is for a revision and extension of a currently approved information collection.

Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce (Secretary) has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect data from users of the resource. Thus, as regional Fishery Management Councils develop specific Fishery Management Plans (FMP), the Secretary has promulgated rules for the issuance and use of a vessel Interactive Voice Response (IVR) system, a Vessel Monitoring System (VMS) and vessel logbooks (VTR) to obtain fishery-dependent data to monitor, evaluate, and enforce fishery regulations.

Fishing vessels permitted to participate in Federally-permitted fisheries in the Northeast are required to submit logbooks containing catch and effort information about their fishing trips. Permitted vessels that catch halibut are also asked to voluntarily provide additional information on the estimated size of the fish and the time of day caught through vessel logbooks. Participants in the herring, tilefish and red crab fisheries are also required to make weekly reports on their catch through IVR. In addition, vessels fishing under a days-at sea (DAS) management system can use the IVR system to request a DAS credit when they have canceled a trip for unforeseen circumstances. The information submitted is needed for the management of the fisheries.

This revision/extension removes the VMS requirement for Northeast multispecies permit holders

participating in the special access programs (SAPs), the Category B (regular) Days-at-Sea (DAS) program, and fishing in the United States/Canada Resource Sharing Understanding Area to avoid duplication, as this information collection is approved under another collection (OMB Control No. 0648-0605).

Affected Public: Business or other for-profit organizations.

Frequency: Monthly, weekly and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov.

Dated: January 15, 2013.

Foreign-Trade Zones Board

[B-3-2013]

Foreign-Trade Zone 45—Portland, Oregon; Application for Reorganization and Expansion Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Port of Portland, grantee of FTZ 45, requesting authority to reorganize and expand the zone under the alternative site framework (ASF) adopted by the Board (15 CFR Sec. 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the
