

project in the aggregate rather than at the individual performance measure set level and offered an opinion that data reported in disaggregated fashion would be burdensome for respondents to provide and would not result in meaningful information for CNCS.

CNCS acknowledges that the level of burden may be higher for some respondents to report on individual performance measure sets and has increased the burden estimate. CNCS notes that the increased burden stems from additional data entry into the CNCS eGrants reporting system and is not a burden caused by additional data collection or other reporting steps peculiar to reporting to CNCS on individual performance measure sets.

Further, given the unique and complex nature of capacity building activities, CNCS believes that the information reported at an individual performance measure set level will provide meaningful and valuable information about how respondents are using VISTA resources in a way that an aggregate cannot.

The intent of VISTA resources is to build capacity of individual organizations and programs to address poverty. Even sites that have similar capacity goals and performance measures—as expressed in individual performance measure sets—may achieve results at different rates, need different levels of VISTA resources to make progress, or require different types of service activities from VISTA members. Reporting data on individual performance sets is necessary for respondents, CNCS, and other stakeholders to monitor this variability in resources, aspirations and accomplishments, both to assist in the accomplishment of the individual project as well as to support the continuous improvement of the VISTA program as a whole.

Title of Collection: State Educational Agency and Local Educational Agency—School Data Collection and Reporting under ESEA, Title I, Part A
OMB Control Number: 1810-0622.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 52.

Total Estimated Number of Annual Burden Hours: 2,080.

Abstract: Although the U.S. Department of Education (ED) determines Title I, Part A allocations for Local Educational Agencies (LEAs),

State Educational Agencies (SEAs) must adjust ED-determined Title I, Part A LEA allocations to account for newly created LEAs and LEA boundary changes, to redistribute Title I, Part A funds to small LEAs (under 20,000 total population) using alternative poverty data, and to reserve funds for school improvement, State administration, and the State academic achievement awards program. This control number covers only the burden associated with the actual procedures an SEA must follow when adjusting ED-determined LEA allocations.

In particular, the Committee seeks constructive, analytical input on how PIRS can successfully address challenges in one or more of the following ten areas: (1) Account for the diversity of American higher education; (2) Work within the financing structure of higher education; (3) Foster improvement in student and institutional outcomes; (4) Distinguish between consumer needs and accountability; (5) Overcome inadequacies and deficiencies in existing data; (6) Minimize unintended effects that undermine the objectives; (7) Contend with the subjective nature of ratings and rankings; (8) Ensure links to student aid improve access and completion; (9) Integrate with existing public data and information systems; (10) Provide for adequate pilot testing before full implementation.

Given its legislative charge, the Advisory Committee is especially interested in how PIRS might be designed to minimize unintended effects on Title IV recipients, in particular low-income students.
