Legal Authority and Background

Section 306 of the Controlled Substances Act (CSA), 21 U.S.C. 826, requires that the Attorney General establish aggregate production quotas for each basic class of controlled substance listed in schedules I and II each year. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration (DEA). 28 CFR 0.100.

The DEA established the 2015 aggregate production quotas for substances in schedules I and II on September 8, 2014 (79 FR 53216). Subsequently, on December 19, 2014, DEA published in the **Federal Register** a notice of intent to temporarily place 3

synthetic cannabinoids: N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-(cyclohexylmethyl)-1H-indazole-3-carboxamide (AB-CHMINACA), N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide (AB-PINACA), and [1-(5-fluoropentyl)-1H-indazol-3-yl](naphthalen-1-yl)methanone (THJ-2201) into schedule I of the CSA (79 FR 75767). On January 30, 2015, the DEA published in the **Federal Register** a final order to temporarily place these three synthetic cannabinoids in schedule I of the CSA (80 FR 5042), making all regulatory controls pertaining to schedule I controlled substances applicable to the manufacture of these three synthetic cannabinoids, including the requirement to establish an aggregate production quota pursuant to 21 U.S.C. 826 and 21 CFR part 1303.

AB-CHMINACA, AB-PINACA, and THJ-2201 were non-controlled substances when the aggregate production quotas for schedule I and II substances were established. Therefore no aggregate production quotas for AB-CHMINACA, AB-PINACA, and THJ-2201 were established at that time.

In determining the 2015 aggregate production quotas of these three synthetic cannabinoids, the Administrator considered the following factors in accordance with 21 U.S.C. 826(a) and 21 CFR 1303.11(b): (1) Total net disposal of the class by all manufacturers during the current and 2 preceding years; (2) trends in the national rate of net disposal of the class; (3) total estimated inventories of the basic class and of all substances manufactured from the class, and trends in inventory accumulation; (4) projected demand for each class as indicated by procurement quotas requested pursuant to 21 CFR 1303.12; and (5) other factors affecting medical, scientific, research, and industrial needs of the United States and lawful export requirements, as the Administrator finds relevant. These quotas do not include imports of controlled substances for use in industrial processes.

The Administrator, therefore, proposes that the annual 2015 aggregate production quotas for the following temporarily controlled schedule I controlled substances, expressed in grams of anhydrous acid or base, be established as follows:

Basic class—schedule I	Proposed 2015 quota (g)
N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-(cyclohexylmethyl)-1H-indazole-3-carboxamide (AB-CHMINACA)	15
N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide (AB-PINACA)	15
[1-(5-fluoropentyl)-1H-indazol-3-yl](naphthalen-1-yl)methanone (THJ-2201)	15

Dated: March 12, 2015.
Michele M. Leonhart,
Administrator.

OFFICE OF PERSONNEL MANAGEMENT

Federal Employees' Retirement System; Normal Cost Percentages

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: The Office of Personnel Management (OPM) is providing notice of revised normal cost percentages for employees covered by the Federal Employees' Retirement System (FERS) Act of 1986.

DATES: The revised normal cost percentages are effective at the beginning of the first pay period commencing on or after October 1, 2015. Agency appeals of the normal cost percentages must be filed no later than September 21, 2015.

ADDRESSES: Send or deliver agency appeals of the normal cost percentages and requests for actuarial assumptions and data to the Board of Actuaries, care of Gregory Kissel, Senior Actuary, Office of Planning and Policy Analysis, Office of Personnel Management, Room 4307, 1900 E Street NW., Washington, DC 20415.

FOR FURTHER INFORMATION CONTACT: Karla Yeakle, (202) 606-0299.

SUPPLEMENTARY INFORMATION: The FERS Act of 1986, Pub. L. 99-335, created a new retirement system intended to cover most Federal employees hired after 1983. Most Federal employees hired before 1984 are under the older Civil Service Retirement System (CSRS). Section 8423 of title 5, United States Code, as added by the FERS Act of 1986, provides for the payment of the Government's share of the cost of the retirement system under FERS. Employees' contributions are established by law and constitute only a portion of the cost of funding the retirement system; employing agencies are required to pay the remaining costs. The amount of funding required, known as "normal cost," is the entry age normal cost of the provisions of FERS

that relate to the Civil Service Retirement and Disability Fund (Fund). The normal cost must be computed by OPM in accordance with generally accepted actuarial practices and standards (using dynamic assumptions). The normal cost calculations depend on economic and demographic assumptions. Subpart D of part 841 of title 5, Code of Federal Regulations, regulates how normal costs are determined.

In its meeting on June 18, 2013, the Board of Actuaries of the Civil Service Retirement System (the Board) recommended changes to certain demographic assumptions used in the actuarial valuations of CSRS and FERS. The most significant change applies additional projected mortality improvement resulting in greater assumed annuitant longevity. The previous assumptions reflected mortality rates improved to year 2024; the revised projection assumes mortality rates are expected to improve indefinitely at an ultimate rate of 1.0 percent annually for employees and non-disabled annuitants. OPM has adopted the Board's recommendations.

With regard to the economic assumptions described under section 841.402 of title 5, Code of Federal Regulations, used in the actuarial valuations of FERS, the Board concluded that it would be appropriate to continue to assume a rate of investment return of 5.25 percent. In addition, the Board determined that the assumed inflation rate should remain at 3.00 percent and that the projected rate of General Schedule salary increases should remain at 3.25 percent. These salary increases are in addition to assumed within-grade increases. These assumptions are intended to reflect the long term expected future experience of the Systems.

The demographic assumptions are determined separately for each of a number of special groups, in cases where separate experience data is available. Based on the demographic and economic assumptions described above, OPM has determined the normal cost percentage for each category of employees under section 841.403 of title 5, Code of Federal Regulations.

Section 5001 of Public Law 112-96, The Middle Class Tax Relief and Jobs Creation Act of 2012, established provisions for FERS Revised Annuity Employees (FERS-RAE). The law permanently increases the retirement contributions by 2.30 percent of pay for these employees. Subsequently, Section 401 of Public Law 113-67, the Bipartisan Budget Act of 2013, created another class of FERS coverage, FERS-
