Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under

OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Monitoring of National Suicide Prevention Lifeline (OMB No. 0930-0274)—Revision

This proposed project renewal includes the continuation of previously approved data collection activities Monitoring of National Suicide Prevention Lifeline Form (OMB No. 0930-0274) in an effort to advance the understanding of crisis hotline utilization and its impact. Out of the previously approved 11 data collection instruments and consents, only 6 will be utilized through this revision. The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Mental Health Services (CMHS) funds a National Suicide Prevention Lifeline Network, consisting of a toll-free telephone number that routes calls from anywhere in the United States to a network of local crisis centers. In turn, the local centers link callers to local emergency, mental health, and social service resources.

The overarching purpose of the proposed Monitoring of National Suicide Prevention Lifeline—Revision is to examine the impact of motivational training and safety planning (MI/SP) with callers who have expressed suicidal desire (i.e., follow-up interviews with callers and counselors). In total this effort includes three data collection instruments and three associated data collection consents.

Clearance is being requested to continue the previously approved data collection activities to continue caller and counselor follow-up assessment activities which will examine the process and impact of motivational training and safety planning (MI/SP) with callers who have expressed suicidal ideation. The data collected through the renewal of these data collection activities will ultimately help SAMHSA to understand and direct their crisis hotline lifesaving initiatives. The data collection activities are enumerated below.

Funded crisis centers will train counselors to implement an intervention with callers during the initial call to a center, which incorporates aspects of motivational interviewing and safety planning (MI/SP) and utilizes an evidence-based practice model to provide follow-up to callers who have expressed a suicidal desire. An assessment of MI/SP fidelity and process measures will be incorporated into the design through the
