EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. SUPPLEMENTARY INFORMATION:

Public Comments

We will accept written comments and information during this reopened comment period on our proposed rule that was published in the **Federal Register** on June 11, 2012 (77 FR 34464), our draft economic analysis of the proposed critical habitat designation, and the amended required determinations section provided in this document.

On June 11, 2012, we published a proposal (77 FR 34464) to list 38 species as endangered, reaffirm the listing of 2 endemic Hawaiian plants currently listed as endangered, and designate critical habitat for 39 of these 40 plant and animal species on the Hawaiian Islands of Molokai, Lanai, and Maui; designate critical habitat for 11 plant and animal species that are already listed as endangered, and revise critical habitat for 85 plant species that are already listed as endangered or threatened on the Hawaiian Islands of Molokai, Lanai, Maui, and Kahoolawe. Later this year, we will publish two separate final rules: One concerning the listing determinations described above, and the other concerning the critical habitat determinations described above. The final listing rule will publish under the existing Docket No. FWS-R1-ES-2011-0098, and the final critical habitat designation will publish under Docket No. FWS-R1-ES-2013-0003.

We request that you provide comments specifically on our listing determination under Docket No. FWS-R1-ES-2011-0098. We will consider information and recommendations from all interested parties. We are particularly interested in comments concerning:

(1) Biological, commercial trade, or other relevant data concerning threats (or the lack thereof) to the 40 species proposed or reevaluated for listing, and regulations that may be addressing those threats.

(2) Additional information concerning the range, distribution, and population sizes of each of the 40 species proposed or reevaluated for listing, including the locations of any additional populations of these species.

(3) Any information on the biological or ecological requirements of the 40 species proposed or reevaluated for listing.

(4) Comments on our proposal to revise taxonomic classification with
