

The following agenda topics will be discussed: (1) Trade Compliance Process. Review of the current Voluntary Disclosure (VD) process and recommendations for possible improvements or changes (including analysis of how to address “administrative” VDs as distinguished from other VDs) while ensuring that foreign policy and national security interests are met; (2) Cyber Products. Review of “cyber products” and recommendations for which products, if any, should be included on the U.S. Munitions List, and potential impact on cyber products resulting from such export controls; (3) DTAG Structure and Operations. Examination of whether DTAG could function similar to the Commerce Department’s Technical Advisory Committees (TACs), how DTAG could interface with such TACs, and whether State, Commerce and the Department of Defense should establish an interagency defense trade advisory group; and (4) Export Control Reform (ECR) status. Report on US industry views regarding licensing flexibilities and efficiencies (including availability of license exception, Strategic Trade Authorization), unintended consequences, and areas of potential improvements, resulting from the transfer of certain items from the jurisdiction of the International Traffic in Arms Regulations (US Munitions List) to the jurisdiction of the Export Administration Regulations (Commerce Control List).
