

annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden and a decrease in Agency burden. In addition, there is a decrease in total capital and O&M costs. This situation is not due to any program changes. The changes in the burden and cost estimates occurred because the standard has been in effect for more than three years and the requirements are different during initial compliance (new facilities) as compared to on-going compliance (existing facilities). The previous ICR reflected those burdens and costs associated with the initial activities for subject facilities. This includes purchasing monitoring equipment, preparing initial notifications, and establishing recordkeeping systems. This ICR largely reflects both the on-going burden and costs for existing facilities. Activities for existing source include the continuously monitoring of mercury and the submission of annual and semiannual reports.

II. Background

On a biannual interval, an Exposure Modeling Public Meeting (EMPM) is held for presentation and discussion of current issues related to modeling pesticide fate, transport, and exposure for risk assessment in a regulatory context. Meeting dates and abstract requests are announced through the "empmlist" forum on the LYRIS list server at https://lists.epa.gov/read/all_forums/. The EMPM scheduled for October 2013 was canceled due to the government shutdown. As a consequence, EPA will use the October 2013 agenda at the March 24, 2014 meeting with the addition of a presentation on PRZM-GW model implementation and evaluation due to extensive stakeholder interest.

III. How can I request to participate in this meeting?

You may submit a request to participate in this meeting to the person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI. Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPP-2009-0879, must be received on or before March 7, 2014.
