DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2012-1270; Airspace
Docket No. 12-AEA-16]

**Amendment of Class D and Class E
Airspace; Reading, PA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class D and Class E Airspace at Reading, PA, as the SHAPP OM navigation aid has been decommissioned, requiring the

modification of Standard Instrument Approach Procedures (SIAPs) at Reading Regional/Carl A. Spaatz Field. This action enhances the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Effective 0901 UTC, June 27, 2013. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:**History**

On January 28, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class D and Class E airspace at Reading, PA (78 FR 5754) Docket No. FAA-2012-1270. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class D and Class E airspace designations are published in paragraphs 5000, 6002, 6004, and 6005 respectively of FAA Order 7400.9W dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class D airspace extending upward from the surface to 2,800 feet MSL within a 4.8-mile radius of Reading Regional/Carl A. Spaatz Field, Reading, PA, and Class E surface airspace, Class E airspace designated as an extension of Class D, and Class E airspace extending upward from 700 feet above the surface at Reading, Regional/Carl A. Spaatz Field, to accommodate the new Standard Instrument Approach Procedures developed for the airport. Decommissioning of the SHAPP OM navigation aid has made this action necessary for continued safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are

necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Reading Regional/Carl A. Spaatz Field, Reading, PA.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Confirmation, Portfolio Reconciliation, Portfolio Compression, and Swap Trading Relationship Documentation Requirements for Swap Dealers and Major Swap Participants; Correction

AGENCY: Commodity Futures Trading Commission.

ACTION: Correcting amendments.

SUMMARY: The Commodity Futures Trading Commission (CFTC) is correcting a final rule published in the **Federal Register** of September 11, 2012 (77 FR 55904). That rule, 17 CFR 23.505, took effect on November 13, 2012. Subsequently, the CFTC published final rules in the **Federal Register** of December 13, 2012 (77 FR 74284), that re-codified the Commission regulation at 17 CFR 39.6 as a new Commission regulation at 17 CFR 50.50. This correction amends cross-references in 17 CFR 23.505 to conform them with the final rules published on December 13, 2012.

DATES: Effective on April 9, 2013.

FOR FURTHER INFORMATION CONTACT: Frank Fisanich, Chief Counsel, 202–418–5949, ffisanich@cftc.gov, or Jason A. Shafer, Attorney-Advisor, 202–418–5097, jshafer@cftc.gov, Division of Swap Dealer and Intermediary Oversight, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of September 11, 2012 (77 FR 55904), the CFTC published final rules setting forth requirements for swap confirmation, portfolio reconciliation, portfolio compression, and swap trading relationship documentation for Swap Dealers and Major Swap Participants. Those rules, in 17 CFR part 23, include cross-references to the Commission regulation at 17 CFR 39.6. After the effective date of the Part 23 rules (November 13, 2012), the CFTC published final rules in the **Federal Register** of December 13, 2012 (77 FR 74284) that re-codified the Commission regulation at 17 CFR 39.6 as a new Commission regulation at 17 CFR 50.50. Those rules took effect on February 11, 2013. Thus, the Commission is making correcting amendments to the affected section of 17 CFR part 23 to replace the cross-references to 17 CFR 39.6 with cross-references to 17 CFR 50.50.
