

rules for computing an organization's MLR under section 833(c)(5). Paragraph (d) of this section addresses the treatment under section 833 of an organization that has an MLR of less than 85 percent. Paragraph (e) of this section provides the effective/applicability date.

(b) *Definitions.* The following definitions apply for purposes of section 833(c)(5) and this section.

(1) *Reimbursement for clinical services provided to enrollees.* The term *reimbursement for clinical services provided to enrollees* has the same meaning as that term has in section 300gg-18 of title 42, United States Code and the regulations issued under that section (see 45 CFR 158.140).

(2) *Total premium revenue.* The term *total premium revenue* means the total amount of premium revenue (excluding Federal and State taxes and licensing or regulatory fees and after accounting for payments or receipts for risk adjustment, risk corridors, and reinsurance under sections 1341, 1342, and 1343 of the Patient Protection and Affordable Care Act, Public Law 111-148 (124 Stat. 119 (2010)) (42 U.S.C. sections 18061, 18062, and 18063)) as those terms are used for purposes of section 300gg-18(b) of title 42, United States Code and the regulations issued under that section (see 45 CFR Part 158).

(c) *Computation of MLR under section 833(c)(5)*—(1) *In general.* Starting with the first taxable year beginning after December 31, 2015, and for all succeeding taxable years, an organization's MLR with respect to a taxable year is the ratio, expressed as a percentage, of the MLR numerator, as described in paragraph (c)(1)(i) of this section, to the MLR denominator, as described in paragraph (c)(1)(ii) of this section.

(i) *MLR numerator.* The numerator of an organization's MLR is the total premium revenue expended on reimbursement for clinical services provided to enrollees under its policies for the taxable year, computed using a three-year period in the same manner as those expenses are computed for the plan year for purposes of section 300gg-18(b) of title 42, United States Code and regulations issued under that section (see 45 CFR Part 158).

(ii) *MLR denominator.* The denominator of an organization's MLR is the organization's total premium revenue for the taxable year, computed using a three-year period in the same manner as the total premium revenue is computed for the plan year for purposes of section 300gg-18(b) of title 42, United States Code and regulations issued under that section (see 45 CFR Part 158).

(2) *Transition rules.* The transition rules in paragraphs (c)(2)(i) and (c)(2)(ii) of this section apply solely for the first taxable year beginning after December 31, 2013, and the first taxable year beginning after December 31, 2014.

(i) *First taxable year beginning after December 31, 2013.* For the first taxable year beginning after December 31, 2013, the numerator of an organization's MLR is the total premium revenue expended on reimbursement for clinical services provided to enrollees under its policies for the first taxable year beginning after December 31, 2013, and the denominator of an organization's MLR is the organization's total premium revenue for the first taxable year beginning after December 31, 2013.

(ii) *First taxable year beginning after December 31, 2014.* For the first taxable year beginning after December 31, 2014, the numerator of an organization's MLR is the sum of the total premium revenue expended on reimbursement for clinical services provided to enrollees under its policies for the first taxable year beginning after December 31, 2013, and for the first taxable year beginning after December 31, 2014, and the denominator of an organization's MLR is the sum of the organization's total premium revenue for the first taxable year beginning after December 31, 2013, and for the first taxable year beginning after December 31, 2014.

(d) *Failure to qualify under section 833(c)(5)*—(1) *In general.* If, for any taxable year, an organization's MLR is less than 85 percent, then beginning in that taxable year and for each subsequent taxable year for which the organization's MLR remains less than 85 percent, paragraphs (d)(1)(i) through (d)(1)(iii) of this section apply.

(i) *Automatic stock insurance company status.* The organization is not taxable as a stock insurance company by reason of section 833(a)(1), but may be taxable as an insurance company if it otherwise meets the requirements of section 831(c);

(ii) *Special deduction.* The organization is not allowed the special deduction set forth in section 833(b); and

(iii) *Premiums earned.* The organization must take into account 80 percent, rather than 100 percent, of its unearned premiums under section 832(b)(4) as it applies to other non-life insurance companies, provided the organization qualifies as an insurance company by meeting the requirements of section 831(c).

(2) *No material change.* An organization's loss of eligibility for treatment under section 833 solely by reason of section 833(c)(5) will not be

treated as a material change in the operations of such organization or in its structure for purposes of section 833(c)(2)(C).

(e) *Effective/applicability date.* This section applies to taxable years beginning after December 31, 2013.

John Dalrymple,

Deputy Commissioner for Services and Enforcement.

Approved: January 2, 2014.

Mark J. Mazur,

Assistant Secretary of the Treasury (Tax Policy).

BILLING CODE 4830-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 121018563-3148-02]

RIN 0648-XD060

Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2014 Bering Sea and Aleutian Islands Pollock, Atka Mackerel, and Pacific Cod Total Allowable Catch Amounts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment; request for comments.

SUMMARY: NMFS is adjusting the 2014 total allowable catch (TAC) amounts for the Bering Sea and Aleutian Islands (BSAI) pollock, Atka mackerel, and Pacific cod fisheries. This action is necessary because NMFS has determined these TACs are incorrectly specified, and will ensure the BSAI pollock, Atka mackerel, and Pacific cod TACs are the appropriate amounts based on the best available scientific information. This action is consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 2, 2014, until the effective date of the final 2014 and 2015 harvest specifications for BSAI groundfish, unless otherwise modified or superseded through publication of a notification in the **Federal Register**.

Comments must be received at the following address no later than 4:30 p.m., A.l.t., January 17, 2014.

ADDRESSES: You may submit comments on this document, identified by FDMS Docket Number NOAA–NMFS–2012–0210 by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/[#!docketDetail;D=\[NOAA-NMFS-2012-0210\]](#), click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

- **Fax:** Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Fax comments to 907–586–7557.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management

Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013) set the 2014 BSAI pollock TAC at 1,266,100 metric tons (mt), the 2014 BSAI Atka mackerel TAC at 25,379 mt, and the 2014 BSAI Pacific cod TAC at 260,880 mt. In December 2013, the North Pacific Fishery Management Council (Council) recommended a 2014 BSAI pollock TAC of 1,286,075 mt, which is more than the 1,266,100 mt TAC established by the final 2013 and 2014 harvest specifications for groundfish in the BSAI. The Council also recommended a 2014 BSAI Atka mackerel TAC of 32,322 mt, which is more than the 25,379 mt TAC established by the final 2013 and 2014 harvest specifications for groundfish in the BSAI. Furthermore, the Council recommended a 2014 BSAI Pacific cod TAC of 253,894 mt, which is less than the 260,880 mt TAC established by the final 2013 and 2014 harvest specifications for groundfish in the BSAI. In 2014 the Council recommended that the TAC for Pacific cod be split by a Bering Sea TAC of 246,897 and an Aleutian Island TAC of 6,997 mt. The Council’s recommended 2014 TACs, and the area and seasonal apportionments, are based on the Stock Assessment and Fishery Evaluation report (SAFE), dated November 2013, which NMFS has determined is the best available scientific information for these fisheries.

Steller sea lions occur in the same location as the pollock, Atka mackerel, and Pacific cod fisheries and are listed

as endangered under the Endangered Species Act (ESA). Pollock, Atka mackerel, and Pacific cod are a principal prey species for Steller sea lions in the BSAI. The seasonal apportionment of pollock, Atka mackerel, and Pacific cod harvest is necessary to ensure the groundfish fisheries are not likely to cause jeopardy of extinction or adverse modification of critical habitat for Steller sea lions. The regulations at § 679.20(a)(5) specify how the BS pollock TAC will be apportioned. The regulations at § 679.20(a)(7) specify how the BSAI Pacific cod TAC will be apportioned. The regulations at § 679.20(a)(8) specify how the BSAI Atka mackerel TAC will be apportioned.

In accordance with § 679.25(a)(1)(iii), (a)(2)(i)(B), and (a)(2)(iv), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that, based on the November 2013 SAFE report for this fishery, the current BSAI pollock, Atka mackerel, and Pacific cod TACs are incorrectly specified. Pursuant to § 679.25(a)(1)(iii), the Regional Administrator is adjusting the 2014 BSAI pollock TAC to 1,286,075 mt, the 2014 BSAI Atka mackerel TAC to 32,322 and the 2014 BSAI Pacific cod TAC to 253,894 mt. Therefore, Table 1 of the final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013) is revised consistent with this adjustment.

Pursuant to § 679.20(a)(5)(i), Table 3 of the final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013) and reallocations (78 FR 14932, March 8, 2013 and 78 FR 49200, August 13, 2013) is revised for the 2014 BSAI allocations of pollock TAC to the directed pollock fisheries and to the Community Development Quota (CDQ) directed fishing allowances consistent with this adjustment.

Bogoslof District ICA ⁷	100	n/a	n/a	n/a	75	n/a	n/a	n/a	

¹ Pursuant to § 679.20(a)(5)(i)(A), the BS subarea pollock, after subtracting the CDQ DFA (10 percent) and the ICA (3 percent), is allocated as a DFA as follows: Inshore sector—50 percent, catcher/processor sector (C/P)—40 percent, and mothership sector—10 percent. In the BS subarea, 40 percent of the DFA is allocated to the A season (January 20–June 10) and 60 percent of the DFA is allocated to the B season (June 10–November 1). Pursuant to § 679.20(a)(5)(iii)(B)(2)(i) and (ii), the annual AI pollock TAC, after subtracting first for the CDQ directed fishing allowance (10 percent) and second the ICA (2,000 mt), is allocated to the Aleut Corporation for a directed pollock fishery. In the AI subarea, the A season is allocated 40 percent of the ABC and the B season is allocated the remainder of the directed pollock fishery.

² In the BS subarea, no more than 28 percent of each sector's annual DFA may be taken from the SCA before April 1. The remaining 12 percent of the annual DFA allocated to the A season may be taken outside of SCA before April 1 or inside the SCA after April 1. If less than 28 percent of the annual DFA is taken inside the SCA before April 1, the remainder will be available to be taken inside the SCA after April 1.

³ Pursuant to § 679.20(a)(5)(i)(A)(4), not less than 8.5 percent of the DFA allocated to listed catcher/processors shall be available for harvest only by eligible catcher vessels delivering to listed catcher/processors.

⁴ Pursuant to § 679.20(a)(5)(i)(A)(4)(iii), the AFA unlisted catcher/processors are limited to harvesting not more than 0.5 percent of the catcher/processors sector's allocation of pollock.

⁵ Pursuant to § 679.20(a)(5)(i)(A)(6), NMFS establishes an excessive harvesting share limit equal to 17.5 percent of the sum of the non-CDQ pollock DFAs.

⁶ Pursuant to § 679.20(a)(5)(i)(A)(7), NMFS establishes an excessive processing share limit equal to 30.0 percent of the sum of the non-CDQ pollock DFAs.

⁷ The Bogoslof District is closed by the final harvest specifications to directed fishing for pollock. The amounts specified are for ICA only and are not apportioned by season or sector.

Note: Seasonal or sector apportionments may not total precisely due to rounding.

Pursuant to § 679.20(a)(8), Table 4 of the final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013) is revised for the 2014 seasonal and spatial allowances, gear shares, CDQ reserve, incidental catch allowance, and Amendment 80 allocation of the BSAI Atka mackerel TAC.

¹ Section 679.20(a)(8)(ii) allocates the Atka mackerel TACs, after subtracting the CDQ reserves, jig gear allocation, and ICAs to the Amendment 80 and BSAI trawl limited access sectors. The allocation of the ITAC for Atka mackerel to the Amendment 80 and BSAI trawl limited access sectors is established in Table 33 to part 679 and § 679.91. The CDQ reserve is 10.7 percent of the TAC for use by CDQ participants (see §§ 679.20(b)(1)(ii)(C) and 679.31).

² Regulations at §§ 679.20(a)(8)(ii)(A) and 679.22(a) establish temporal and spatial limitations for the Atka mackerel fishery.

³ The seasonal allowances of Atka mackerel are 50 percent in the A season and 50 percent in the B season.

⁴ Section 679.23(e)(3) authorizes directed fishing for Atka mackerel with trawl gear during the A season from January 20 to June 10 and the B season from June 10 to November 1.

⁵ Section 679.20(a)(8)(ii)(C) requires the TAC in area 542 shall be no more than 47% of ABC, and Atka mackerel harvests for Amendment 80 cooperatives and CDQ groups within waters 10 nm to 20 nm of Gramp Rock and Tag Island, as described Table 12 to part 679, in Area 542 are limited to no more than 10 percent of the Amendment 80 cooperative Atka mackerel allocation or 10 percent of the CDQ Atka mackerel allocation.

⁶ Section 679.20(a)(8)(i) requires that up to 2 percent of the Eastern Aleutian District and the Bering Sea subarea TAC be allocated to jig gear after subtracting the CDQ reserve and ICA. The amount of this allocation is 0.5 percent. The jig gear allocation is not apportioned by season.

⁷ The 2014 allocations for Atka mackerel between Amendment 80 cooperatives and the Amendment 80 limited access sector will not be known until eligible participants apply for participation in the program by November 1, 2013. NMFS will post 2014 Amendment 80 allocations when they become available in December 2013.

Note: Seasonal or sector apportionments may not total precisely due to rounding.

Pursuant to § 679.20(a)(7), Table 5 of the final 2013 and 2014 harvest specifications for groundfish in the

BSAI (78 FR 13813, March 1, 2013) is revised as Table 5a for the 2014 gear shares and seasonal allowances of the

BSAI Pacific cod TAC consistent with this adjustment.

				Aug 31–Dec 31	635

¹ The gear shares and seasonal allowances for BSAI Pacific cod TAC are based on the sum of the BS and AI Pacific cod TACs. If the TAC for Pacific cod in either the AI or BS is reached, then directed fishing for Pacific cod in that subarea may be prohibited, even if a BSAI allowance remains.

² The ICA for the hook-and-line and pot sectors will be deducted from the aggregate portion of Pacific cod TAC allocated to the hook-and-line and pot sectors. The Regional Administrator approves an ICA of 500 mt for 2014 based on anticipated incidental catch in these fisheries.

Note: Seasonal or sector apportionments may not total precisely due to rounding.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is

impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would allow for harvests that exceed the appropriate allocations for pollock, Atka mackerel, and Pacific cod in the BSAI based on the best scientific information available. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December 23, 2013, and additional

time for prior public comment would result in conservation concerns for the ESA-listed Steller sea lions.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Under § 679.25(c)(2), interested persons are invited to submit written

comments on this action to the above address until January 17, 2014.

This action is required by § 679.20 and § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 2, 2014.

Sean F. Corson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
