## II. Discussion

As discussed in the final EIS, the NRC staff's recommendation related to the environmental aspects of the proposed action is that the COLs should be issued. This recommendation is based on: (1) The Environmental Report (ER) submitted by FPL, as revised; (2) consultation with Federal, State, Tribal, and local agencies; (3) the NRC staff's independent review; (4) the NRC staff's consideration of comments received during the environmental review; and (5) the assessments summarized in the final EIS, including the potential mitigation measures identified in the ER and in the final EIS. In addition, in making its recommendation, the NRC staff has concluded that there are no environmentally preferable or obviously superior sites in the region of interest.
