

Total estimated burden: 315 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$16,791 (per year), includes no annualized capital/startup nor any operation & maintenance costs.

Changes in the Estimates: There is an increase of 64 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to an adjustment, not due to any program changes. The respondent burden increased because this ICR revised the hours associated with affirmative defense, using latest estimates provided by industry during consultation. The previous ICR covers the burden associated with initial compliance of the final standard, including one-time notification of performance tests and notifications of the back-end process limits. This burden decreased because this ICR assumes that existing facilities have already submitted initial notifications and reports, and covers the burden associated with on-going compliance.

Acting Director, Collection Strategies Division.

EPA’s recommended aquatic life water quality criteria provide technical information for states and authorized tribes to adopt water quality standards under the Clean Water Act to protect aquatic life.

EPA is re-opening the public comment period of the External Peer Review Draft Aquatic Life Ambient Water Quality Criterion for Selenium—Freshwater 2014 (EPA-822-P-14-001). Following closure of the public comment period, an EPA contractor will organize and conduct an independent expert external letter peer review of the draft criterion document. Public comments will be made available to the peer reviewers for consideration during their review. Following peer review, EPA will consider the peer reviewer and public comments, and revise the document as necessary. EPA will then publish a **Federal Register** notice announcing the availability of the draft proposed selenium criterion and soliciting scientific views from the public. EPA will then revise the document as necessary and issue a final updated selenium criterion document.
