

EPA-APPROVED VERMONT REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Explanations
Section 5–309	Nitrogen dioxide	7/5/2014	8/1/2016 [Insert Federal Register citation].	Revision addresses the NO ₂ NAAQS adopted in 2010.
Section 5–310	Lead	7/5/2014	8/1/2016 [Insert Federal Register citation].	Revision addresses the Lead NAAQS adopted in 2008.
* Section 5–401	* Classification of air contaminant sources.	* 2/8/2011	* 8/1/2016 [Insert Federal Register citation].	* Amended the source category for asphalt batch plants.
Section 5–402	Written reports when requested.	2/8/2011	8/1/2016 [Insert Federal Register citation].	
* Section 5–406	* Required air modeling	* 7/5/2014	* 8/1/2016 [Insert Federal Register citation].	* Clarified air dispersion modeling must be done in accordance with 40 CFR part 51, Appendix W.
Section 5–501	Review of construction or modification of air contaminant sources.	7/5/2014	8/1/2016 [Insert Federal Register citation].	Only approving: revisions made to subsections (1) and (5); new provisions (4), and (6) even though existing subsection 4 and 6 will remain in the SIP; and new introductory text in subsection (7), and new text in subsection (7)(c).
Section 5–502	Major stationary sources and major modifications.	7/5/2014	8/1/2016 [Insert Federal Register citation].	Approving only revisions made to subsections (2), (4)(a), (4)(b), (4)(e), and (6)(b) and adding a new subsection (8)(b). Also removing subsection (7)(b). Subsections (7) and (8) both relate to ambient air quality monitoring.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R09–OAR–2016–0262; FRL–9948–10–Region 9]

Approval of California Air Plan Revisions, Placer County Air Pollution Control District and Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve revisions to the Placer County Air Pollution Control District (PCAPCD) and Ventura County Air Pollution Control District (VCAPCD) portions of the California State Implementation Plan (SIP). These revisions concern oxides of nitrogen (NO_x) and carbon monoxide (CO) emissions from stationary gas turbines, boilers, steam generators, and process heaters. We are approving local rules

that regulate these emission sources under the Clean Air Act (CAA or the Act).

DATES: This rule is effective on September 30, 2016 without further notice, unless the EPA receives adverse comments by August 31, 2016. If we receive such comments, we will publish a timely withdrawal in the **Federal Register** to notify the public that this direct final rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–OAR–2016–0262 at <http://www.regulations.gov>, or via email to Andrew Steckel, Rules Office Chief, at Steckel.Andrew@epa.gov. For comments submitted at [Regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.regulations.gov). For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the

official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the Web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Kevin Gong, EPA Region IX, (415) 972 3073, Gong.Kevin@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us,” and “our” refer to the EPA.

- C. EPA Recommendations To Further Improve the Rules
- D. Public Comment and Final Action
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

I. The State's Submittal

A. What rules did the State submit?

Table 1 lists the rules addressed by this action with the dates that they were

adopted by the local air agencies and submitted by the California Air Resources Board.

TABLE 1—SUBMITTED RULES

Local agency	Rule No.	Rule title	Date of local action	Submitted
PCAPCD	250	Stationary Gas Turbines	Amended 10/8/2015	03/11/2016
VCAPCD	74.15.1	Boilers, Steam Generators, and Process Heaters.	Revised 6/23/2015	11/13/2015

On January 19, 2016, the EPA determined that the submittal for VCAPCD Rule 74.15.1 met the completeness criteria in 40 CFR part 51, appendix V, which must be met before formal EPA review. On April 19, 2016, the EPA determined that the submittal for PCAPCD Rule 250 met the completeness criteria.

B. Are there other versions of these rules?

We approved an earlier version of PCAPCD Rule 250 into the SIP on August 23, 1995, in 60 FR 43713, and an earlier version of VCAPCD Rule 74.15.1 into the SIP on May 19, 2014, in 79 FR 28612.

C. What is the purpose of the submitted rule revisions?

NO_x helps produce ground-level ozone, smog and particulate matter (PM), which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control NO_x emissions. PCAPCD Rule 250 and VCAPCD Rule 74.15.1 both limit the emissions of NO_x from their respective source categories. The revisions to PCAPCD Rule 250 include the removal of exemptions for emissions resulting from startup and shutdown operations, and simplification of the emission limits for stationary gas turbines. VCAPCD Rule 74.15.1 updates the testing regime and clarifies several exemptions for boilers, steam generators, and process heaters.

The EPA's technical support documents (TSDs) have more information about these rules.

II. The EPA's Evaluation and Action

A. How is the EPA evaluating the rules?

SIP rules must be enforceable (see CAA section 110(a)(2)), must not interfere with applicable requirements concerning attainment and reasonable further progress or other CAA requirements (see CAA section 110(l)), and must not modify certain SIP control requirements in nonattainment areas without ensuring equivalent or greater

emissions reductions (see CAA section 193).

SIP provisions cannot include exemptions from emission limitations for emissions during startup, shutdown, and malfunction (SSM) events. Thus, in order to be permissible in a SIP, emission limitations must apply continuously, *i.e.*, they cannot include periods during which emissions are legally or functionally exempt from regulation (see CAA sections 110(a)(2) and 302(k)). EPA recently clarified this requirement for periods of startup, shutdown, and malfunction. See *Restatement and Update of EPA's SSM Policy Applicable to SIPs*, 80 FR 33839 (June 12, 2015).

Generally, SIP rules must require reasonably available control technology (RACT) for each major source of NO_x in ozone nonattainment areas classified as moderate or above (see CAA sections 182(b)(2) and 182(f)). PCAPCD regulates an ozone nonattainment area classified as Severe for the 1994 1-hour ozone National Ambient Air Quality Standard (NAAQS), and for the 1997 and 2008 8-hour ozone NAAQS (40 CFR 81.305). VCAPCD also regulates an ozone nonattainment area classified as Severe for the 1994 1-hour ozone NAAQS and for the 1997 and 2008 8-hour ozone NAAQS (40 CFR 81.305). Therefore, PCAPCD Rule 250 and VCAPCD Rule 74.15.1 must both implement RACT as the Districts regulate ozone nonattainment areas classified as Severe.

Guidance and policy documents that we used to evaluate enforceability, revision/relaxation and rule stringency requirements for the applicable criteria pollutants include the following:

1. "State Implementation Plans; General Preamble for the Implementation of Title I of the Clean Air Act Amendments of 1990," (57 FR 13498, April 16, 1992 and 57 FR 18070, April 28, 1992).
2. "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations" ("the Bluebook," U.S. EPA, May 25, 1988; revised January 11, 1990).
3. "Guidance Document for Correcting Common VOC & Other Rule

Deficiencies" ("the Little Bluebook", EPA Region 9, August 21, 2001).

4. "State Implementation Plans; Nitrogen Oxides Supplement to the General Preamble; Clean Air Act Amendments of 1990 Implementation of Title I; Proposed Rule" ("the NO_x Supplement," 57 FR 55620, November 25, 1992).
5. "Alternative Control Techniques Document—NO_x Emissions from Stationary Gas Turbines," (EPA-453/R-93-007), Emissions Standards Division, EPA OAQPS, January 1993.
6. "Control Techniques for Nitrogen Oxides Emissions from Stationary Sources—Second Edition," (EPA-450/1-78-001), January 1978.
7. "Alternative Control Techniques Document—NO_x Emissions from Process Heaters (Revised)," (EPA-453/R93-034), September 1993.
8. "Determination of Reasonably Available Control Technology and Best Available Retrofit Control Technology for Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters," California Air Resources Board RACT/BARCT guidance, July 18, 1991.
9. "Restatement and Update of EPA's SSM Policy Applicable to SIPs," 80 FR 33839, June 12, 2015.

B. Do the rules meet the evaluation criteria?

We believe these rules are consistent with the relevant policy and guidance regarding enforceability, RACT, SIP relaxations, and requirements for emissions that occur during SSM events. The TSDs have more information on our evaluation.

C. EPA Recommendations To Further Improve the Rules

The TSDs describe additional rule revisions that we recommend for the next time the local agency modifies the rules but are not currently the basis for rule disapproval.

D. Public Comment and Final Action

As authorized in section 110(k)(3) of the Act, the EPA is fully approving the submitted rules because we believe they

fulfill all relevant requirements.¹ We do not think anyone will object to this approval, so we are finalizing it without proposing it in advance. However, in the Proposed Rules section of this **Federal Register**, we are simultaneously proposing approval of the same submitted rule. If we receive adverse comments by August 31, 2016, we will publish a timely withdrawal in the **Federal Register** to notify the public that the direct final approval will not take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on September 30, 2016. This will incorporate these rules into the federally enforceable SIP.

Please note that if the EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the PCAPCD and VCAPCD rules described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these documents available electronically through www.regulations.gov and in hard copy at U.S. Environmental Protection Agency Region IX (Air-4), 75 Hawthorne Street, San Francisco, CA, 94105-3901.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of

Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 30, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the Proposed Rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that the EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements.

Dated: June 14, 2016.

Alexis Strauss,

Acting Regional Administrator, Region IX.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

■ 2. Section 52.220 is amended by adding paragraphs (c)(202)(i)(E)(3), (c)(429)(i)(A)(6), (c)(472)(i)(B), and (c)(474) to read as follows:

§ 52.220 Identification of plan—in part.

* * * * *
 (c) * * *
 (202) * * *

¹ Upon the effective date of this final action, submitted PCAPCD Rule 250 would supersede existing PCAPCD Rule 250, approved at 60 FR 43713 in the applicable SIP. Submitted VCAPCD Rule 74.15.1 would supersede existing VCAPCD Rule 74.15.1, approved at 79 FR 28612.

(j) * * *

(E) * * *

(3) Previously approved on August 23, 1995, in paragraph (c)(202)(i)(E)(1) of this section, and now deleted with replacement in (c)(474)(i)(A)(1), Rule 250, “Stationary Gas Turbines,” adopted on October 17, 1994.

* * * * *

(429) * * *

(i) * * *

(A) * * *

(6) Previously approved on May 19, 2014, in paragraph (c)(429)(i)(A)(3) of this section and now deleted with replacement in (c)(472)(i)(B)(1), Rule 74.15.1, “Boilers, Steam Generators, and Process Heaters,” amended on September 11, 2012.

* * * * *

(472) * * *

(i) * * *

(B) Ventura County Air Pollution Control District.

(1) Rule 74.15.1, “Boilers, Steam Generators, and Process Heaters,” revised June 23, 2015.

* * * * *

(474) New and amended regulations were submitted on March 11, 2016, by the Governor’s designee.

(i) Incorporation by reference.

(A) Placer County Air Pollution Control District.

(1) Rule 250, “Stationary Gas Turbines,” amended on October 8, 2015.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R07–OAR–2015–0581; FRL–9949–68–Region 7]

Approval of Missouri’s Air Quality Implementation Plans; Regional Haze State Implementation Plan Revision and 2013 Five-Year Progress Report

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve the Missouri State Implementation Plan (SIP) revision submitted to EPA by the State of Missouri on August 5, 2014, documenting that the State’s existing plan is making adequate progress to achieve visibility goals by 2018. The Missouri SIP revision addressed the Regional Haze Rule (RHR) requirements under the Clean Air Act (CAA or Act)

to submit a report describing progress in achieving reasonable progress goals (RPGs) to improve visibility in Federally designated areas in nearby states that may be affected by emissions from sources in Missouri. EPA is taking final action to approve Missouri’s determination that the existing Regional Haze (RH) SIP is adequate to meet the visibility goals and requires no substantive revision at this time.

DATES: This final rule is effective August 31, 2016.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2015–0581. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or at the Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219. The Regional Office’s official hours of business are Monday through Friday, 8:00 a.m. to 4:30 p.m., excluding Federal holidays. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT:

Amy Algoe-Eakin, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219 at 913–551–7942, or by email at algoe-eakin.amy@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” or “our” refer to EPA. This section provides additional information by addressing the following:

- I. Background
- II. Summary of SIP Revision
- III. Final Action
- IV. Statutory and Executive Order Reviews

I. Background

On September 29, 2015, (80 FR 58410), EPA published a notice of proposed rulemaking (NPR) for the State of Missouri. In the NPR, EPA proposed approval of Missouri’s progress report SIP, a report on progress made in the first implementation period towards RPGs for Class I areas that are affected by emissions from Missouri sources. This progress report SIP and

accompanying cover letter also included a determination that Missouri’s existing regional haze SIP requires no substantive revision to achieve the established regional haze visibility improvement and emissions reduction goals for 2018.

States are required to submit a progress report in the form of a SIP revision every five years that evaluates progress towards the RPGs for each mandatory Class I Federal area within the state and in each mandatory Class I Federal area outside the state which may be affected by emissions from within the state. See 40 CFR 51.308(g). In addition, the provisions under 40 CFR 51.308(h) require states to submit, at the same time as the 40 CFR 51.308(g) progress report, a determination of the adequacy of the state’s existing regional haze SIP. The first progress report SIP is due five years after submittal of the initial regional haze SIP. The Missouri Department of Natural Resources (MDNR) submitted its regional haze SIP on August 5, 2009, and a supplement on January 30, 2012, in accordance with 40 CFR 51.308(b).¹

On February 14, 2014, MDNR provided to the Federal Land Managers a revision to Missouri’s SIP reporting on progress made during the first implementation period toward RPGs for Class I areas in the state and Class I areas outside the state that are affected by Missouri sources. Missouri has two Class I areas, Mingo National Wildlife Refuge (Mingo) and Hercules Glades Wilderness Area (Hercules Glades). Missouri also hosts an additional

¹ On June 26, 2012, EPA finalized a limited approval of Missouri’s August 5, 2009, regional haze SIP to address the first implementation period for regional haze (77 FR 38007). In a separate action, published on June 7, 2012 (77 FR 33642), EPA finalized a limited disapproval of the Missouri regional haze SIP because of the State’s reliance on the Clean Air Interstate Rule to meet certain regional haze requirements, which EPA replaced in August 2011 with the Cross-State Air Pollution Rule (CSAPR) (76 FR 48208 (Aug. 8, 2011)). In the aforementioned June 7, 2012, action, EPA finalized a Federal Implementation Plan (FIP) for Missouri to replace the State’s reliance on CAIR with reliance on CSAPR. Following these EPA actions, the D.C. Circuit issued a decision in *EME Homer City Generation, L.P. v. EPA* (“*EME Homer City*”), 696 F. 3d 7 (D.C. Cir. 2012), vacating CSAPR and keeping CAIR in place pending the promulgation of a valid replacement rule. On April 29, 2014, the U.S. Supreme Court reversed the D.C. Circuit opinion vacating CSAPR, and remanded the case for further proceedings. *EME Homer City*, 572 U.S. 134 S. Ct. 1584. In the interim, CAIR remained in place. On October 23, 2014, the D.C. Circuit granted EPA’s motion to lift the stay on CSAPR. Order of October 23, 2014, in *EME Homer City*, D.C. Cir. No. 11–1302. EPA issued an interim final rule to clarify how EPA will implement CSAPR consistent with the D.C. Circuit’s order. 79 FR 71663 (December 3, 2014) (interim final rulemaking). Subsequent to the interim final rulemaking, EPA began implementation of CSAPR on January 1, 2015.
