**SUPPLEMENTARY INFORMATION:** DOE published a NPR in the **Federal Register** to make available and invite public comments on its proposed revisions to the test procedure for residential furnaces and boilers. 80 FR 12876 (March 11, 2015). The document set a deadline for the submission of written comments by May 26, 2015. The Air-Conditioning, Heating, and Refrigeration Institute (AHRI) requested an extension of the public comment period, stating that additional time is necessary to conduct product testing and review supporting information in order to prepare and submit comments. After careful consideration of the request, DOE has determined that reopening the comment period to allow additional time for interested parties to submit comments is appropriate based on the foregoing reasons. DOE believes that reopening the comment period by 45 days will provide the public with sufficient time to submit comments responding to DOE's proposed test procedure revisions. Accordingly, DOE is reopening the comment period to midnight of July 10, 2015 and will deem any comments received (or postmarked) by that date to be timely submitted.

Issued in Washington, DC, on May 27, 2015.

*Deputy Assistant Secretary for Energy Efficiency and Renewable Energy.*
