BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

FDIC Advisory Committee on Economic Inclusion (ComE–IN); Notice of Meeting

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of open meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, notice is hereby given of a meeting of the FDIC Advisory Committee on Economic Inclusion, which will be held in Washington, DC. The Advisory Committee will provide advice and recommendations on initiatives to expand access to banking services by underserved populations.

DATES: Wednesday, October 18, 2017, from 9:00 a.m. to 3:45 p.m.

ADDRESSES: The meeting will be held in the FDIC Board Room on the sixth floor of the FDIC Building located at 550 17th Street NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Requests for further information concerning the meeting may be directed to Mr. Robert E. Feldman, Committee Management Officer of the FDIC, at (202) 898–7043.

SUPPLEMENTARY INFORMATION:

Agenda: The agenda will be focused on Safe Accounts, 2016 FDIC Bank Survey Results, Financial Inclusion for Persons with Disabilities, and an update on Neighborhood Access to Bank Branches. The agenda may be subject to change. Any changes to the agenda will be announced at the beginning of the meeting.

Type of Meeting: The meeting will be open to the public, limited only by the space available on a first-come, first-served basis. For security reasons, members of the public will be subject to security screening procedures and must present a valid photo identification to enter the building. The FDIC will provide attendees with auxiliary aids (*e.g.,* sign language interpretation) required for this meeting. Those attendees needing such assistance should call (703) 562–6067 (Voice or TTY) at least two days before the meeting to make necessary arrangements. Written statements may be filed with the committee before or after the meeting. This ComE–IN meeting will be Webcast live via the Internet at: *http://fdic.windrosemedia.com.* Questions or troubleshooting help can be found at the same link. For optimal viewing, a high-speed internet connection is recommended. The ComE–IN meeting videos are made available on-demand approximately two weeks after the event.

Dated: September 28, 2017.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary, Federal Deposit Insurance Corporation.

BILLING CODE 6714–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice to All Interested Parties of the Termination of the Receivership of 10286—Horizon Bank; Bradenton, Florida

Notice is hereby given that the Federal Deposit Insurance Corporation (FDIC) as Receiver for Horizon Bank, Bradenton, Florida (''the Receiver'') intends to terminate its receivership for said institution. The FDIC was appointed Receiver of Horizon Bank on September 10, 2010. The liquidation of the receivership assets has been completed. To the extent permitted by available funds and in accordance with law, the Receiver will be making a final dividend payment to proven creditors.

Based upon the foregoing, the Receiver has determined that the continued existence of the receivership will serve no useful purpose. Consequently, notice is given that the receivership shall be terminated, to be effective no sooner than thirty days after the date of this notice. If any person wishes to comment concerning the termination of the receivership, such comment must be made in writing and sent within thirty days of the date of this notice to: Federal Deposit Insurance Corporation, Division of Resolutions and Receiverships, Attention: Receivership Oversight Department 34.6, 1601 Bryan Street, Dallas, TX 75201.

No comments concerning the termination of this receivership will be considered which are not sent within this time frame.

Dated: September 28, 2017.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30 Day–17–1083]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled National Notifiable Diseases Surveillance System to the Office of Management and Budget (OMB) for review and approval. CDC previously published a ''Proposed Data Collection Submitted for Public Comment and Recommendations'' notice on December 22, 2016 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to *omb@cdc.gov.* Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Evaluation of the National Tobacco Prevention and Control Public Education Campaign (OMB Control Number 0920–1083, Expiration 09/30/2017)—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In 2012, HHS/CDC launched Phase 1 of the National Tobacco Prevention and Control Public Education Campaign (The Campaign). The primary objectives of The Campaign are to encourage smokers to quit smoking and to encourage nonsmokers to communicate with smokers about the dangers of smoking. To evaluate ''The Campaign,'' CDC obtained OMB approval for information collections beginning in 2012 (OMB Control Number 0920–0923). CDC conducted baseline and follow-up surveys with both smokers and nonsmokers.

In 2013, CDC launched Phase 2 of ''The Campaign'' and conducted an additional survey with smokers and one additional survey with nonsmokers under OMB Control Number 0920–0923.

CDC recently completed collecting the information needed to evaluate Phase 3 of ''The Campaign,'' which launched in early 2014. The evaluation of The Campaign in 2014 consisted of a longitudinal cohort using four waves of online surveys involving smokers and three waves involving nonsmokers to assess their awareness of and reactions to the 2014 advertisements as related to The Campaign's objectives (see previously-approved information collection with OMB Control Number 0920–0923, expired 3/31/2017).

The final wave of this data collection effort also served as a pre-campaign baseline for Phase 4 of the campaign in 2015. The CDC subsequently aired Phase 5 of the campaign in 2016. To evaluate Phases 4 and 5, CDC fielded four additional waves of survey data collection. CDC fielded these data collections from September to November in 2015 and March to June, June to August, and November to December of 2016 (see previously approved information collection under OMB Control Number 0920–1083, expires 9/30/2017).

CDC has scheduled to launch new media activities for Phases 6 and 7 of ''The Campaign'' in early 2017 and early 2018, respectively. To support evaluation of ''The Campaign'' through Phases 6 and 7, CDC plans to field five new waves of information collection. CDC will field the surveys in English and Spanish and will occur during 2017 and 2018. Once enrolled in the first wave of data collection, researchers will re-contact all participants for follow-up at subsequent survey waves.

The sample for the data collection will originate from two sources: (1) An online longitudinal cohort of smokers and nonsmokers, sampled randomly from postal mailing addresses in the United States (address-based sample, or ABS); and (2) the existing GfK KnowledgePanel, an established long-term online panel of U.S. adults. The ABS-sourced longitudinal cohort will consist of smokers and nonsmokers who have not previously participated in any established online panels to reduce potential panel conditioning bias from previous participation. GfK will recruit the new cohort, utilizing similar recruitment methods that are used in the recruitment of KnowledgePanel. To support larger sample sizes that will allow for more in-depth subgroup analysis, which is a key objective for CDC, researchers will use the GfK KnowledgePanel in combination with the new ABS-sourced cohort. Researchers will conduct all online surveys, regardless of sample source, via the GfK KnowledgePanel Web portal for self-administered surveys.

Researchers will collect information through Web surveys (self-administered on computers in the respondent's home or in another convenient location). Researchers will collect information about smokers' and nonsmokers' awareness of and exposure to specific campaign advertisements; knowledge, attitudes, beliefs related to smoking and secondhand smoke; and other marketing exposure. The surveys will also measure behaviors related to smoking cessation (among the smokers in the sample) and behaviors related to nonsmokers' encouragement of smokers to quit smoking, recommendations of cessation services, and attitudes about other tobacco and nicotine products.

It is important to evaluate ''The Campaign'' in a context that assesses the dynamic nature of tobacco product marketing and uptake of various tobacco products, particularly since these may affect successful cessation rates. Survey instruments may be updated to include new or revised items on relevant topics, including cigars, noncombustible tobacco products, and other emerging trends in tobacco use.

Participation is voluntary and there are no costs to respondents other than their time. CDC estimates the total response burden at 37,170 hours over two years between August 2017 and February 2019. Thus, CDC estimates the total annualized burden hours at 18,585 for the combined English and Spanish versions of each survey.

ESTIMATED ANNUALIZED BURDEN HOURS

(Type of) respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
General Population	Screening & Consent Questionnaire (English).	23,750	1	5/60

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

(Type of) respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
	Screening & Consent Questionnaire (Spanish).	1,250	1	5/60
Adults Smokers and Nonsmokers, ages 18–54, in the United States.	Smoker Survey (Wave A) (English)	6,175	1	30/60
	Smoker Survey (Wave A) (Spanish)	325	1	30/60
	Smoker Survey (Wave B) (English)	3,800	1	30/60

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day–17–17KB]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled National Notifiable Diseases Surveillance System to the Office of Management and Budget (OMB) for review and approval. CDC previously published a ''Proposed Data Collection Submitted for Public Comment and Recommendations'' notice on January 17, 2017 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to *omb@cdc.gov.* Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Assessment of the Market for Electronic Technology for Underground Coal Mining Safety and Health Applications—New—Centers for Disease Control and Prevention (CDC), National Institute for Occupational Safety and Health, Office of Mine Safety and Health Research.

Background and Brief Description

Underground coal mining in the U.S. is a relatively small industry (about 46,000 employees) that operates in a unique and hazardous work environment. The common presence of explosive gasses and other hazards creates special safety requirements for equipment, including safety and health protection technologies, used in underground coal mines.

The MINER Act of 2006 assigned the National Institute for Occupational Safety and Health (NIOSH) the responsibility to enhance development of new mine safety and health protection technology and technological applications and to expedite the commercial availability and implementation of such technology. As part of this study, NIOSH seeks to identify the barriers to commercial availability and implementation of such technology in U.S. mines.

Experience to date has shown that there are many issues that the U.S.
