SUPPLEMENTARY INFORMATION:

Title: IRS Taxpayer Burden Surveys.

OMB Number: 1545-2212.

Form Number: CS-11-276.

Abstract: Each year, individual taxpayers in the United States submit more than 140 million tax returns to the Internal Revenue Service (IRS). The IRS uses the information in these returns, recorded on roughly one hundred distinct forms and supporting schedules, to administer a tax system whose rules span thousands of pages. Managing such a complex and broad-

based tax system is costly but represents only a fraction of the total burden of the tax system. Equally, if not more burdensome, is the time and out-of-pocket expenses that taxpayers spend in order to comply with tax laws and regulations.

The IRS has conducted prior surveys of individual taxpayers in 1984 (OMB 1545-0802), 1999 (OMB 1545-1688), 2000 (W&I taxpayers OMB 1545-1688, Self-employed taxpayers OMB 1545-1740), 2007 (OMB 1545-1349), 2010 through 2015 (this OMB Control Number). CY2010 and CY2014 Taxpayer Compliance Burden Surveys were conducted under this OMB Control Number.

The IRS has conducted Business Taxpayer Burden Survey for TY2009 (OMB 1545-1432) and TY2012 (this OMB Control Number). The IRS also conducted the TY2010 Tax Exempt Organization Burden Survey, and the CY2014 Business Compliance Burden Survey under this OMB Control Number.

The purpose of the taxpayer burden surveys is to gather data that will be used to update and expand the IRS Taxpayer Burden Model, a robust predictive model based on an improved burden estimation methodology. Information gathered by the surveys is not available in the administrative tax return data, so survey data are a critical input to the model.

The critical items on the surveys concern respondents' time and cost burden estimates for complying with tax filing requirement (or resolving a post-filing issue in the case of the Individual and Business Taxpayer Compliance Surveys). Additional items on the survey will serve as contextualizing variables for interpretation of the burden items. These items include information regarding tax preparation methods and activities, tax-related recordkeeping, gathering materials, learning about tax law, using IRS and/or non-IRS taxpayer services, and tax form completion.

Changes in tax regulations, tax administration, tax preparation methods, and taxpayer behavior continue to alter the amount and distribution of taxpayer burden. Data from updated surveys will better reflect the current tax rules and regulations, the increased usage of tax preparation software, increased efficiency of such software, changes in tax preparation regulations, the increased use of electronic filing, the behavioral response of taxpayers to the tax system, the changing use of services, both IRS and external, and related information collection needs.
