BILLING CODE 3510-33-P

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 117**

[Docket No. USCG-2016-0135]

Drawbridge Operation Regulation; Lake Washington Ship Canal, Seattle, WA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Montlake Bridge across the Lake Washington Ship

Canal, mile 5.2, at Seattle, WA. The deviation is necessary to accommodate a bike ride by the Cascade Bicycle Club. This deviation allows the bridge to remain in the closed-to-navigation position to allow for the safe movement of event participants.

DATES: This deviation is effective from 7 a.m. on April 2, 2016 to 12:30 p.m. on April 3, 2016.

ADDRESSES: The docket for this deviation, [USCG-2016-0135] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District; telephone 206-220-7282, email d13-pf-d13bridges@uscg.mil.

SUPPLEMENTARY INFORMATION: The Washington State Department of Transportation requested permission for the Montlake Bridge across the Lake Washington Ship Canal to remain in the closed-to-navigation position to facilitate the safe, uninterrupted roadway passage of event participants. The deviation is necessary to accommodate the grand opening of the new Evergreen Point Floating Bridge bike ride by the Cascade Bicycle Club. The Montlake Bridge in the closed position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to the Mean Water Level of Lake Washington. The deviation period is from 7 a.m. to 6 p.m. on April 2, 2016, and from 6:30 a.m. to 12:30 p.m. on April 3, 2016. The normal operating schedule for the Montlake Bridge operates in accordance with 33 CFR 117.1051(e).

Waterway usage on the Lake Washington Ship Canal ranges from commercial tug and barge to small pleasure craft. Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open for emergencies. The Lake Washington Ship Canal has no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 23, 2016.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 117**

[Docket No. USCG-2016-0139]

Drawbridge Operation Regulation; Long Creek & Sloop Channel, Hempstead, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Loop Parkway Bridge, mile 0.7, across Long Creek, and the Meadowbrook State Parkway Bridge, mile 12.8, across Sloop Channel, both at Hempstead, New York. This temporary deviation is necessary to facilitate the Dee Snider's Motorcycle Ride to Fight Hunger on Long Island.

DATES: This deviation is effective from 11 a.m. to 1 p.m. on September 18, 2016.

ADDRESSES: The docket for this deviation, [USCG-2016-0139] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Ms. Judy K. Leung-Yee, Project Officer, First Coast Guard District, telephone (212) 514-4330, email judy.k.leung-ye@uscg.mil.

SUPPLEMENTARY INFORMATION:

Long Island Cares, Inc. requested and the bridge owner for both bridges, the State of New York Department of Transportation, concurred with this temporary deviation from the normal operating schedule to facilitate a public event, the Dee Snider's Motorcycle Ride to Fight Hunger.

The Loop Parkway Bridge, mile 0.7, across Long Creek has a vertical clearance in the closed position of 21

feet at mean high water and 25 feet at mean low water. The existing bridge operating regulations are found at 33 CFR 117.799(f).

The Meadowbrook State Parkway Bridge, mile 12.8, across Sloop Channel has a vertical clearance in the closed position of 22 feet at mean high water and 25 feet at mean low water. The existing bridge operating regulations are found at 33 CFR 117.799(h).

Long Creek and Sloop Channel are transited by commercial fishing and recreational vessel traffic.

Under this temporary deviation, the Loop Parkway and the Meadowbrook State Parkway Bridges may remain in the closed position between 11 a.m. and 1 p.m. on September 18, 2016.

Vessels able to pass under the bridge in the closed position may do so at any time. The bridges will not be able to open for emergencies and there are no immediate alternate routes for vessels to pass.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 23, 2016.

C.J. Bisignano,

*Supervisory Bridge Management Specialist,
First Coast Guard District.*

BILLING CODE 9110-04-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

Atlantic Ocean South of Entrance to Chesapeake Bay Off Camp Pendleton, Virginia; Firing Range

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Final rule.

SUMMARY: The Corps of Engineers is establishing a permanent danger zone in waters of the Atlantic Ocean south of Rudee Inlet in Virginia Beach, Virginia. The Camp Pendleton firing range supports a myriad of stakeholders that include all components of the

Department of Defense, including: U.S. Army, Army National Guard, Army Reserve, U.S. Navy, Navy Reserve, U.S. Marine Corps, U.S. Marine Corps Reserve, U.S. Air Force, Air Force National Guard, Air Force Reserve, U.S. Coast Guard, and the U.S. Coast Guard Reserve, as well as many non-Department of Defense units. Camp Pendleton, VA will provide an economical, safe training environment for individual live fire exercises, and collective units to conduct the minimum requirements for weapons qualification. The danger zone will increase the level of safety to the public in the vicinity of the live firing operations by providing additional notice of the hazards present.

DATES: *Effective date:* March 30, 2016.

ADDRESSES: U.S. Army Corps of Engineers, Attn: CECW-CO (David Olson), 441 G Street NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. David Olson, Headquarters, Operations and Regulatory Community of Practice, Washington, DC at 202-761-4922, or Ms. Nicole Woodward, Corps of Engineers, Norfolk District, Regulatory Branch, at 757-201-7122.

SUPPLEMENTARY INFORMATION: The proposed rule was published in the June 22, 2015, edition of the **Federal Register** (80 FR 35621) and the regulations.gov docket number was COE-2015-0006. In response to the proposal, three comments were received. The comments received from the Virginia Department of Historic Resources and Virginia Department of Conservation and Recreation stated that the proposed rule will have no adverse effect on historic properties and no adverse impacts on natural heritage resources. In addition, a comment was received in response to the proposal in the **Federal Register** objecting to the creation of a firing range and the environmental effects associated with it. This action is the establishment of a danger zone at an existing firing range which has been in use for the last century, therefore no new environmental impacts are proposed as a result of the action.

In response to a request by the United States Navy, and pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3), the Corps of Engineers is amending 33 CFR part 334 for a permanent danger zone, in waters of the Atlantic Ocean south of Rudee Inlet in Virginia Beach, Virginia. The establishment of a permanent danger zone is necessary to protect the public

from hazards associated with live firing operations.

Administrative Requirements

a. Review under Executive Order 12866. This rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review under the Regulatory Flexibility Act. This final rule has been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354). The Regulatory Flexibility Act generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice-and-comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities (*i.e.*, small businesses and small governments). The danger zone is necessary to protect public safety and satisfy Department of Defense and other government agency requirements for small arms training. Small entities can utilize navigable waters outside of the danger zone when the danger zone is activated. After considering the economic impacts of this final danger zone regulation on small entities, I certify that this action will not have a significant impact on a substantial number of small entities.

c. Review under the National Environmental Policy Act. This rule will not have a significant impact to the quality of the human environment and, therefore, preparation of an environmental impact statement is not required. An environmental assessment has been prepared. It may be reviewed at the District office listed at the end of the **FOR FURTHER INFORMATION CONTACT** section, above.

d. Unfunded Mandates Act. This rule does not impose an enforceable duty among the private sector and, therefore, is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Reform Act (Public Laws 104-4, 109 Stat. 48, 2 U.S.C. 1501 *et seq.*). We have also found under Section 203 of the Act, that small governments will not be significantly or uniquely affected by this rule.

List of Subjects in 33 CFR Part 334

Danger zones, Marine safety, Navigation (water), Restricted areas, Waterways.

For the reasons set out in the preamble, the Corps amends 33 CFR part 334 as follows:
