

FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes additional controlled airspace at Wilbur Airport, Wilbur, WA.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

RIN 2120–AA66

Amendment of Multiple Restricted Areas; Eglin AFB, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the name of the using agency for Restricted Areas R–2914A and B; R–2915A, B and C; R–2918; and R–2919A and B, with the Eglin Range Complex, FL, to read "U.S. Air Force, Commander 96th Test Wing, Eglin AFB, FL. This is an administrative change only and does not affect the boundaries; designated altitudes; time of designation; or activities conducted within the affected restricted areas.

DATES: *Effective date:* 0901 UTC, May 2, 2013.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace Policy and ATC Procedures Group, Office of Airspace Services, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Background

As a result of reorganization at Eglin AFB, FL, the name of the using agency for multiple restricted areas within the

Eglin Range Complex was changed from "Armament Center" to "Test Wing." This action is an administrative name change only and does not affect the current configuration or use of the restricted areas.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 73 by amending the using agency name for Restricted Areas R–2914A and B; R–2915A, B and C; R–2918; and R–2919A and B, Eglin AFB, FL, from "U.S. Air Force, Commander, Air Armament Center, Eglin AFB, FL," to "U.S. Air Force, Commander 96th Test Wing, Eglin AFB, FL." This is an administrative change to update the title of the using agency. It does not affect the boundaries, designated altitudes, or activities conducted within the restricted area; therefore, notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

The FAA has determined that this action only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it makes an administrative change to the descriptions of Restricted Areas R–2914A and B; R–2915A, B and C; R–2918; and R–2919A and B, Eglin AFB, FL.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, Environmental Impacts: Policies and Procedures, paragraph 311d. This airspace action is an administrative change to the descriptions of the affected restricted area to update the using agency name. It does not alter the dimensions, altitudes, or times of designation of the airspace; therefore, it is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exists that warrant preparation of an environmental assessment.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration****21 CFR Part 14**

[Docket No. FDA–2013–N–0011]

Public Hearing Before a Public Advisory Committee; Technical Amendments

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendments.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations regarding advisory committees to address minor technical changes and corrections to statutory citations. This action is editorial in nature and is intended to provide

accuracy and clarity to the Agency’s regulations.

DATES: This rule is effective March 20, 2013.

FOR FURTHER INFORMATION CONTACT:

Rosanne A. Hurwitz, Office of Special Medical Programs, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 32, Rm. 5164, Silver Spring, MD, 20993–0002, 301–796–8866, Rosanne.Hurwitz@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: FDA is amending 21 CFR part 14 to correct minor errors and inadvertent omissions in the Code of Federal Regulations (CFR), and to delete obsolete cross-references. Minor spelling errors were inadvertently published in the CFR when the regulations were first issued. In addition, amendments to the Federal Food, Drug, and Cosmetic Act and recodification of certain sections of the Public Health Service Act resulted in changes to several of the referenced statutes.

FDA is publishing the document as a final rule under the Administrative Procedures Act (5 U.S.C. 551, *et seq.*). FDA has determined that good cause exists to dispense with prior notice and public comment under 5 U.S.C. 553(b)(B) and 21 CFR 10.40(e) since such notice and comment are unnecessary because this amendment to the regulations provides only technical changes to correct minor errors and inadvertent omissions in the CFR, to update obsolete terms and citations, and to delete obsolete information. These changes are nonsubstantive and only editorial in nature. In addition, FDA finds good cause to provide for this regulation to be effective immediately upon publication under 5 U.S.C. 553(d).
