- \*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.
- Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 30, 2010 (75 FR 22809). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

[CIS No. 2541-14; DHS Docket No. USCIS-2014-0004]

RIN 1615-ZB27

### Extension and Redesignation of South Sudan for Temporary Protected Status

**AGENCY:** U.S. Citizenship and Immigration Services, Department of Homeland Security.

**ACTION:** Notice.

**SUMMARY:** Through this Notice, the Department of Homeland Security (DHS) announces that the Secretary of Homeland Security (Secretary) is extending the designation of South Sudan for Temporary Protected Status (TPS) for 18 months from November 3, 2014 through May 2, 2016, and redesignating South Sudan for TPS for 18 months, effective November 3, 2014 through May 2, 2016.

The extension allows currently eligible TPS beneficiaries to retain TPS through May 2, 2016, so long as they otherwise continue to meet the eligibility requirements for TPS. The redesignation of South Sudan allows additional individuals who have been continuously residing in the United States since September 2, 2014 to obtain TPS, if otherwise eligible. The Secretary has determined that an extension of the current designation and a redesignation of South Sudan for TPS are warranted because of the ongoing armed conflict and other extraordinary and temporary conditions that prompted the 2013 TPS redesignation have not only persisted, but have deteriorated. The ongoing armed conflict in South Sudan and other extraordinary and temporary conditions would pose a serious threat to the personal safety of South Sudanese nationals if they were required to return to their country.

Through this Notice, DHS also sets forth procedures necessary for nationals of South Sudan (or aliens having no nationality who last habitually resided in South Sudan) either to: (1) Re-register under the extension if they already have TPS and to apply for renewal of their Employment Authorization Documents (EADs) with U.S. Citizenship and Immigration Services (USCIS); or, (2) submit an initial registration application under the redesignation and apply for an EAD.

For individuals who have already been granted TPS under the 2011 original South Sudan designation or
