**SUPPLEMENTARY INFORMATION:** The

 revised, and continuing collections of  
 information. This helps the Department  
 assess the impact of its information  
 collection requirements and minimize  
 the public’s reporting burden. It also  
 helps the public understand the  
 Department’s information collection  
 requirements and provide the requested  
 data in the desired format. ED is  
 soliciting comments on the proposed  
 information collection request (ICR) that  
 is described below. The Department of  
 Education is especially interested in  
 public comment addressing the  
 following issues: (1) Is this collection

necessary to the proper functions of the  
 Department; (2) will this information be  
 processed and used in a timely manner;  
 (3) is the estimate of burden accurate;  
 (4) how might the Department enhance  
 the quality, utility, and clarity of the

 might the Department minimize the  
 burden of this collection on the

 response to this notice will be

*Title of Collection:* Parent Information  
 and School Choice Evaluation.

*OMB Control Number:* 1850-NEW.

*Type of Review:* A new information  
 collection.

*Respondents/Affected Public:*  
 Individuals or Households.

*Total Estimated Number of Annual  
 Responses:* 3,525.

*Total Estimated Number of Annual  
 Burden Hours:* 2,306.

*Abstract:* Sponsored by the Institute  
 of Education Sciences (IES), U.S.  
 Department of Education, the Parent  
 Information and School Choice  
 Evaluation (PISCE) is an important first  
 step toward filling the wide gap in  
 knowledge about how to present school  
 choice information to parents. This  
 research is needed to provide guidance  
 to districts where school choice is  
 expanding. PISCE seeks to identify the  
 format, amount, and organization of  
 information that is most comprehensible  
 and usable to parents. The study will  
 target low-income parents of school-age  
 children and will evaluate perceptions  
 of different presentations of school  
 information. The results of the study  
 will be used to create a reader-friendly  
 guide for school districts.

IES has contracted with Mathematica  
 Policy Research to conduct the needed  
 research. Most of the experiment will be  
 conducted with members of a standing  
 panel who already complete surveys on  
 a regular basis for a variety of purposes.  
 This approach provides a low-cost and  
 quick turnaround method to obtain  
 findings related to the understandability  
 of school choice information, which  
 does not require respondents to be  
 making actual school choices for their  
 children. To enhance what can be  
 learned from the standing panel, the  
 research team also intends to recruit a  
 sample of low-income parents of school-  
 age children from locations where a  
 public school choice marketplace with  
 unified enrollment has been active for at  
 least two years. Parents who have  
 experienced public school choice or are  
 at least exposed to open enrollment in  
 their district may experience the  
 experiment differently than the standing
