This RFI seeks public input on a draft IIP Process intended to improve interagency and intergovernmental coordination focused on ensuring that proponents of transmission projects develop and submit accurate and

complete information early in the project planning process to facilitate efficient and timely environmental reviews and agency decisions.

Comments on the draft IIP Process were originally due on September 30, 2013, but several interested parties requested an extension of the 30-day comment period given the complexity of the issues, the importance of the draft IIP Process for future electric transmission projects, and the need to engage all stakeholders. As a result, OE is extending the comment period until October 31, 2013.
