submit these types of filings, please go to the Commission's Web site located at http://www.ferc.gov/filing-comments.asp.

Please include the docket number (DI14–07–000) on any comments, protests, and/or motions filed.

k. Description of Project: The existing run-of-river Bass/Wilson Hydroelectric Project will consist of the following existing facilities: (1) A nine-foot-high dam at the outlet of Wilson Stream; (2) an existing bulkhead, waste gate, canal, and a two-foot-high, eight-foot-wide tailrace built prior to 1887; (3) a turbine room and powerhouse constructed in 1904. The applicant proposes to install: (1) A 78-kilowatt turbine generating unit for electrical production rated at 18 feet of net head with an average flow of 65 cubic feet per second; (2) an intake through a concrete wall on the upstream end of the building in the current power canal; (3) a 36-inch to 48-inch diameter fiberglass conduit in the existing raceway under the building; (4) and appurtenant facilities. The power generated will be used on-site and all excess power will be distributed via connection to the interstate grid.

When a Declaration of Intention is filed with the Federal Energy Regulatory Commission, the Federal Power Act requires the Commission to investigate and determine if the project would affect the interests of interstate or foreign commerce. The Commission also determines whether or not the project: (1) Would be located on a navigable waterway; (2) would occupy public lands or reservations of the United States; (3) would utilize surplus water or water power from a government dam; or (4) would be located on a nonnavigable stream over which Congress has Commerce Clause jurisdiction and would be constructed or enlarged after

l. Locations of the Application: Copies of this filing are on file with the Commission and are available for public inspection. This filing may be viewed on the web at http://www.ferc.gov using the "eLibrary" link. Enter the Docket number excluding the last three digits in the docket number field to access the document. You may also register online at http://www.ferc.gov/docs-filing/ esubscription.asp to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Filing and Service of Responsive Documents—All filings must bear in all capital letters the title "COMMENTS", "PROTESTS", AND/OR "MOTIONS TO INTERVENE", as applicable, and the Docket Number of the particular application to which the filing refers. A copy of any Motion to Intervene must also be served upon each representative of the Applicant specified in the particular application.

p. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: November 20, 2014.

[Docket No. EL15-15-000]

# PJM Interconnection, L.L.C.; Notice of Initiation of Proceeding and Refund Effective Date

On November 20, 2014, the Commission issued an Order to Show Cause in Docket No. EL15–15–000, initiating a proceeding pursuant to section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e (2012), directing PJM Interconnection, L.L.C. to either revise its Open Access Transmission Tariff to provide that a generation or non-generation resource owner will no

longer receive reactive power capability payments after it has deactivated its unit and to clarify the treatment of reactive power capability payments for units transferred out of a fleet; or show cause why it should not be required to do so. *PJM Interconnection, L.L.C.,* 149 FERC ¶61,132 (2014).

The refund effective date in Docket No. EL15–15–000, established pursuant to section 206(b) of the FPA, will be the date of publication of this notice in the **Federal Register**.

Dated: November 20, 2014.

## Federal Energy Regulatory Commission

[Docket No. CD15-2-000]

### Consolidated Irrigation Company; Notice of Preliminary Determination of a Qualifying Conduit Hydropower Facility and Soliciting Comments and Motions To Intervene

On November 12, 2014, the Consolidated Irrigation Company filed a notice of intent to construct a qualifying conduit hydropower facility, pursuant to section 30 of the Federal Power Act (FPA), as amended by section 4 of the Hydropower Regulatory Efficiency Act of 2013 (HREA). The proposed Glendale Conduit Hydro Project would have an installed capacity of 450 kilowatts (kW) and would be located on the existing 36inch-diameter Combined Conduit, which joins the Cub River conduit and Mink Creek conduits. These conduits are used to transport water for irrigation. The project would be located near the city of Preston in Franklin County, Idaho.

Applicant Contact: Lyla Dettmer, 98 East 880 North Suite #5, Preston, ID 83263, Phone No. (208) 852–0562, ext 101.

FERC Contact: Robert Bell, Phone No. (202) 502–6062, email: robert.bell@ferc.gov.

Qualifying Conduit Hydropower Facility Description: The proposed project would consist of: (1) One proposed 52.5-foot-long, 36-inch-diameter pipe; (2) a proposed 36- by 32-foot powerhouse containing a turbine generator unit with an installed capacity 450 kW; (3) the proposed tailrace structure which distributes the water into the irrigation system; and (4) appurtenant facilities. The proposed
