The proposed information collection is published to obtain comments from the public and affected agencies. The proposed information was previously published in the **Federal**

Overview of This Information

(1) *Type of Information Collection:* Renewal of a currently approved collection (1121-0329 and 1121-0188).

(2) *The Title of the Form/Collection:* OJP Solicitation Template.

(3) *The Agency Form Number, if any, and the Applicable Component of the Department Sponsoring the Collection:* No form number available. Office of Justice Programs, Department of Justice.

(4) *Affected Public Who Will be Asked or Required to Respond, as well as a Brief Abstract:* The primary respondents are state agencies, tribal governments, local governments, colleges and universities, non-profit organizations, for-profit organizations, and faith-based organizations. The purpose of the

solicitation template is to provide a framework to develop program-specific announcements soliciting applications for funding. A program solicitation outlines the specifics of the funding program; describes requirements for eligibility; instructs an applicant on the necessary components of an application under a specific program (e.g., project activities, project abstract, project timeline, proposed budget, etc.); outlines program evaluation and performance measures; explains selection criteria and the review process; and provides registration dates, deadlines, and instructions on how to apply within the designated application system. This collection is also incorporating the previously approved collection for the OJP Budget Detail Worksheet (1121-0188). The Budget Detail Worksheet is only required during the application process, and therefore should be included in this collection with the solicitation template, reducing the number of OMB PRA reviews and approvals needed. The primary respondents are the same, as listed above, and the worksheet provides auto calculated fields and instructions for the necessary budget information required for each application submission (e.g. personnel/benefits, travel, indirect cost rates, etc.). The form is not mandatory and is recommended as guidance to assist the applicant in preparing their budget as authorized in 28 CFR part 66 and 28 CFR part 70.

(5) *An Estimate of the Total Number of Respondents and the Amount of Time Estimated for an Average Respondent to Respond:* It is estimated that information will be collected annually from approximately 10,000 applicants. Annual cost to the respondents is based on the number of hours involved in preparing and submitting a complete application package. Mandatory requirements for an application include a program narrative and budget details and narrative (formerly 1121-0188). Optional requirements can be imposed depending on the type of program to include, but not limited to: project abstract, indirect cost rate agreement, tribal authorizing resolution, timelines, logic models, memoranda of understanding, letters of support, resumes, disclosure of pending applications, and research and evaluation independence and integrity. Public reporting burden for this collection of information is estimated at up to 32 hours per application. The 32-hour estimate is based on the amount of time to prepare a research and evaluation proposal, one of the most
