RIN 1018-BA62

**Subsistence Management Regulations
for Public Lands in Alaska; Rural
Determination Process**

AGENCIES: Forest Service, Agriculture;
Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Secretaries of Agriculture and the Interior are revising the regulations governing the rural determination process for the Federal Subsistence Management Program in Alaska. The Secretaries have removed specific guidelines, including requirements regarding population data, the aggregation of communities, and a decennial review. This change will allow the Federal Subsistence Board (Board) to define which communities or areas of Alaska are nonrural (all other communities and areas would, therefore, be rural). This new process will enable the Board to be more flexible in making decisions and to take into account regional differences found throughout the State. The new process will also allow for greater input from the Subsistence Regional Advisory Councils (Councils), Federally recognized Tribes of Alaska, Alaska Native Corporations, and the public.

DATES: This rule is effective November 4, 2015.

ADDRESSES: This rule and public comments received on the proposed rule may be found on the Internet at www.regulations.gov at Docket No. FWS-R7-SM-2014-0063. Board meeting transcripts are available for review at the Office of Subsistence Management, 1011 East Tudor Road, Mail Stop 121, Anchorage, AK 99503, or on the Office of Subsistence Management Web site (<https://www.doi.gov/subsistence>).

FOR FURTHER INFORMATION CONTACT: Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Attention: Eugene R. Peltola, Jr., Office of Subsistence Management; (907) 786-3888 or subsistence@fws.gov. For

questions specific to National Forest System lands, contact Thomas Whitford, Regional Subsistence Program Leader, USDA, Forest Service, Alaska Region; (907) 743-9461 or twhitford@fs.fed.us.

SUPPLEMENTARY INFORMATION:**Background**

Under Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111-3126), the Secretary of the Interior and the Secretary of Agriculture (Secretaries) jointly implement the Federal Subsistence Management Program. This program provides a preference for take of fish and wildlife resources for subsistence uses on Federal public lands and waters in Alaska. The Secretaries published temporary regulations to carry out this program in the **Federal Register** on June 29, 1990 (55 FR 27114), and published final regulations in the **Federal Register** on May 29, 1992 (57 FR 22940). The program regulations have subsequently been amended a number of times. Because this program is a joint effort between Interior and Agriculture, these regulations are located in two titles of the Code of Federal Regulations (CFR): Title 36, "Parks, Forests, and Public Property," and Title 50, "Wildlife and Fisheries," at 36 CFR 242.1-242.28 and 50 CFR 100.1-100.28, respectively. The regulations contain subparts as follows: Subpart A, General Provisions; Subpart B, Program Structure; Subpart C, Board Determinations; and Subpart D, Subsistence Taking of Fish and Wildlife.

Consistent with Subpart B of these regulations, the Secretaries established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board comprises:

- A Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture;
- The Alaska Regional Director, U.S. Fish and Wildlife Service;
- The Alaska Regional Director, U.S. National Park Service;
- The Alaska State Director, U.S. Bureau of Land Management;
- The Alaska Regional Director, U.S. Bureau of Indian Affairs;
- The Alaska Regional Forester, U.S. Forest Service; and
- Two public members appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture.

Through the Board, these agencies and members participate in the development of regulations for subparts C and D, which, among other things, set forth program eligibility and specific harvest seasons and limits.

In administering the program, the Secretaries divided Alaska into 10 subsistence resource regions, each of which is represented by a Regional Advisory Council. The Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Federal public lands in Alaska. The Council members represent varied geographical, cultural, and user interests within each region.

Prior Rulemaking

On November 23, 1990 (55 FR 48877), the Board published a notice in the **Federal Register** explaining the proposed Federal process for making rural determinations, the criteria to be used, and the application of those criteria in preliminary determinations. On December 17, 1990, the Board adopted final rural and nonrural determinations, which were published on January 3, 1991 (56 FR 236). Final programmatic regulations were published on May 29, 1992, with only slight variations in the rural determination process (57 FR 22940). As a result of this rulemaking, Federal subsistence regulations at 36 CFR 242.15 and 50 CFR 100.15 require that the rural or nonrural status of communities or areas be reviewed every 10 years, beginning with the availability of the 2000 census data.

Because some data from the 2000 census was not compiled and available until 2005, the Board published a proposed rule in 2006 to revise the list of nonrural areas recognized by the Board (71 FR 46416, August 14, 2006). The final rule published in the **Federal Register** on May 7, 2007 (72 FR 25688).

Secretarial Review

On October 23, 2009, Secretary of the Interior Salazar announced the initiation of a Departmental review of the Federal Subsistence Management Program in Alaska; Secretary of Agriculture Vilsack later concurred with this course of action. The review focused on how the Program is meeting the purposes and subsistence provisions of Title VIII of ANILCA, and if the Program is serving rural subsistence users as envisioned when it began in the early 1990s.

On August 31, 2010, the Secretaries announced the findings of the review, which included several proposed administrative and regulatory reviews and/or revisions to strengthen the Program and make it more responsive to those who rely on it for their subsistence uses. One proposal called

for a review, with Council input, of the rural determination process and, if needed, recommendations for regulatory changes.

The Board met on January 20, 2012, to consider the Secretarial directive and the Councils' recommendations and review all public, Tribal, and Alaska Native Corporation comments on the initial review of the rural determination process. After discussion and deliberation, the Board voted unanimously to initiate a review of the rural determination process and the 2010 decennial review. Consequently, the Board found that it was in the public's best interest to extend the compliance date of its 2007 final rule (72 FR 25688; May 7, 2007) on rural determinations until after the review of the rural determination process and the decennial review were completed or in 5 years, whichever comes first. The Board published a final rule on March 1, 2012 (77 FR 12477), extending the compliance date.

The Board followed this action with a request for comments and announcement of public meetings (77 FR 77005; December 31, 2012) to receive public, Tribal, and Alaska Native Corporations input on the rural determination process.

Due to a lapse in appropriations on October 1, 2013, and the subsequent closure of the Federal Government, some of the preannounced public meetings and Tribal consultations to receive comments on the rural determination process during the closure were cancelled. The Board decided to extend the comment period to allow for the complete participation from the Councils, public, Tribes, and Corporations to address this issue (78 FR 66885; November 7, 2013).

The Councils were briefed on the Board's **Federal Register** documents during their winter 2013 meetings. At their fall 2013 meetings, the Councils provided a public forum to hear from residents of their regions, deliberate on the rural determination process, and provide recommendations for changes to the Board.

The Secretaries, through the Board, also held hearings in Barrow, Ketchikan, Sitka, Kodiak, Bethel, Anchorage, Fairbanks, Kotzebue, Nome, and Dillingham to solicit comments on the rural determination process. Public testimony was recorded during these hearings. Government-to-government tribal consultations on the rural determination process were held between members of the Board and Federally recognized Tribes of Alaska. Additional consultations were held

between members of the Board and Alaska Native Corporations.

Altogether, the Board received 475 substantive comments from various sources, including individuals, members of the Councils, and other entities or organizations, such as Alaska Native Corporations and borough governments. In general, this information indicated a broad dissatisfaction with the current rural determination process. The aggregation criteria were perceived as arbitrary. The current population thresholds were seen as inadequate to capture the reality of rural Alaska. Additionally, the decennial review was widely viewed to be unnecessary.

Based on this information, the Board at their public meeting held on April 17, 2014, elected to recommend a simplification of the process by determining which areas or communities are nonrural in Alaska; all other communities or areas would, therefore, be rural. The Board would make nonrural determinations using a comprehensive approach that considers population size and density, economic indicators, military presence, industrial facilities, use of fish and wildlife, degree of remoteness and isolation, and any other relevant material, including information provided by the public. The Board would rely heavily on the recommendations of the Subsistence Regional Advisory Councils.

In summary, based on Council and public comments, Tribal and Alaska Native Corporation consultations, and briefing materials from the Office of Subsistence Management, the Board developed a proposal that simplifies the process of rural determinations and submitted its recommendation to the Secretaries on August 15, 2014.

On November 24, 2014, the Secretaries requested that the Board initiate rulemaking to pursue the regulatory changes recommended by the Board. The Secretaries also requested that the Board obtain Council recommendations and public input, and conduct Tribal and Alaska Native Corporation consultation on the proposed changes. If adopted through the rulemaking process, the current regulations would be revised to remove specific guidelines, including requirements regarding population data, the aggregation of communities, and the decennial review, for making rural determinations.

Public Review and Comment

The Departments published a proposed rule on January 28, 2015 (80 FR 4521), to revise the regulations governing the rural determination

process in subpart B of 36 CFR part 242 and 50 CFR part 100. The proposed rule opened a public comment period, which closed on April 1, 2015. The Departments advertised the proposed rule by mail, radio, newspaper, and social media; comments were submitted via www.regulations.gov to Docket No. FWS-R7-SM-2014-0063. During that period, the Councils received public comments on the proposed rule and formulated recommendations to the Board for their respective regions. In addition, 10 separate public meetings were held throughout the State to receive public comments, and several government-to-government consultations addressed the proposed rule. The Councils had a substantial role in reviewing the proposed rule and making recommendations for the final rule. Moreover, a Council Chair, or a designated representative, presented each Council's recommendations at the Board's public work session of July, 28, 2015.

The 10 Councils provided the following comments and recommendations to the Board on the proposed rule:

Northwest Arctic Subsistence Regional Advisory Council—unanimously supported the proposed rule.

Seward Peninsula Subsistence Regional Advisory Council—unanimously supported the proposed rule.

Yukon-Kuskokwim Delta Subsistence Regional Advisory Council—unanimously supported the proposed rule.

Western Interior Alaska Regional Advisory Council—supported the proposed rule.

North Slope Subsistence Regional Advisory Council—unanimously supported the proposed rule as written. The Council stated the proposed rule will improve the process and fully supported an expanded role and inclusion of recommendations of the Councils when the Board makes nonrural determinations. The Council wants to be closely involved with the Board when the Board sets policies and criteria for how it makes nonrural determinations under the proposed rule if the rule is approved, and the Council passed a motion to write a letter requesting that the Board involve and consult with the Councils when developing criteria to make nonrural determinations, especially in subject matter that pertains to their specific rural characteristics and personality.

Bristol Bay Subsistence Regional Advisory Council—supported switching the focus of the process from rural to

nonrural determinations. They indicated there should be criteria for establishing what is nonrural to make determinations defensible and justifiable, including determinations of the carrying capacity of the area for sustainable harvest, and governmental entities should not determine what is spiritually and culturally important for a community. They supported eliminating the mandatory decennial; however, they requested a minimum time limit between requests (at least 3 years). They discussed deference and supported the idea but felt it did not go far enough.

Southcentral Alaska Subsistence Regional Advisory Council—supported the proposed rule with modification. They recommended deference be given to the Councils on the nonrural determinations.

Southeast Alaska Subsistence Regional Advisory Council—supported the proposed rule with modification. The Council recommended a modification to the language of the proposed rule: “The Board determines, after considering the report and recommendations of the applicable regional advisory council, which areas or communities in Alaska are non-rural” The Council stated that this modification is necessary to prevent the Board from adopting proposals contrary to the recommendation(s) of a Council and that this change would increase transparency and prevent rural communities from being subject to the whims of proponents.

Kodiak/Aleutians Subsistence Regional Advisory Council—is generally appreciative that the Board has recommended changes to the rural determination process and supported elimination of the decennial review. The Council recommended that the Board implement definitive guidelines for how the Board will make nonrural determinations to avoid subjective interpretations and determinations; that the language of the proposed rule be modified to require the Board to defer to the Councils and to base its justification for not giving deference on defined criteria to avoid ambiguous decisions; that the Board provide program staff with succinct direction for conducting analyses on any proposals to change a community’s status from rural to nonrural; and that the Board develop written policies and guidelines for making nonrural determinations even if there is a lack of criteria in the regulations. The Council is concerned that proposals to change rural status in the region will be frequently submitted from people or entities from outside the region; the Council is opposed to

proposals of this nature from outside its region and recommends that the Board develop guidelines and restrictions for the proposal process that the Board uses to reassess nonrural status.

Eastern Interior Alaska Subsistence Regional Advisory Council—opposed the proposed rule due to the lack of any guiding criteria to determine what is rural or nonrural. They stated the lack of criteria could serve to weaken the rural determination process. They supported greater involvement of the Councils in the Board’s process to make rural/nonrural determinations. This Council was concerned about changes including increasing developments, access pressure on rural subsistence communities and resources, and social conflicts in the Eastern Interior region.

A total of 90 substantive comments were submitted from public meetings, letters, deliberations of the Councils, and those submitted via www.regulations.gov.

- 54 supported the proposed rule;
- 16 neither supported nor opposed the proposed rule;
- 7 supported the proposed rule with modifications;
- 7 neither supported nor opposed the proposed rule and suggested modifications; and
- 6 opposed the proposed rule.

Major comments from all sources are addressed below:

Comment: The Board should provide, in regulatory language, objective criteria, methods, or guidelines for making nonrural determinations.

Response: During the request for public comment (77 FR 77005; December 31, 2012), the overwhelming response from the public was dissatisfaction with the list of regulatory guidelines used to make rural determinations. The Board, at their April 17, 2014, public meeting, stated that if the Secretaries approved the recommended simplification of the rural determination process, the Board would make nonrural determinations using a comprehensive approach that considers, but is not limited to, population size and density, economic indicators, military presence, industrial facilities, use of fish and wildlife, degree of remoteness and isolation, and any other relevant material, including information provided by the public. The Board also indicated that they would rely heavily on the recommendations of the Subsistence Regional Advisory Councils. The Board, at their July 28, 2015, public work session, directed that a subcommittee be established to draft options (policy or rulemaking) to address future rural determinations. The subcommittee options, once reviewed

by the Board at their January 12, 2016, public meeting will be presented to the Councils for their review and recommendations.

Comment: The Board should give deference to the Regional Advisory Councils on nonrural determinations and place this provision in regulatory language.

Response: The Board expressed during its April 2014 and July 2015 meetings that it intends to rely heavily on the recommendations of the Councils and that Council input will be critical in addressing regional differences in the rural determination process. Because the Board has confirmed that Councils will have a meaningful and important role in the process, a change to the regulatory language is neither warranted nor necessary at the present time.

Comment: Establish a timeframe for how often proposed changes may be submitted.

Response: During previous public comment periods, the decennial review was widely viewed to be unnecessary, and the majority of comments expressed the opinion that there should not be a set timeframe used in this process. The Board has been supportive of eliminating a set timeframe to conduct nonrural determinations. However, this issue may be readdressed in the future if a majority of the Councils support the need to reestablish a nonrural review period.

Comment: Redefine “rural” to allow nonrural residents originally from rural areas to come home and participate in subsistence activities.

Response: ANILCA and its enacting regulations clearly state that you must be an Alaska resident of a rural area or community to take fish or wildlife on public lands. Any change to that definition is beyond the scope of this rulemaking.

Comment: Develop a policy for making nonrural determinations, including guidance on how to analyze proposed changes.

Response: The Board, at their July 28, 2015, public work session, directed that a subcommittee be established to draft options (policy or rulemaking) to address future rural determinations that, once completed, will be presented to the Councils for their review and recommendations.

Comment: Allow rural residents to harvest outside of the areas or communities of residence.

Response: All rural Alaskans may harvest fish and wildlife on public lands unless there is a customary and traditional use determination that identifies the specific community’s or area’s use of particular fish stocks or

wildlife populations or if there is a closure.

Rule Promulgation Process and Related Rulemaking

These final regulations reflect Secretarial review and consideration of Board and Council recommendations, Tribal and Alaska Native Corporations government-to-government tribal consultations, and public comments. The public received extensive opportunity to review and comment on all changes.

Because this rule concerns public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical text will be incorporated into 36 CFR part 242 and 50 CFR part 100.

Elsewhere in today's **Federal Register** is a direct final rule by which the Board is revising the list of rural determinations in subpart C of 36 CFR part 242 and 50 CFR part 100. See "Subsistence Management Regulations for Public Lands in Alaska; Rural Determinations, Nonrural List" in Rules and Regulations.

Conformance With Statutory and Regulatory Authorities

Administrative Procedure Act Compliance

The Board has provided extensive opportunity for public input and involvement in compliance with Administrative Procedure Act requirements, including publishing a proposed rule in the **Federal Register**, participation in multiple Council meetings, and opportunity for additional public comment during the Board meeting prior to deliberation. Additionally, an administrative mechanism exists (and has been used by the public) to request reconsideration of the Secretaries' decision on any particular proposal for regulatory change (36 CFR 242.18(b) and 50 CFR 100.18(b)). Therefore, the Secretaries believe that sufficient public notice and opportunity for involvement have been given to affected persons regarding this decision. In addition, because the direct final rule that is mentioned above and is related to this final rule relieves restrictions for many Alaskans by allowing them to participate in the subsistence program activities, we believe that we have good cause, as required by 5 U.S.C. 553(d), to make this rule effective upon publication.

National Environmental Policy Act Compliance

A Draft Environmental Impact Statement that described four

alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. The Final Environmental Impact Statement (FEIS) was published on February 28, 1992. The Record of Decision (ROD) on Subsistence Management for Federal Public Lands in Alaska was signed April 6, 1992. The selected alternative in the FEIS (Alternative IV) defined the administrative framework of an annual regulatory cycle for subsistence regulations.

A 1997 environmental assessment dealt with the expansion of Federal jurisdiction over fisheries. The Secretary of the Interior, with concurrence of the Secretary of Agriculture, determined that expansion of Federal jurisdiction does not constitute a major Federal action significantly affecting the human environment and, therefore, signed a Finding of No Significant Impact.

Section 810 of ANILCA

An ANILCA section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final section 810 analysis determination appeared in the April 6, 1992, ROD and concluded that the Program, under Alternative IV with an annual process for setting subsistence regulations, may have some local impacts on subsistence uses, but will not likely restrict subsistence uses significantly.

Paperwork Reduction Act

An agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. This rule does not contain any new collections of information that require OMB approval. OMB has reviewed and approved the collections of information associated with the subsistence regulations at 36 CFR part 242 and 50 CFR part 100, and assigned OMB Control Number 1018-0075, which expires February 29, 2016.

Regulatory Planning and Review (Executive Orders 12866 and 13563)

Executive Order 12866 provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget will review all

significant rules. OIRA has determined that this rule is not significant.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. In general, the resources to be harvested under this rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, we estimate that two million pounds of meat are harvested by subsistence users annually and, if given an estimated dollar value of \$3.00 per pound, this amount would equate to about \$6 million in food value Statewide. Based upon the amounts and values cited above, the Departments certify that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Small Business Regulatory Enforcement Fairness Act

Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Executive Order 12630

Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this Program is limited by definition to certain public lands. Likewise, these regulations have no potential takings of private property implications as defined by Executive Order 12630.

Unfunded Mandates Reform Act

The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation of this rule is by Federal agencies, and there is no cost imposed on any State or local entities or tribal governments.

Executive Order 12988

The Secretaries have determined that these regulations meet the applicable standards provided in sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

Executive Order 13132

In accordance with Executive Order 13132, the rule does not have sufficient Federalism implications to warrant the preparation of a Federalism summary impact statement. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands unless it meets certain requirements.

Executive Order 13175

Title VIII of ANILCA does not provide specific rights to tribes for the subsistence taking of wildlife, fish, and shellfish. However, the Secretaries, through the Board, provided Federally recognized Tribes and Alaska Native corporations opportunities to consult on this rule. Consultation with Alaska Native corporations are based on Public Law 108–199, div. H, Sec. 161, Jan. 23, 2004, 118 Stat. 452, as amended by Public Law 108–447, div. H, title V, Sec. 518, Dec. 8, 2004, 118 Stat. 3267, which provides that: “The Director of the Office of Management and Budget and all Federal agencies shall hereafter consult with Alaska Native corporations on the same basis as Indian tribes under Executive Order No. 13175.”

The Secretaries, through the Board, provided a variety of opportunities for consultation: Commenting on proposed changes to the existing rule; engaging in dialogue at the Council meetings; engaging in dialogue at the Board’s meetings; and providing input in

person, by mail, email, or phone at any time during the rulemaking process.

On March 23 and 24, 2015, the Board provided Federally recognized Tribes and Alaska Native Corporations a specific opportunity to consult on this rule. Federally recognized Tribes and Alaska Native Corporations were notified by mail and telephone and were given the opportunity to attend in person or via teleconference.

Executive Order 13211

This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. However, this rule is not a significant regulatory action under E.O. 13211, affecting energy supply, distribution, or use, and no Statement of Energy Effects is required.

Drafting Information

Theo Matuskowitz drafted these regulations under the guidance of Eugene R. Peltola, Jr. of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Additional assistance was provided by

- Daniel Sharp, Alaska State Office, Bureau of Land Management;
- Mary McBurney, Alaska Regional Office, National Park Service;
- Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs;
- Trevor T. Fox, Alaska Regional Office, U.S. Fish and Wildlife Service; and
- Thomas Whitford, Alaska Regional Office, U.S. Forest Service.

Authority

This rule is issued under the authority of Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126).

List of Subjects*36 CFR Part 242*

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

50 CFR Part 100

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

Regulation Promulgation

For the reasons set out in the preamble, the Secretaries amend 36 CFR part 242 and 50 CFR part 100 as set forth below.

**PART ____—SUBSISTENCE
MANAGEMENT REGULATIONS FOR
PUBLIC LANDS IN ALASKA**

- 1. The authority citation for both 36 CFR part 242 and 50 CFR part 100 continues to read as follows:

Authority: 16 U.S.C. 3, 472, 551, 668dd, 3101–3126; 18 U.S.C. 3551–3586; 43 U.S.C. 1733.

Subpart B—Program Structure

- 2. In subpart B of 36 CFR part 242 and 50 CFR part 100, § ____ .15 is revised to read as follows:

§ ____ .15 Rural determination process.

(a) The Board determines which areas or communities in Alaska are nonrural. Current determinations are listed at § ____ .23.

(b) All other communities and areas are, therefore, rural.

Dated: Oct. 28, 2015.

Sally Jewell,

Secretary of the Interior.

Dated: Sept. 30, 2015.

Beth G. Pendleton,

Regional Forester, USDA—Forest Service.

AGENCY****40 CFR Parts 52 and 81**

[EPA–R04–OAR–2014–0904; FRL–9936–55–Region 4]

**Air Plan Approval and Air Quality
Designation; TN; Reasonably Available
Control Measures and Redesignation
for the TN Portion of the Chattanooga
1997 Annual PM_{2.5} Nonattainment Area**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving the portion of a State Implementation Plan (SIP) revision submitted by the State of Tennessee, through the Tennessee Department of Environment and Conservation (TDEC), on October 15, 2009, that addresses reasonably available control measures (RACM), including reasonably available control technology (RACT), for the Tennessee portion of the Chattanooga, TN-GA-AL nonattainment area for the 1997 fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS) (hereinafter referred to as the “Chattanooga TN-GA-AL Area” or
