SUPPLEMENTARY INFORMATION:

Background: On September 18, 2013, in a notice of proposed rulemaking in the **Federal Register** (78 FR 57324), the Secretary proposed to amend the regulations under Part B of the Individuals with Disabilities Education Act (IDEA) regarding local maintenance of effort. The Secretary proposed to clarify existing policy and make other related changes regarding (1) the compliance standard; (2) the eligibility standard; (3) the level of effort required of a local educational agency (LEA) in the year after it fails to maintain effort under the IDEA; and (4) the consequence for a failure to maintain local effort. The Secretary also sought comment on whether States and LEAs or other interested parties think these proposed amendments will be helpful in increasing understanding of, and ensuring compliance with, the current local maintenance of effort requirements. Specifically, the Secretary sought comment from States and LEAs to identify where they are experiencing the most problems in implementing the maintenance of effort requirements.

The notice of proposed rulemaking established a December 2, 2013, deadline for the submission of written comments. However, www.regulations.gov, the Government-wide portal that allows the public to comment electronically on notices in the **Federal Register**, was unavailable most of November 4–6, 2013, and November 10–12, 2013. To ensure that anyone unable to comment during that period has the opportunity to do so, we are extending the closing date of the comment period to December 10, 2013.

Approval and Promulgation of Air Quality Implementation Plans; State of Colorado Second Ten-Year PM₁₀ Maintenance Plan for Telluride

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve State Implementation Plan (SIP) revisions submitted by the State of Colorado. On March 31, 2010, the Governor of Colorado's designee submitted to EPA a revised maintenance plan for the Telluride area for the 24-hour National Ambient Air Quality Standards (NAAQS) for particulate matter with an aerodynamic diameter less than or equal to 10 microns (PM₁₀), which was adopted on November 19, 2009. As required by Clean Air Act (CAA) section 175A(b), this revised maintenance plan addresses maintenance of the PM₁₀ standard for a second 10-year period beyond the area's original redesignation to attainment for the PM₁₀ NAAQS. In addition, EPA is proposing to approve the revised maintenance plan's 2021 transportation conformity motor vehicle emissions budget for PM₁₀. Also, we are proposing to exclude from use in determining that Telluride continues to attain the PM₁₀ NAAQS exceedances of the PM₁₀ NAAQS that were recorded at the Telluride PM₁₀ monitor on April 5, 2010 and April 16, 2013, because they meet the criteria for exceptional events caused by high wind natural events.

This action is being taken under sections 110 and 175A of the CAA.
