

privileged evidence that is relevant to the subject matter of the NIST investigation described in this notice. Such evidence may be submitted to the address contained in this section. Confidential information will only be accepted pursuant to an appropriate nondisclosure agreement.

FOR FURTHER INFORMATION CONTACT: Dr. Howard Harary, Engineering Laboratory, National Institute of Standards and Technology, Mail Stop 8600, Gaithersburg, MD 20899-8600, telephone number (301) 975-5900.

SUPPLEMENTARY INFORMATION:

Background: The National Construction Safety Team Act (“Act”), Public Law 107-231, codified at 15 U.S.C. 7301 *et seq.*, was enacted to provide for the establishment of investigative teams (“Teams”) to assess building performance and emergency response and evacuation procedures in the wake of any building failure that has resulted in substantial loss of life or that posed significant potential of substantial loss of life. The purpose of investigations by Teams is to improve the safety and structural integrity of buildings in the United States. As stated in the statute, a Team shall (1) establish the likely technical cause or causes of the building failure; (2) evaluate the technical aspects of evacuation and emergency response procedures; (3) recommend, as necessary, specific improvements to building standards, codes, and practices based on the findings made pursuant to (1) and (2); and recommend any research and other appropriate actions needed to improve the structural safety of buildings, and improve evacuation and emergency response procedures, based on the findings of the investigation. In addition, NIST has promulgated regulations implementing the Act. The regulations are found at 15 CFR part 270.

NIST sent a preliminary reconnaissance team to collect information and data related to the hurricane that made landfall in the U.S. territory of Puerto Rico on September 20, 2017. Based on the recommendations of the preliminary reconnaissance team and evaluation of the criteria listed in the regulations implementing the Act, specifically in 15 CFR 270.102, on February 28, 2018, the Director of the National Institute of Standards and Technology (NIST), United States Department of Commerce, established a Team to study building performance and emergency response and evacuation during Hurricane Maria. The Team may include members who are Federal employees and members

who are not Federal employees. Team members who are Federal employees are governed by the Federal conflict of interest laws. Team members who are not Federal employees will be Federal government contractors, and conflicts of interest related to their service on the Team will be governed by FAR Subpart 9.5, Organizational and Consultant Conflicts of Interest, which will be incorporated by reference into all such contracts.

Members of the public are encouraged to submit to the Team non-privileged data and artifacts that are relevant to the subject matter of the NIST investigation described in this notice. Such data and artifacts may be submitted to the address contained in the **ADDRESSES** section of this notice. Confidential information will only be accepted pursuant to an appropriate nondisclosure agreement.

Authority: 15 U.S.C. 7301 *et seq.*, 15 CFR part 270.

Kevin Kimball,

NIST Chief of Staff.

Fisheries of the Exclusive Economic Zone Off Alaska; Alaska Groundfish and Halibut Seabird Working Group; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS Alaska Groundfish and Halibut Seabird Working Group will meet to discuss use of electronic monitoring (EM) to report seabird bycatch and a discussion on the challenges of quantifying seabird bycatch in the trawl fisheries.

DATES: The meeting will be held on March 20, 2018, from 1 p.m. to 5 p.m., and on March 21, 2018, from 8 a.m. to 11:30 a.m., Alaska Daylight Time.

ADDRESSES: The meeting will be held at the NMFS Alaska Regional Office located at 709 W 9th St., Room 445C, Juneau, AK. Photo identification is required to enter this facility.

FOR FURTHER INFORMATION CONTACT:

Anne Marie Eich, 907-586-7172.

SUPPLEMENTARY INFORMATION: The Alaska Groundfish and Halibut Seabird

Working Group formed as a result of the 2015 biological opinion on effects of the Gulf of Alaska and Bering Sea/Aleutian Islands groundfish fisheries on short-tailed albatross. The working group is tasked with reviewing information for mitigating effects of the groundfish fisheries on short-tailed albatross and other seabirds. The workgroup will hold an in-person meeting in Juneau, Alaska on March 20 and 21, 2018. Meeting topics include the use of EM to report seabird bycatch and a discussion on the challenges of quantifying seabird bycatch in trawl fisheries. NMFS will keep the North Pacific Fishery Management Council (Council) apprised of the working group’s activities and any resulting recommendations for methods to reduce seabird bycatch. Any changes to seabird avoidance regulations are expected to follow the standard Council process.

Special Accommodations

This workshop will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Marie Eich, 907-586-7172, at least 5 working days prior to the meeting date.

Dated: February 23, 2018.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
