

The areas described aggregate approximately 80 acres.

Under certain conditions, Section 209(b) of the FLPMA authorizes the conveyance of the federally owned mineral interests in land to the current or prospective surface owner, upon payment of administrative costs and the fair market value of the interest being conveyed. The objective of Section 209 is to allow consolidation of the surface and mineral interests when either one of the following conditions exist: (1) There are no known mineral values in the land; or (2) Where continued Federal ownership of the mineral interests interferes with or precludes appropriate non-mineral development and such development is a more beneficial use of the land than mineral development.

Sahuarita Holdings, LLC, the surface owner filed an application for the conveyance of the federally owned mineral interests in the above-described tracts of land. The applicant has deposited, as required under Section 209(b)(3)(i), a sum of money determined sufficient to cover administrative costs, but not limited to, the cost for the completed Mineral Potential Report. Subject to valid existing rights, on February 12, 2015 the federally owned mineral interests in the land described above are hereby segregated from all forms of appropriation under the public land laws, including the mining laws while the application is being processed to determine if either one of the two specified conditions exists and, if so, to otherwise comply with the procedural requirements of 43 CFR part 2720. The segregative effect shall terminate upon: (1) Issuance of a patent or other document of conveyance as to such mineral interests; (2) Final rejection of the application; or (3) February 13, 2017, whichever occurs first.

The Program is intended to provide legal services to children under the age of 16 who: (1) Are not in the custody of the Office of Refugee Resettlement (ORR) or the Department of Homeland Security (DHS), i.e. have been released to sponsors (who are sometimes parents or guardians) in the community; (2) have received a Notice to Appear in removal proceedings before EOIR; and, (3) have not had their cases consolidated with removal proceedings with a parent or legal guardian. The information collection will be administered by the Vera Center on Immigration and Justice to provide performance measurement and evaluation services that will contribute to the efficiency and effectiveness of the Program, to address implementation challenges, to inform and improve program design, to modify program operations and direction, and to contribute to greater accountability and transparency. The Program will use four data collection methods: (1) Performance measurement data entered by jAC member organizations in a secure on-line, Vera-designed Caspio database for the purpose of semi-annual reporting to the federal funder; (2) qualitative interviews of jAC program managers and selected DOJ employees (e.g. immigration judges) conducted by telephone and in person during site visits for the purpose of implementation evaluation; (3) qualitative interviews with a small sample of unaccompanied children, who are provided with legal representation by the jAC program to document their understanding of immigration proceedings as a result of participation in the program; and (4) a brief, non-identifiable survey of jAC members (staff attorneys) at the end of their terms of service to determine their satisfaction with participation in the program.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 100 jAC members will take part in the survey annually. Based on similar surveys used by Vera to evaluate other programs, an
