Abstract: This standard applies to owners and operators of secondary lead smelter industry facilities. The provisions of this subpart apply to secondary lead smelters that use blast, reverberatory, rotary, or electric smelting furnaces to recover lead metal from scrap lead, primarily from used lead-acid automotive-type batteries. Consistent with the NESHAP General Provisions (40 CFR part 63, subpart A), owners and operators must comply with recordkeeping, monitoring and reporting requirements including control device parameter monitoring, conduct performance tests and submittal of initial and periodic reports such as semiannual compliance reports and an operation, maintenance and
