

Basel III Schedule

The OCC proposes adding a line item to the Capital Composition worksheet to capture deductions related to insurance underwriting subsidiaries, which will enable more precise calculations of regulatory capital. The OCC also proposes revising the General and Advanced Approaches RWA worksheets to align with certain changes made to the Summary Schedule. Specifically, the OCC proposes adding to the General RWA worksheet a "RWA per Standardized Approach" section, which would collect credit RWA using methodologies under the revised standardized approach.

Counterparty Schedule

The OCC proposes eliminating the aggregate worksheets EE Profile by Ratings and Credit Quality by Rating from the Counterparty Schedule and expanding the collection of the counterparty specific worksheets CP CVA by Top 200 CVA, EE Profile by CP, and Credit Quality by CP to capture the top counterparties that account for 95% of credit valuation adjustment (CVA). This expansion in scope is driven by the need to close the sometimes significant gap between the CVA of the top 200 counterparties and the covered institution's total CVA and to capture exposures to counterparties that are significantly large in other dimensions, but which are currently excluded from the top 200 by CVA. Additionally, the OCC proposes adding an additional worksheet that collects the top 20 counterparties by Securities Financing Transactions and Repo exposure to account for counterparty exposures other than derivatives. Finally, the OCC proposes adding columns on the worksheets of the template as appropriate to collect stressed counterparty data based on the Adverse and Severely Adverse scenarios as part of the stress testing process. In addition, the OCC proposes amending the scope of the respondents to the DFAST-14A CCR schedule and Trading and CCR worksheets of the DFAST-14A Summary schedule to include any company that the OCC may require to complete these schedules under 12 CFR 46.4.

Type of Review: Revision.

Affected Public: Businesses or other for-profit.

Estimated Number of Respondents: 20.

Estimated Total Annual Burden: 9,600 hours.

The OCC recognizes that the Board has estimated 67,021 hours for bank holding companies to prepare the

Summary, Counterparty credit risk, Basel III and Capital reporting schedules submitted for the FR Y-14. The OCC believes that the systems covered institutions use to prepare the FR Y-14 reporting templates will also be used to prepare the reporting templates described in this notice. Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;
