CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of GSA, Presidential Boards and Commissions, and small agencies serviced by GSA, including persons in intern, youth employment, and work-study programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains personnel and training records. The records include information collected by operating officials and personnel officials administering programs for or about employees. The system has data needed to update the Central Personnel Data File (CPDF), the Enterprise Human Resources Integration (EHRI), and the Electronic Official Personnel Folder (eOPF) at the U.S. Office of Personnel Management (OPM), as well as process and document personnel actions. It may include, but is not limited to, the data maintained in each employee's Official Personnel Folder, including:

- a. Employee's name, Social Security Number, date of birth, gender, work schedule, type of appointment, education, veteran's preference, military service, and race or national origin.
- b. Employee's service computation date for leave, date probationary period began, and date of performance rating.
- c. Pay data such as pay plan, occupational series, grade, step, salary, and organizational location.

- d. Performance rating and types and amounts of awards.
- e. Position description number, special employment program, and target occupational series and grade.
- f. Training records that show what classes employees have taken.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., pt. III, is the authority for maintaining personnel information. Authorities for recording Social Security Numbers are E.O. 9397, as amended; 26 CFR 31.6011(b)-2; and 26 CFR 31.6109-1.

PURPOSE:

To maintain a computer-based information system supporting the day-to-day operating needs of human resource operations and management. The system is designed to meet information and statistical needs of all types of Government organizations and provides a number of outputs. For GSA's Office of the Chief People Officer, the system tracks, produces and stores personnel actions, and supplies HR data used to generate reports (organizational rosters, retention registers, retirement calculations, Federal civilian employment, length-of-service lists, award lists, etc.). It also provides reports for monitoring personnel actions to determine the impact of GSA policies and practices on minorities, women, and disabled persons, analyzing their status in the work force, and for establishing affirmative action goals and timetables. Other reports can be created using the web based Business Objects tool. Access to the tool allows users to create their own reports within their access and eliminates the need for CHRIS to create and distribute these reports. The system also provides management data for administrative and staff offices.

ROUTINE USES OF THE SYSTEM RECORDS, INCLUDING CATEGORIES OF USERS AND THEIR PURPOSE FOR USING THE SYSTEM:

The information in the system is used by GSA employees and designated client agency representatives in the performance of their official duties as authorized by law and regulation and for the following routine uses:

- a. To disclose information to OPM for the Central Personnel Data File (CPDF) and the Enterprise Human Resources Integration (EHRI).
- b. To authorized GSA users of the Business Objects tool and the Personnel Information Database (PID) to disclose information to sources outside GSA, including other agencies and persons, for employees seeking employment elsewhere; and for documenting adverse

actions, conducting counseling sessions, and preparing biographical sketches on employees for release to other agencies and persons.

c. To disclose information in the personnel file to GSA's Office of the Chief People Officer.

d. To disclose information to agency staff and administrative offices who may restructure the data for management purposes.

e. In any legal proceeding, where pertinent, to which GSA is a party before a court or administrative body.

f. To authorized officials engaged in investigating or settling a grievance, complaint, or appeal filed by an individual who is the subject of the record.

g. To a Federal agency in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation, the letting of a contract, or the issuance of a grant, license, or other benefit to the extent that the information is relevant and necessary to a decision.

h. To OPM, the Office of Management and Budget (OMB), or the U.S. Government Accountability Office (GAO) when the information is required for program evaluation purposes.

i. To a Member of Congress or staff on behalf of and at the request of the individual who is the subject of the record.

j. To an expert, consultant, or contractor of GSA in the performance of a Federal duty to which the information is relevant; to a board, committee, commission, or small agency receiving administrative services from GSA to which the information relates; or an expert, consultant, or contractor of a board, committee, commission, or small agency receiving administrative services from GSA to which the information relates in the performance of a Federal duty to which the information is relevant.

k. To the National Archives and Records Administration (NARA) for records management purposes.

l. To appropriate agencies, entities, and persons when (1) the agency suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (2) the agency has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by GSA or another agency or entity) that rely upon the compromised information; and (3) the disclosure

made to such agencies, entities, and persons is reasonably necessary to assist in connection with GSA's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING RECORDS IN THE SYSTEM:

STORAGE:

Computer records are stored on a secure server and accessed over the web using encryption software. Paper records, when created, are kept in file folders and cabinets in secure rooms.

RETRIEVABILITY:

Records are retrieved by name, Social Security Number, or Applicant or Employee ID. In the Business Objects tool, records can be retrieved and sorted by any category as long as the category is in the user's access rights.

SAFEGUARDS:

Computer records are protected by a password system. Paper output is stored in locked metal containers or in secured rooms when not in use. Information is released to authorized officials based on their need to know. All users who have access to CHRIS are required to complete the following training courses before gaining access to the system: IT Security Awareness Training, Privacy Training 101.
