

1980s, this independent review function has been performed by the Clean Air Scientific Advisory Committee (CASAC).

Presently, the EPA is reviewing the criteria and the primary and secondary NAAQS for PM.¹ The draft IRP being announced today has been developed as part of the planning phase for the review. This phase began with a science policy workshop to identify issues and questions to frame the review.² Drawing from the workshop discussions, the draft IRP was prepared jointly by the EPA's National Center for Environmental Assessment, within the Office of Research and Development, and the EPA's Office of Air Quality Planning and Standards, within the Office of Air and Radiation. The draft IRP presents the current plan and specifies the anticipated schedule for the entire review, the process for conducting the review, and the key policy-relevant science issues that will guide the review. The draft IRP will be reviewed by CASAC at a teleconference on May 23, 2016.³ The final IRP will include consideration of CASAC advice and public comments received on the draft IRP.

Dated: April 14, 2016.

- *Erratum*, AU Docket No. 14-252, GN Docket No. 12-268, WT Docket No. 12-269, DA 16-224, released on March 4, 2016, to correct Appendix C and Appendix G of the *Auction 1000 Application Procedures Public Notice*, AU Docket No. 14-252, GN Docket No. 12-268, WT Docket No. 12-269, DA 15-1183, released October 15, 2015.

The complete texts of the *Public Notices* and *Erratum* are available for public inspection and copying from 8:00 a.m. to 4:30 p.m. ET Monday through Thursday or from 8:00 a.m. to 11:30 a.m. ET on Fridays in the FCC Reference Information Center, 445 12th Street SW., Room CY-A257, Washington, DC 20554. The complete texts are also available on the Commission's Web site at <http://www.fcc.gov>,

www.fcc.gov, the Auction 1000 Web site at <http://www.fcc.gov/auctions/1000>, or by using the search function on the ECFS Web page at <http://www.fcc.gov/cgb/ecfs/>. Alternative formats are available to persons with disabilities by sending an email to FCC504@fcc.gov or by calling the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

The *File Formats for Reverse Auction Public Notice* announces the release of specifications for the data file formats in which information related to the results of bidding in Auction 1001 will be made available to qualified bidders via the Auction System. The Public Notice also announces the release of sample data files pertaining to a hypothetical reverse auction bidder's stations, bids, and the results of its bidding. The specifications and sample data files, which are for illustrative purposes only, are available on the Auction 1001 Web site (www.fcc.gov/auctions/1001) in the Data section.

The *File Formats for Forward Auction Clock Phase Public Notice* provides specifications for the data file formats in which information related to the results of bidding in the clock phase of Auction 1002 will be made available to qualified bidders via the Auction System. Sample data files, which are for illustrative purposes only, are available on the Auction 1002 Web site (www.fcc.gov/auctions/1002) in the Data section.

The *File Formats for Forward Auction Assignment Phase Public Notice* announces the release of specifications for the data file formats in which information related to the results of bidding in the assignment phase of Auction 1002 will be made available to qualified bidders via the Auction System. Both the specifications and sample data files, which are for illustrative purposes only, are available on the Auction 1002 Web site (www.fcc.gov/auctions/1002) in the Data section.

The *Updated File Formats for Forward Auction Clock Phase and Additional Impairment Data Downloads Public Notice* announces the availability of updated data file formats and sample data files for the clock phase of Auction 1002. For those data files that are populated on a round-to-round basis, there will be a separate download file for each round of the auction rather than a file containing cumulative data for all rounds. The *Public Notice* also announces that a bid upload feature will be available to forward auction bidders in all rounds of the auction rather than just the initial round of the auction. Finally, the *Public Notice* announces the

FEDERAL COMMUNICATIONS COMMISSION

[DA 16-336]

Final Notice of Intent To Terminate Authorization of JuBe, Communications, LLC

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the International Bureau affords JuBe Communications, LLC (JuBe) final notice and opportunity to respond to the December 23, 2015 letter submitted by the Department of Justice, with the concurrence of the Department of Homeland Security and the Federal Bureau of Investigation (collectively the “Executive Branch agencies”) requesting that the FCC terminate, and declare null and void and no longer in effect and/or revoke the international section 214 authorization issued to JuBe under file number ITC-214-20070607-00218.

DATES: Submit comments on or before May 4, 2016.

ADDRESSES: The Bureau is serving a copy on JuBe by certified mail, return receipt requested, at the last address of record appearing in Commission

records. JuBe should send its response to Denise Coca, Chief, Telecommunications and Analysis Division, International Bureau via email at Denise.Coca@fcc.gov and to Cara Grayer, Telecommunications and Analysis Division, International Bureau at Cara.Grayer@fcc.gov and file it in File No. ITC-214-20070607-00218 via IBFS at <http://licensing.fcc.gov/myibfs/pleading.do>.

FOR FURTHER INFORMATION CONTACT: Cara Grayer, Telecommunications and Analysis Division, International Bureau, at (202) 418-2960 or Cara.Grayer@fcc.gov.

SUPPLEMENTARY INFORMATION: In the Executive Branch Dec. 23, 2015 Letter, the Executive Branch agencies state that they have reason to believe that JuBe may be dissolved and no longer providing service. As a result, the Executive Branch agencies indicate that JuBe is unable to comply with the commitments and undertakings contained in the July 12, 2007 Letter that JuBe entered into with the Executive Branch agencies to address national security and law enforcement concerns. Compliance with these commitments is a condition to the international Section 214 authorization the Commission issued to JuBe on July 27, 2007, and by this notice the Bureau provides final notice to JuBe that it intends to take action to declare JuBe’s international 214 authorization terminated for failure to comply with conditions of its authorization, and further advises that it may refer the matter for enforcement action for non-compliance with the applicable regulatory provisions. On January 19, 2016, the Bureau’s Telecommunications and Analysis Division sent a letter to JuBe at the last known addresses on record via certified, return receipt mail, asking JuBe to respond to the Executive Branch agencies’ allegations by February 18, 2016. The January 19, 2016 letter stated that failure to respond would result in the issuance of an order to terminate JuBe’s international Section 214 authorization. JuBe did not respond to the request.

In addition, the Communications Act of 1934, as amended (the Act) and the Commission’s rules require authorization holders to comply with certain requirements that enable the Commission to contact and communicate with the authorization holder and verify whether the authorization holder is still providing service. JuBe appears to have failed to comply with those requirements. For example, every carrier must designate an agent for service and keep that

information current. See 47 U.S.C. 413; 47 CFR 1.47(h), 64.1195. See also 47 CFR 63.19, 63.21(a), and 63.21(d).

JuBe’s failure to respond to this Public Notice will be deemed as an admission of the facts alleged by the Executive Branch agencies and of the violation of the statutory and rule provisions set out above. The Bureau hereby provides final notice to JuBe that it intends to take action to declare JuBe’s international 214 authorization terminated for failure to comply with conditions of its authorization, and further advises that it may refer the matter for enforcement action for non-compliance with the applicable regulatory provisions. JuBe must respond to this Public Notice no later than 15 days after publication in the **Federal Register**.

The proceeding in this Notice shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules.

Federal Communications Commission.

Chief, Telecommunications & Analysis Division, International Bureau.
