Needs and Uses: The information collection requirement is necessary to obtain the TRICARE beneficiary's personal information needed to: (1) Complete his/her enrollment into TRICARE Prime health plan, (2) change the beneficiary's enrollment (new Primary Care Manager, enrolled region, add/drop a dependent, etc.), or (3) disenroll the beneficiary. All TRICARE beneficiaries have the option of enrolling, changing their enrollment or dis-enrolling using the DD Form 2876, the Beneficiary Web Enrollment (BWE) portal, or by calling their regional Managed Care Support Contractor (MCSC). Although the telephonic enrollment/change is the preferred method by the large majority of beneficiaries, many beneficiaries prefer using the form to document their enrollment date and preferences.

Annual Burden Hours: 74,017.

Number of Respondents: 148,033.

Responses per Respondent: 1.

Average Burden per Response: 30 minutes.

Respondents are TRICARE beneficiaries choosing to enroll in TRICARE Prime for the first time, change their current enrollment, or disenroll using the DD Form 2876, instead of using the BWE web portal or calling their Managed Care Support Contractor. The completed form is used by the TRICARE Managed Care Support Contractors to formally update the enrollment, enrollment change or disenrollment. The beneficiary is notified via email or postcard, which refers them to the MilConnect Web site to confirm the enrollment/change. A beneficiary can also call their Managed Care Support Contractor to confirm the change.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the capability of a NATO ally. France is a major political and economic power in Europe and a key democratic partner of the United States in ensuring peace and stability around the world. It is vital to the U.S. national interest to assist France to develop and maintain a strong and ready self-defense capability.

The additional missiles will meet France's operational requirements for a precision guided tactical missile for its Tigre Attack Helicopter. The purchase will directly support French forces actively engaged in operations in Mali and Northern Africa, providing them the capability to successfully engage targets with minimal collateral damage. France will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no principal contractor for this sale as the missiles are coming from U.S. Army stock. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in France.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
