

coordination and integration and funding for integrated services and program successes and challenges) through one-on-one and group interviews with grantees who are part of the MAI-CoC program.

The goal of the MAI-CoC project is to integrate behavioral health treatment, prevention, and HIV and Hepatitis medical care services for racial/ethnic minority populations at high risk for behavioral health disorders who are also at high risk for or living with HIV and Hepatitis. The program also supports other priority populations including men who have sex with men (MSM) and bisexual men, transgender persons, and people with substance use disorder. The program is primarily intended for substance use disorder treatment and community mental health providers to provide coordinated and integrated services through the collocation and/or integration of behavioral health treatment and HIV and Hepatitis

medical care. Interviews conducted with MAI-CoC grantees during the two rounds of site visits are an integral part of evaluation efforts to: (1) Assess the impact of the SAMHSA-funded HIV and Hepatitis programs in: Reducing behavioral health disorders and HIV and Hepatitis infections; increasing access to substance use disorder and mental disorder treatment and care; improving behavioral and mental health outcomes; and reducing HIV and Hepatitis-related disparities; (2) Describe the different integrated behavioral health and medical program models; and (3) Determine which program types or models are most effective in improving behavioral health and clinical outcomes.

Over the four-year project, SAMHSA will conduct two rounds of these in-person site visits (baseline and follow-up) with each of the 34 MAI-CoC program grantees.

SAMHSA will conduct one-on-one and group interviews with MAI-CoC

grantee staff who will provide information on their program's integration of HIV and Hepatitis prevention, medical care, and primary care into behavioral health services. While participating in the evaluation is a condition of the grantees' funding, participating in the interview process is voluntary. The instruments are designed to collect information about: (1) The development and changes in MAI-CoC program operations, staffing, training and programming; (2) the grantee organization, the MAI-CoC program and its structure, the community context surrounding program efforts, and changes that result from MAI-CoC activities; and, (3) the changes in the number or nature of partnerships and collaborations both internal and external to the MAI-CoC program grantee.

### Bureau of Land Management

[LLESM03300.L16100000.DU0000]

#### Notice of Intent To Amend the Land Use Plans for the BLM-Administered Public Lands in Wisconsin and Minnesota and Prepare an Associated Environmental Assessment

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976 (FLPMA), as amended, the Bureau of Land Management (BLM) Northeastern States District, Milwaukee, Wisconsin, intends to prepare amendments for the Wisconsin Resource Management Plan (1985), the Minnesota Management Framework Plan (1982), and the Lake Vermilion Public Islands Coordinated Resource Management Plan (1993) (collectively referred to as Land Use Plans) and an associated Environmental Assessment (EA) for the BLM-administered public lands in Wisconsin and Minnesota, and by this notice is announcing the beginning of the scoping process to solicit public comments and identify issues.

**DATES:** This notice initiates the public scoping process for the Land Use Plan amendments with an associated EA. Comments on issues may be submitted in writing until July 8, 2016. The BLM will hold public meetings pertaining to this proposed Land Use Plan amendment in one community in Minnesota (city of Virginia) and in three Wisconsin communities (cities of Stevens Point, Eau Claire, and Milwaukee). The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local news media, newspapers, and the BLM Web site at: [https://www.blm.gov/epl-front-office/eplanning/lup/lup\\_register.do](https://www.blm.gov/epl-front-office/eplanning/lup/lup_register.do). In order to be included in the analysis, all comments must be received prior to the close of the 30-day scoping period or 15 days after the last public meeting, whichever is later. We will provide additional opportunities for public participation as appropriate.

**ADDRESSES:** You may submit comments on issues and planning criteria related to the Land Use Plan Amendments and Associated EA by any of the following methods:

- *Internet:* [https://www.blm.gov/epl-front-office/eplanning/lup/lup\\_register.do](https://www.blm.gov/epl-front-office/eplanning/lup/lup_register.do).

**SUPPLEMENTARY INFORMATION:** This document provides notice that the BLM Northeastern States District, Milwaukee, Wisconsin, intends to prepare Land Use Plan amendments with an associated EA for the BLM-administered public lands in Wisconsin and Minnesota. This notice announces the beginning of the scoping process and invites public input on issues and planning criteria. The planning area is located in Wisconsin and Minnesota and encompasses approximately 3,636 acres of public land, including approximately 350 islands in Wisconsin, 100 islands in Minnesota, 30 upland parcels in Minnesota, and six upland parcels in Wisconsin. The planning area is covered by three Land Use Plans, including the Wisconsin Resource Management Plan (1985), the Minnesota Management Framework Plan (1982), and the Lake Vermilion Public Islands Coordinated Resource Management Plan (CRMP) (1993). An inventory of wilderness characteristics of the public islands in Wisconsin was published in 1981, and concluded that the public islands in Wisconsin do not meet the criteria for designation as wilderness. Amendments are needed to facilitate a more proactive management approach, in light of new information on resources that are present on the lands in question, notably the presence of cultural resources and sensitive wildlife habitats and plant communities. The purpose of
