

operations include direct certification, the submission of household size and income applications for school meal/milk benefits, record maintenance, and public notification. The information collection burden associated with this revision is summarized in the chart below. The difference in burden is mainly due to updating the number of participating school food authorities and local educational agencies and the number of households having to submit an application. All of the reporting and recordkeeping requirements associated with this information collection are

currently approved by the Office of Management and Budget and are in force. This is a revision of the currently approved information collection.

Summer Food Service Program 2016 Reimbursement Rates

AGENCY: Food and Nutrition Service, USDA.
ACTION: Notice.

SUMMARY: This notice informs the public of the annual adjustments to the reimbursement rates for meals served in

the Summer Food Service Program for Children. These adjustments address changes in the Consumer Price Index, as required under the Richard B. Russell National School Lunch Act. The 2016 reimbursement rates are presented as a combined set of rates to highlight simplified cost accounting procedures. The 2016 rates are also presented individually, as separate operating and administrative rates of reimbursement, to show the effect of the Consumer Price Index adjustment on each rate.

DATES: *Effective Date:* January 1, 2016.
FOR FURTHER INFORMATION CONTACT: Steve Hortin, Program Monitoring and Operational Support Division, Child Nutrition Programs, Food and Nutrition Service, United States Department of Agriculture, 3101 Park Center Drive,

Suite 628, Alexandria, Virginia 22302; 703-305-4375.

SUPPLEMENTARY INFORMATION: The Summer Food Service Program (SFSP) is listed in the Catalog of Federal Domestic Assistance under No. 10.559 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See, 2 CFR part 415 and final rule-related notice published at 48 FR 29114, June 24, 1983.)

In accordance with the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3518, no new recordkeeping or reporting requirements have been included that are subject to approval from the Office of Management and Budget.

This notice is not a rule as defined by the Regulatory Flexibility Act, 5 U.S.C. 601–612, and thus is exempt from the provisions of that Act. Additionally, this notice has been determined to be exempt from formal review by the Office of Management and Budget under Executive Order 12866.

Definitions

The terms used in this notice have the meaning ascribed to them under 7 CFR part 225 of the SFSP regulations.

Background

This notice informs the public of the annual adjustments to the reimbursement rates for meals served in SFSP. In accordance with sections 12(f) and 13, 42 U.S.C. 1760(f) and 1761, of the Richard B. Russell National School Lunch Act (NSLA) and SFSP regulations under 7 CFR part 225, the United States Department of Agriculture announces the adjustments in SFSP payments for meals served to participating children during calendar year 2016.

The 2016 reimbursement rates are presented as a combined set of rates to highlight simplified cost accounting

procedures. Reimbursement is based solely on a “meals times rate” calculation, without comparison to actual or budgeted costs.

Sponsors receive reimbursement that is determined by the number of reimbursable meals served, multiplied by the combined rates for food service operations and administration. However, the combined rate is based on separate operating and administrative rates of reimbursement, each of which is adjusted differently for inflation.

Calculation of Rates

The combined rates are constructed from individually authorized operating and administrative reimbursements. Simplified procedures provide flexibility, enabling sponsors to manage their reimbursements to pay for any allowable cost, regardless of the cost category. Sponsors remain responsible, however, for ensuring proper administration of the Program, while providing the best possible nutrition benefit to children.

The operating and administrative rates are calculated separately.

However, the calculations of adjustments for both cost categories are based on the same set of changes in the *Food Away From Home* series of the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics of the United States Department of Labor. They represent a 2.7 percent increase in this series for the 12-month period, from November 2014 through November 2015 (from 251.987 in November 2014 to 258.805 in November 2015).

Table of 2016 Reimbursement Rates

Presentation of the 2016 maximum per meal rates for meals served to children in SFSP combines the results from the calculations of operational and administrative payments, which are further explained in this notice. The total amount of payments to State agencies for disbursement to SFSP sponsors will be based upon these adjusted combined rates and the number of meals of each type served. These adjusted rates will be in effect from January 1, 2016 through December 31, 2016.

Operating Rates

The portion of the SFSP rates for operating costs is based on payment

amounts set in section 13(b)(1) of the NSLA, 42 U.S.C. 1761(b)(1). They are rounded down to the nearest whole

cent, as required by section 11(a)(3)(B)(iii) of the NSLA, 42 U.S.C. 1759a(a)(3)(B)(iii).

Forest Service

Rocky Mountain Region; Grand Mesa, Uncompahgre and Gunnison National Forests; Grand Valley Ranger District; Mesa County, Colorado; Enlargement of Monument No. 1 and Hunter Reservoirs

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare a supplemental draft environmental impact statement.

SUMMARY: The Grand Mesa, Uncompahgre and Gunnison National Forests (GMUG) intends to prepare a Supplement to the June 2007 Draft Environmental Impact Statement (DEIS) for the Hunter Reservoir Enlargement to also include enlargement of the Monument No. 1 Reservoir in the Proposed Action. The original notice of intent (NOI) for the Hunter Reservoir Enlargement was published in 70 FR 61781 on October 26, 2005; and the notice of availability (NOA) was published in 72 FR 39808 on July 20, 2007. Both reservoirs are owned by the Ute Water Conservancy District (Ute Water) and are located on National Forest System (NFS) lands in the Leon Creek watershed in the eastern portion of Mesa County, Colorado.

DATES: Comments concerning the expanded scope of the analysis must be received by February 12, 2016. The supplemental DEIS is expected to be released in April 2016 for comment and the final environmental impact statement is expected in October 2016.

ADDRESSES: Send written comments to Ute Water Reservoir Enlargement Projects, Grand Valley Ranger District, 2777 Crossroads Boulevard, Unit 1,

Grand Junction, CO 81506. Comments may also be sent via email to *comments-rocky-mountain-gmug-grande-valley@fs.fed.us*, or via facsimile to 970-263-5819.

FOR FURTHER INFORMATION CONTACT: Linda Bledsoe, Project Manager, at 970-263-5802 or via email at *lbledsoe@fs.fed.us*. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: A DEIS analyzing effects from the enlargement of Hunter Reservoir was issued in 2007. In 2009, Ute Water acquired the rights to Monument No. 1 Reservoir and subsequently commissioned a raw water study to be completed to analyze all of its water rights (storage and flow), how those rights are currently used and what additional rights or facilities might be needed in order for Ute Water to have sufficient water to meet increased municipal water demands for the next several decades. That study identified the need for additional high mountain storage, especially during times of drought. In February 2012, Ute Water submitted a proposal for the enlargement of Monument No. 1 Reservoir to be considered along with the enlargement of Hunter Reservoir.

With new alternatives and additional information brought forward, as well as the length of time that has passed since issuance of the DEIS in 2007, the Forest Service has determined that a supplemental draft environmental impact statement (SDEIS) that included both reservoir enlargement proposals was appropriate (FSH 1905.18.2, Chapter 10).

Purpose and Need for Action

The purpose and need for the Forest Service action on the Monument No. 1 and Hunter Reservoirs enlargement project is to respond to a request by the Ute Water Conservancy District for special use permits to expand the dams for these two reservoirs, which were

submitted under the Forest Service's special use regulations (36 CFR 251.54).

Ute Water has proposed these expansions to meet the need for projected municipal water demand. Over the next 30 years, demand is expected to increase by about two and a half times the current amount of 14,300 acre-feet (AF). The Proposed Action is one of several actions that Ute Water has indicated it will need to meet its future demand for municipal water in its service area. Those actions include, but are not limited to, acquiring new water rights, perfecting existing water rights, and upgrading Ute's Colorado River pumping capacity and water treatment plant.

Proposed Action

Under the Proposed Action, the Forest Service would authorize the use of NFS lands by Ute Water to enlarge the existing Monument No. 1 and Hunter Reservoirs by increasing the size and height of the dams and spillways, along with the activities associated with those enlargements.

The reservoirs are located in Mesa County, Colorado, about 15 miles southeast of Collbran, Colorado. Hunter Reservoir is located in Section 27, T. 11 S., R. 93 W., 6th P.M. Monument No. 1 Reservoir is located in Sections 11 and 12, T. 11 S., R. 93 W., 6th P.M.

Construction associated with the Proposed Action would likely begin with the roads and trails, including necessary relocations, in advance of dam construction activities.

Both reservoirs hold irrigation water rights and are operated as irrigation reservoirs, meaning that the reservoirs fill each year and are typically drained in the summer after runoff has ended in order to irrigate the ranches below the forest boundary that have historically used the water. Depending on the amount of snowpack, the reservoirs fill during spring and early summer; and the water is stored in the reservoirs until later in the summer when the water is needed to irrigate the ranches or when a senior water rights holder places a call on the stream. The reservoirs are
