

Area Regional Transit Authority, and the Southern California Regional Rail Authority (Metrolink). This facility is being built to U.S. Green Building Council (USGBC) Leadership in Energy and Environmental Design (LEED) standards and will incorporate a number of sustainable and energy efficient elements. One of those elements is a VRF HVAC system that, among other things, is space saving, has inverter technology, efficiency, and a non-ozone depleting refrigerant that domestic manufacturers of HVAC systems do not provide. According to SANBAG, its contractor was directed to evaluate the substitution of a Buy America-compliant Variable Air Volume (VAV) system, but the contractor advised SANBAG that the VAV system would endanger the project's LEED Gold certification because of the difference in efficiency between the VAV and VRF HVAC systems. In addition, the substitution of a VAV system would require significant changes to the project, such as the alteration of already-erected structural elements that were designed to accommodate a VRF system and additional design changes and plan reviews by the City of San Bernardino.

SANBAG points to a recent non-availability waiver FTA issued to St. Louis' MetroLink for a similar VRF system (79 FR 34653, June 17, 2014), as well as to a blanket non-availability waiver issued by the U.S. Department of Energy (DOE) in 2010 for VRF HVAC systems procured with American Reinvestment and Recovery Act funding (75 FR 35447, June 22, 2010). According to SANBAG, the U.S. DOE's determination of non-availability and FTA's recent St. Louis MetroLink waiver, as well as their own contractor's research, indicate that this product is not manufactured domestically.

The purpose of this notice is to publish SANBAG's request and to seek public comment from all interested parties in accordance with 49 U.S.C. 5323(j)(3)(A). Comments will help FTA understand completely the facts surrounding the request, including the effects of a potential waiver and the merits of the request. A full copy of the request has been placed in docket number FTA-2014-0021.

Background

The Kingpin Act became law on December 3, 1999. The Kingpin Act establishes a program targeting the activities of significant foreign narcotics traffickers and their organizations on a worldwide basis. It provides a statutory framework for the imposition of sanctions against significant foreign narcotics traffickers and their organizations on a worldwide basis, with the objective of denying their businesses and agents access to the U.S. financial system and the benefits of trade and transactions involving U.S. companies and individuals.

The Kingpin Act blocks all property and interests in property, subject to U.S. jurisdiction, owned or controlled by significant foreign narcotics traffickers as identified by the President. In addition, the Secretary of the Treasury, in consultation with the Attorney General, the Director of the Central Intelligence Agency, the Director of the Federal Bureau of Investigation, the Administrator of the Drug Enforcement Administration, the Secretary of

Defense, the Secretary of State, and the Secretary of Homeland Security may designate and block the property and interests in property, subject to U.S. jurisdiction, of persons who are found to be: (1) Materially assisting in, or providing financial or technological support for or to, or providing goods or services in support of, the international narcotics trafficking activities of a person designated pursuant to the Kingpin Act; (2) owned, controlled, or directed by, or acting for or on behalf of, a person designated pursuant to the Kingpin Act; or (3) playing a significant role in international narcotics trafficking.
