Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Participant Feedback on Training Under the Cooperative Agreement for Mental Health Care Provider Education in HIV/AIDS Program (OMB No. 0930-0195)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) intends to continue to conduct a multi-site assessment for the Mental Health Care Provider Education in HIV/AIDS Program. The education programs funded under this cooperative agreement are designed to disseminate knowledge of the psychological and neuropsychiatric sequelae of HIV/AIDS to both traditional (e.g., psychiatrists, psychologists, nurses, primary care physicians, medical students, and social workers) and non-traditional (e.g., clergy, and alternative health care

workers) first-line providers of mental health services, in particular to providers in minority communities.

The multi-site assessment is designed to assess the effectiveness of particular training curricula, document the integrity of training delivery formats, and assess the effectiveness of the various training delivery formats. Analyses will assist CMHS in documenting the numbers and types of traditional and non-traditional mental health providers accessing training; the content, nature and types of training participants receive; and the extent to which trainees experience knowledge, skill and attitude gains/changes as a result of training attendance. The multi-site data collection design uses a two-tiered data collection and analytic strategy to collect information on (1) the organization and delivery of training, and (2) the impact of training on participants' knowledge, skills and abilities.

Minor changes to the feedback form instruments are requested based on based on a review and assessment of participant feedback form data collected over the past two years of the contract. CMHS identified some outdated and rarely-used response options for all participant response forms and the session reporting form and removed these items from the individual data collection tools. Table 1 shows the response options removed from the previous iterations of the MHCPE participant feedback forms and session reporting form.

TABLE 1—CHANGES TO PARTICIPANT FEEDBACK FORMS

Type of feedback form	Question no.	Change(s)	Reason for change
All Participant Feedback Forms (<i>General Education, Neuropsychiatric, Adherence, Ethics</i>).	Q7 Q8, Q9A	<ul style="list-style-type: none"> ■ Removal of response option "other" ■ Removal of response option "Dentist/Dental Assistant" 	Rarely/never used response option(s). Rarely/never used response option(s).
	Session Reporting Form	<ul style="list-style-type: none"> ■ Removal of the following response options: <ul style="list-style-type: none"> —State/Local Department of Public Welfare —HMO/Managed Care Organization. —Migrant Health Center —Other MHCPE Program —State/Local Department of Corrections ■ Removal of response option "Audio tapes" 	Rarely/never used response option(s). Outdated response option.

Information about the organization and delivery of training will be collected from trainers and staff who are funded by these cooperative agreements/contracts, hence there is no

respondent burden. All training participants will be asked to complete a brief feedback form at the end of the training session. CMHS anticipates funding up to 10 education sites for the

Mental Health Care Provider Education in HIV/AIDS Program. The annual burden estimates for this activity are shown below in Table 2.
