Background and Purpose

Volume III of the Marine Safety Manual (MSM) provides information and interpretations on international conventions and U.S. statutory and regulatory issues relating to marine industry personnel. The last revisions to Volume III of the MSM were released on May 27, 1999. This notice updates portions of chapters 20 through 26.

Specifically, substantive changes include: (1) Updated provisions for vessel manning, including guidance for the issuing of safe manning documents; (2) clarifying roles, responsibilities, and facilitation of communications with the appropriate offices at Coast Guard Headquarters in alignment with *Deputy Commandant for Operations Organization 3.0*; and (3) revised discussion on the impact of multiple international standards, including the Officer’s Competency Certificates Convention (OCCC) 1936, the International Convention for Safety of Life at Sea (SOLAS), the Global Maritime Distress and Safety System (GMDSS), and the Principles of Minimum Safe Manning (IMO Resolution A.1047(27)). Additionally, this draft clarifies the applicability of tonnage measurement systems to U.S. flag vessels, and it also includes changes resulting from the consolidation of merchant mariner qualification credentials, including the removal of

references to the operated uninspected towing vessel endorsement.

Future changes to the MSM may be released if the Coast Guard promulgates new regulations that may affect the guidance and information contained within the MSM.

This notice is issued under authority of 5 U.S.C. 552(a) and Department of Homeland Security Delegation No. 0170.1(1).

Collection of Information

Title: FEMA Preparedness Grants: Homeland Security Grant Program (HSGP).

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660-0125.

FEMA Forms: FEMA Form 089-1, HSGP Investment Justification; FEMA Form 089-16, OPSG Operations Order Report; FEMA Form 089-20, OPSG Inventory of Operation Orders.

Abstract: The HSGP is an important tool among a comprehensive set of measures to help strengthen the Nation against risks associated with potential terrorist attacks. DHS/FEMA uses the information to evaluate applicants' familiarity with the national preparedness architecture and identify how elements of this architecture have been incorporated into regional/state/local planning, operations, and investments. The Homeland Security Grant Program (HSGP) is a primary funding mechanism for building and sustaining national preparedness capabilities. HSGP is comprised of three separate grant programs: The State Homeland Security Program (SHSP), the Urban Areas Security Initiative (UASI), and the Operation Stonegarden (OPSG). Together, these grants fund a range of preparedness activities, including planning, organization, equipment purchase, training, exercises, and management and administration costs.
