DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R2-ES-2013-0130];
[FXES1112020000F2-145-FF02ENEH00]

Notice of Availability: Low-Effect Screening Form and Proposed Bosque Canyon Ranch Low-Effect Habitat Conservation Plan, Bosque County, Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the low-effect screening form supporting a categorical exclusion, draft low-effect habitat conservation plan, incidental

take permit application, and request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the low-effect screening form (LESF) under the National Environmental Policy Act (NEPA) of 1969, that supports a categorical exclusion for the draft Low-Effect Habitat Conservation Plan (dHCP), and the incidental take permit application for the Bosque Canyon Ranch in Bosque County, TX. The Bosque Canyon Ranch (Applicant), has applied for an incidental take permit (ITP) under Section 10(a)(1)(B) of the Endangered Species Act (Act) of 1973, as amended. The requested permit, which would be in effect for a period of 50 years, if granted, would authorize incidental take of the golden-cheeked warbler (*Setophaga chrysoparia*) resulting from residential development and operation of the property.

DATES: Comments: We will accept comments received or postmarked on or before February 7, 2014. Comments submitted electronically using the Federal e-Rulemaking Portal (see **ADDRESSES** section, below) must be received by 11:59 p.m. Eastern Time on the closing date. Any comments that we receive after the closing date may not be considered in the final decisions on these actions.

We request that you send comments by only the methods described above. We will post all information received on <http://www.regulations.gov>. This generally means that we will post any personal information you provide us (see the Public Comments section below for more information).

FOR FURTHER INFORMATION CONTACT:

Debra Bills, Field Supervisor, U.S. Fish and Wildlife Service, 2005 NE. Green Oaks Blvd., Suite 140, TX 76006; or by telephone at 817-277-1100.

SUPPLEMENTARY INFORMATION: In

accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*), we advise the public that:

1. We have gathered the information necessary to determine impacts related to potential issuance of an incidental take permit (ITP) and have determined the proposed action qualifies as a low-effect HCP and is categorically excluded from the NEPA process; and,

2. The applicant has developed and proposes to implement its dHCP, as part of the application for an ITP, which describes the measures the applicant has agreed to take to minimize and mitigate the effects of incidental take of golden-cheeked warblers to the maximum extent practicable pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 *et seq.*).

The requested permit, which would be in effect for a period of 50 years, if granted, would authorize incidental take of the golden-cheeked warbler (*Setophaga chrysoparia*) (Covered Species) as a result of residential development and operation of the property. The proposed incidental take may occur on the Bosque Canyon Ranch, Bosque County, TX (Permit

Area), as a result of activities associated with the Applicant's operation and maintenance activities (Covered Activities). Such actions may require disturbance within potential golden-cheeked warbler habitat. The ranch has proposed to mitigate the 28.21 acres of direct impacts and 293.63 acres of indirect impacts to the golden-cheeked warbler onsite. A total of approximately 924.35 acres of suitable GCWA breeding habitat are present within two permanent conservation easements on the property with 770 of those acres neither directly nor indirectly affected by the proposed development. These habitat acres will be conserved in perpetuity and additional mitigation is proposed through the conservation of 227.6 acres of immature supporting habitat that will be managed to develop into suitable breeding habitat prior to the expiration of the permit.

Section 9 of the Act and its implementing regulations prohibit "take" of fish and wildlife species listed as threatened or endangered under section 4 of the Act. However, section 10(a) of the Act authorizes us to issue permits to take listed wildlife species where such take is incidental to, and not the purpose of, otherwise lawful activities and where the applicant meets certain statutory requirements.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Authority

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and NEPA (42 U.S.C. 4321

et seq.) and its implementing regulations (40 CFR 1506.6).

[NPS-AKR-DENA-14293; PPAKDENAPO, PDMPAS12.YP0000]

Notice of Renewal of the Denali National Park and Preserve Aircraft Overflights Advisory Council

AGENCY: National Park Service, Interior.

ACTION: Notice of renewal.

SUMMARY: The Secretary of the Interior is giving notice of the renewal of the Denali National Park and Preserve Aircraft Overflights Advisory Council. The Council provides advice and recommendations on mitigation of impacts from aircraft overflights at Denali National Park and Preserve.

FOR FURTHER INFORMATION CONTACT: Miriam Valentine, Chief of Planning and Environmental Compliance, Denali Park and Preserve, 240 W. 5th Avenue, Anchorage, Alaska 99501, (907) 733-9102.

SUPPLEMENTARY INFORMATION: The Denali National Park and Preserve Aircraft Overflights Advisory Council has been established in accordance with the Denali National Park and Preserve's *2006 Backcountry Management Plan and EIS*. The plan concluded that air travel is an important means of access for backcountry users, and that scenic air tours are an important means for other park visitors to access and enjoy Mount McKinley and adjoining scenic peaks and glaciers. However, the cumulative impact of these tours, plus the additional aircraft traffic, must be mitigated to protect park resource values and the quality of the visitor experience. The plan calls for an aircraft overflights advisory group that will develop voluntary measures for assuring the safety of passengers, pilots, and mountaineers, and for achieving standards that represent desired future resource conditions at Denali. The National Park Service needs the advice of this group to develop effective mitigation measures that will be acceptable to stakeholders. The Council is composed of individuals that represent a broad range of interests, including air taxi operators, commercial aviation, local landowners, the State of

Alaska, the Federal Aviation Administration, climbers and other park users, and the environmental community.

Certification: I hereby certify that the renewal of the Denali National Park and Preserve Aircraft Overflights Advisory Council is necessary and in the public interest in connection with the performance of duties imposed on the Department of the Interior by the National Park Service Organic Act, 16 U.S.C. 1-4, and other statutes relating to the administration of the National Park System.

Dated: December 11, 2013.

Sally Jewell,

Secretary of the Interior.
