

application within the Federal Parent Locator Service's Portal. FAST Levy is a centralized, secure and automated method of collecting and disseminating electronic levy notices between child support enforcement agencies and multistate financial institutions to secure the assets in an obligor's account.

The anticipated impact of employing FAST Levy is the significant reduction in existing delays to execute a levy notice, thereby diminishing opportunity for an obligor to close accounts; increase collections of past-due payments to state

agencies and families; cut the states' and multistate financial institutions administrative and implementation costs of manually executing levy notices; and strengthen document security.

The proposed information collection using the FAST Levy application is authorized by: (1) 42 U.S.C. 652(a)(7), which requires OCSE to provide technical assistance to state child support agencies to help them establish effective systems for collecting child and spousal support; (2) 42 U.S.C. 666

(a)(2) and (c)(1)(G)(ii), which requires state child support agencies to secure assets of an obligor to satisfy past due support orders; and (3) 45 CFR 303.7(a)(5), which requires state child support agencies to transmit requests for information and provide requested information electronically to the greatest extent possible.

*Respondents:* Multistate Financial Institutions and State Child Support Enforcement Agencies
