BILLING CODE 9110-04-P

LIBRARY OF CONGRESS

36 CFR Part 701

[Docket No. LOC 2017-1]

Library of Congress License Agreements

AGENCY: Library of Congress.

ACTION: Final rule.

SUMMARY: The Library of Congress is issuing this final rule regarding license agreements and similar agreements and instruments entered into by it. The rule will prevent the Library from potentially violating the Anti-Deficiency Act and other restrictions under Federal law, preserve the Library's rights under copyright law in regard to electronic resources and software, and streamline the Library's contracting and collections acquisitions processes for these electronic resources and software.

DATES: Effective June 27, 2017.

FOR FURTHER INFORMATION CONTACT: Elizabeth A. Pugh, General Counsel, Office of the General Counsel, Library of Congress, Washington, DC 20540-1050. Telephone No. (202) 707-6316.

SUPPLEMENTARY INFORMATION: The Librarian of Congress is authorized to make regulations with respect to the Library of Congress (2 U.S.C. 136). Since neither the **Federal Register Act** nor the Administrative Procedure Act has binding effect on the legislative branch, the Library of Congress is not required to publish its regulations in the CFR. However, as the purpose of the CFR is to notify industry, general business, and the people (*Toledo, P. & W.R.R. v. Stover*, 60 F. Supp. 587 (S.D. Ill. 1945)), it is appropriate for the Library to publish those regulations which affect the rights and responsibilities of, and restrictions on, the public. Further, 1 CFR 5.3 allows documents "in the public interest" to be published in the **Federal Register** even if they are not required to be published under the **Federal Register Act** and 1 CFR 5.2.

The regulation governs license agreements and similar agreements and instruments entered into by the Library of Congress. The regulation establishes terms for these agreements intended to prevent the Library from incurring

obligations that would potentially violate the Anti-Deficiency Act and other restrictions imposed by Federal law, to preserve the Library's rights under U.S., foreign, and international copyright law, and to protect the Library's ability to make use of computer software and other materials it licenses. In addition, this regulation is intended to streamline the contracting and collections acquisitions processes for the Library and for licensors by enabling the Library to avoid the need to negotiate specific terms addressing these matters in each license agreement into which it enters.
