(i) *Single hiring location.* Contractors and subcontractors doing business at one hiring location may complete and submit a single VETS-4212 Report using the web-based filing system.

(ii) *Multiple hiring locations.* Contractors and subcontractors doing business at more than 10 locations must submit their VETS-4212 Reports in the form of an electronic data file in accordance with the instructions for filing the VETS-4212 Report. In these cases, state consolidated reports count as one location each. Contractors and subcontractors may submit VETS-4212 Reports in the form of electronic data files through the web-based filing system. Electronic data files also may be transmitted electronically as an email attachment (if they do not exceed the size stated in the specifications), or submitted on compact discs or other electronic storage media.

(2) *Alternative filing methods.* (i) Contractors and subcontractors with 10 or fewer hiring locations may file their VETS-4212 Report in paper format. Contractors and subcontractors may download a version of the VETS-4212 Report from the VETS Web site or send a written request for the paper version of the VETS-4212 Report to: Office of the Assistant Secretary for Veterans' Employment and Training, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-1325, Washington, DC 20210, Attn: VETS-4212 Report Form Request.

(ii) VETS-4212 Reports in paper format or electronic data files on compact discs or other electronic storage media may be delivered by U.S. mail or courier delivery service to the addresses set forth in the instructions for completing the report. Paper copies of the VETS-4212 Reports and electronic data files (if they do not exceed the size stated in the specifications) also may be sent as email attachments to the address indicated in the instructions.

§ 61-300.20 How will DOL determine whether a contractor or subcontractor is complying with the requirements of this part?

During the course of a compliance evaluation, OFCCP may determine whether a contractor or subcontractor has submitted its VETS-4212 Report(s) as required by this part.

§ 61-300.99 What is the OMB control number for this part?

Pursuant to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and its

implementing regulations at 5 CFR part 1320, the Office of Management and Budget has assigned Control No. 1293-0005 to the information collection requirements of this part.

RIN 1004-AE36

Minerals Management: Adjustment of Cost Recovery Fees

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rule.

SUMMARY: This final rule amends the Bureau of Land Management (BLM) mineral resources regulations to update some fees that cover the BLM's cost of processing certain documents relating to its minerals programs and some filing fees for mineral-related documents. These updated fees include those for actions such as lease renewals and mineral patent adjudications.

DATES: This final rule is effective October 1, 2014.

ADDRESSES: You may send inquiries or suggestions to Director (630), Bureau of Land Management, 2134LM, 1849 C Street NW., Washington, DC 20240; Attention: RIN 1004-AE36.

FOR FURTHER INFORMATION CONTACT: Steven Wells, Chief, Division of Fluid Minerals, 202-912-7143; Mitchell Leverette, Chief, Division of Solid Minerals, 202-912-7113; or Anna Atkinson, Regulatory Affairs Analyst, 202-912-7438. Persons who use a telecommunications device for the deaf (TDD) may leave a message for these individuals with the Federal Information Relay Service (FIRS) at 1-800-877-8339, 24 hours a day, 7 days a week.

SUPPLEMENTARY INFORMATION:

I. Background

The BLM has specific authority to charge fees for processing applications and other documents relating to public lands under section 304 of the Federal Land Policy and Management Act of 1976 (FLPMA), 43 U.S.C. 1734. In 2005, the BLM published a final cost recovery rule (70 FR 58854) establishing or revising certain fees and service charges, and establishing the method it would

use to adjust those fees and service charges on an annual basis.

At 43 CFR 3000.12(a), the regulations provide that the BLM will annually adjust fees established in Subchapter C according to changes in the Implicit Price Deflator for Gross Domestic Product (IPD-GDP), which is published quarterly by the U.S. Department of Commerce. See also 43 CFR 3000.10. This final rule will allow the BLM to update these fees and service charges by October 1 of this year, as required by the 2005 regulation. The fee recalculations are based on a mathematical formula. The public had an opportunity to comment on this procedure during the comment period on the original cost recovery rule, and this new rule administers the procedure set forth in those regulations. Therefore, the BLM has changed the fees in this final rule without providing opportunity for additional notice and comment. Accordingly, the Department of the Interior for good cause finds under 5 U.S.C. 553(b)(B) that notice and public comment procedures are unnecessary and that the rule may be effective less than 30 days after publication.

II. Discussion of Final Rule

The BLM publishes a fee update rule each year, which becomes effective on October 1 of that year. The fee updates are based on the change in the IPD-GDP from the 4th Quarter of one calendar year to the 4th Quarter of the following calendar year. This fee update rule is based on the change in the IPD-GDP from the 4th Quarter of 2012 to the 4th Quarter of 2013, thus reflecting the rate of inflation over four calendar quarters.

The fee is calculated by applying the IPD-GDP to the base value from the previous year's rule, also known as the "existing value." This calculation results in an updated base value. The updated base value is then rounded to the closest multiple of \$5, or to the nearest cent for fees under \$1, to establish the new fee.

Under this rule, 31 fees will remain the same and 17 fees will increase. Fourteen of the fee increases will amount to \$5 each. The largest increase, \$40, will be applied to the fee for adjudicating a mineral patent application containing more than 10 claims, which will increase from \$2,995 to \$3,035. The fee for adjudicating a patent application containing 10 or fewer claims will increase by \$25—from \$1,495 to \$1,520.

The calculations that resulted in the new fees are included in the table below:

FIXED COST RECOVERY FEES—Continued
[FY15]

| Document/Action | Existing fee ¹ | Existing value ² | IPD-GDP Increase ³ | New value ⁴ | New fee ⁵ |
|--|---------------------------|-----------------------------|-------------------------------|------------------------|----------------------|
| Application for assignment or sublease of record title or overriding royalty | 65 | 63.71601 | 0.92388 | 64.63989 | 65 |

¹ The Existing Fee was established by the 2013 (Fiscal Year 2014) cost recovery fee update rule published August 16, 2013 (78 FR 49945), effective October 1, 2013.
² The Existing Value is the figure from the New Value column in the previous year's rule.
³ From 4th Quarter 2012 to 4th Quarter 2013, the IPD-GDP increased by 1.45 percent. The value in the IPD-GDP Increase column is 1.45 percent of the Existing Value.
⁴ The sum of the Existing Value and the IPD-GDP Increase is the New Value.
⁵ The New Fee for Fiscal Year 2015 is the New Value rounded to the nearest \$5 for values equal to or greater than \$1, or to the nearest penny for values under \$1.
⁶ Section 365 of the Energy Policy Act of 2005 (Pub. L. 109-58) directed in subsection (i) that "the Secretary shall not implement a rulemaking that would enable an increase in fees to recover additional costs related to processing drilling-related permit applications and use authorizations." In the 2005 cost recovery rule, the BLM interpreted this prohibition to apply to geophysical exploration permits. 70 FR 58854-58855. While the \$25 fees for geophysical exploration permit applications for Alaska and renewals of exploration permits for Alaska pre-dated the 2005 cost recovery rule and were not affected by the Energy Policy Act prohibition, the BLM interprets the Energy Policy Act provision as prohibiting it from increasing this \$25 fee.
⁷ The BLM interprets the Energy Policy Act prohibition discussed in footnote 6, above, as prohibiting it from increasing this \$25 fee, as well. Source for Implicit Price Deflator for Gross Domestic Product data: U.S. Department of Commerce, Bureau of Economic Analysis (April 25, 2014).

III. How Fees Are Adjusted

Each year, the figures in the Existing Value column in the table above (not those in the Existing Fee column) are used as the basis for calculating the adjustment to these fees. The Existing Value is the figure from the New Value column in the previous year's rule. In this year's published table we have expanded the Existing Value, IPD-GDP Increase, and New Value columns to five decimal places to more accurately reflect the actual values from the calculation spreadsheets. In the case of fees that were not in the table the previous year, or that had no figure in the New Value column the previous year, the Existing Value is the same as the Existing Fee. Because the new fees are derived from the new values—rounded to the nearest \$5 or the nearest penny for fees under \$1—adjustments based on the figures in the Existing Fee column would lead to significantly over- or under-valued fees over time. Accordingly, fee adjustments are made by multiplying the annual change in the IPD-GDP by the figure in the Existing Value column. This calculation defines the New Value for this year, which is then rounded to the nearest \$5 or the nearest penny for fees under \$1, to establish the New Fee.

IV. Procedural Matters

Regulatory Planning and Review (Executive Order 12866)

This document is not a significant rule and the Office of Management and Budget has not reviewed this rule under Executive Order 12866.

The BLM has determined that the rule will not have an annual effect on the economy of \$100 million or more. It will

not adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. The changes in today's rule are much smaller than those in the 2005 final rule, which did not approach the threshold in Executive Order 12866. For instructions on how to view a copy of the analysis prepared in conjunction with the 2005 final rule, please contact one of the persons listed in the **FOR FURTHER INFORMATION CONTACT** section above.

This rule will not create inconsistencies or otherwise interfere with an action taken or planned by another agency. This rule does not change the relationships of the onshore minerals programs with other agencies' actions. These relationships are included in agreements and memoranda of understanding that would not change with this rule.

In addition, this final rule does not materially affect the budgetary impact of entitlements, grants, or loan programs, or the rights and obligations of their recipients. This rule applies an inflation factor that increases some existing user fees for processing documents associated with the onshore minerals programs. However, most of these fee increases are less than 2 percent and none of the increases materially affect the budgetary impact of user fees.

Finally, this rule will not raise novel legal issues. As explained above, this rule simply implements an annual process to account for inflation that was adopted by and explained in the 2005 cost recovery rule.

The Regulatory Flexibility Act

This final rule will not have a significant economic effect on a substantial number of small entities as defined under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). A Regulatory Flexibility Analysis is not required. Accordingly, a Small Entity Compliance Guide is not required. For the purposes of this section, a small entity is defined by the Small Business Administration (SBA) for mining (broadly inclusive of metal mining, coal mining, oil and gas extraction, and the mining and quarrying of nonmetallic minerals) as an individual, limited partnership, or small company considered to be at arm's length from the control of any parent companies, with fewer than 500 employees. The SBA defines a small entity differently, however, for leasing Federal land for coal mining. A coal lessee is a small entity if it employs not more than 250 people, including people working for its affiliates.

The SBA would consider many, if not most, of the operators the BLM works with in the onshore minerals programs to be small entities. The BLM notes that this final rule does not affect service industries, for which the SBA has a different definition of "small entity."

The final rule may affect a large number of small entities since 17 fees for activities on public lands will be increased. However, the BLM has concluded that the effects will not be significant. Most of the fixed fee increases will be less than 2 percent as a result of this final rule. The adjustments result in no increase in the fee for the processing of 31 documents relating to the BLM's minerals programs. The highest adjustment, in

dollar terms, is for adjudications of mineral patent applications involving more than 10 mining claims, which will be increased by \$40. For the 2005 final rule, the BLM completed a threshold analysis, which is available for public review in the administrative record for that rule. For instructions on how to view a copy of that analysis, please contact one of the persons listed in the **FOR FURTHER INFORMATION CONTACT** section above. The analysis for the 2005 rule concluded that the fees would not have a significant economic effect on a substantial number of small entities. The fee increases implemented in today's rule are substantially smaller than those provided for in the 2005 rule.

The Small Business Regulatory Enforcement Fairness Act

This final rule is not a "major rule" as defined at 5 U.S.C. 804(2). The final rule will not have an annual effect on the economy greater than \$100 million; it will not result in major cost or price increases for consumers, industries, government agencies, or regions; and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises. For the 2005 final rule, which established the fee adjustment procedure that this rule implements, the BLM completed a threshold analysis, which is available for public review in the administrative record for that rule. The fee increases implemented in today's rule are substantially smaller than those provided for in the 2005 rule.

Executive Order 13132, Federalism

This final rule will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. In accordance with Executive Order 13132, therefore, we find that the final rule does not have significant federalism effects. A federalism assessment is not required.

The Paperwork Reduction Act of 1995

These regulations contain information collection requirements. As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the BLM submitted a copy of the proposed information collection requirements to the Office of Management and Budget (OMB) for review. The OMB approved the information collection requirements under the following Control Numbers:

Oil and Gas

- (1) 1004-0034 which expires July 31, 2015;
- (2) 1004-0137 which expires October 31, 2014;
- (3) 1004-0162 which expires July 31, 2015;
- (4) 1004-0185 which expires December 31, 2015;

Geothermal

- (5) 1004-0132 which expires December 31, 2016;

Coal

- (6) 1004-0073 which expires August 31, 2016;

Mining Claims

- (7) 1004-0025 which expires March 31, 2016;
- (8) 1004-0114 which expires October 31, 2016; and

Leasing of Solid Minerals Other Than Oil Shale

- (9) 1004-0121 which expires March 31, 2016.

Takings Implication Assessment (Executive Order 12630)

As required by Executive Order 12630, the BLM has determined that this rule will not cause a taking of private property. No private property rights will be affected by a rule that merely updates fees. The BLM therefore certifies that this final rule does not represent a governmental action capable of interference with constitutionally protected property rights.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the BLM finds that this final rule will not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Executive Order.

The National Environmental Policy Act (NEPA)

The BLM has determined that this final rule is administrative and involves only procedural changes addressing fee requirements. In promulgating this rule, the government is conducting routine and continuing government business of an administrative nature having limited context and intensity. Therefore, it is categorically excluded from environmental review under Section 102(2)(C) of NEPA, pursuant to 43 CFR 46.205 and 46.210(c) and (i). The final rule does not meet any of the 12 criteria for exceptions to categorical exclusions listed at 43 CFR 46.215.

Pursuant to Council on Environmental Quality (CEQ)

regulations and the environmental policies and procedures of the Department of the Interior, the term "categorical exclusions" means categories of actions "which do not individually or cumulatively have a significant effect on the human environment and which have been found to have no such effect in procedures adopted by a Federal agency in implementation of [CEQ] regulations (§ 1507.3) and for which, therefore, neither an environmental assessment nor an environmental impact statement is required." 40 CFR 1508.4; see also BLM National Environmental Policy Act Handbook H-1790-1, Ch. 4, at 17 (Jan. 2008).

The Unfunded Mandates Reform Act of 1995

The BLM has determined that this final rule is not significant under the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1501 *et seq.*, because it will not result in State, local, private sector, or tribal government expenditures of \$100 million or more in any one year, 2 U.S.C. 1532. This rule will not significantly or uniquely affect small governments. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act.

Consultation and Coordination With Indian Tribal Governments (Executive Order 13175)

In accordance with Executive Order 13175, the BLM has determined that this final rule does not include policies that have tribal implications. A key factor is whether the rule would have substantial direct effects on one or more Indian tribes. The BLM has not found any substantial direct effects. Consequently, the BLM did not utilize the consultation process set forth in Section 5 of the Executive Order.

Information Quality Act

In developing this rule, the BLM did not conduct or use a study, experiment, or survey requiring peer review under the Information Quality Act (Public Law 106-554).

Effects on the Nation's Energy Supply (Executive Order 13211)

In accordance with Executive Order 13211, the BLM has determined that this final rule is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The distribution of or use of energy would not be unduly affected by this final rule. It merely adjusts certain administrative cost recovery fees to account for inflation.

§ 3000.12 What is the fee schedule for fixed fees?

(a) The table in this section shows the fixed fees that you must pay to the BLM for the services listed for Fiscal Year 2015. These fees are nonrefundable and must be included with documents you file under this chapter. Fees will be adjusted annually according to the change in the Implicit Price Deflator for Gross Domestic Product (IPD–GDP) by way of publication of a final rule in the **Federal Register** and will subsequently be posted on the BLM Web site (<http://www.blm.gov>) before October 1 each year. Revised fees are effective each year on October 1.
